What are the key risks that are specific to the Issuer?

- **Risk Relating to the Issuer**

Holders of Securities issued by the Issuer bear the credit risk of the Issuer, that is the risk that the Issuer is not able to meet its obligations under such Securities, irrespective of whether such Securities are referred to as capital or principal protected or how any principal, interest or other payments under such Securities are to be calculated. If the Issuer is not able to meet its obligations under the Securities, then that would have a significant negative impact on the investor's return on the Securities and an investor may lose up to its entire investment.

The existence of substantial inter-relationships (including the provision of funding, capital, services and logistical support to or by MSI plc, as well as common or shared business or operational platforms or systems, including employees) between MSI plc and other Morgan Stanley Group companies exposes MSI plc to the risk that, factors which could affect the business and condition of Morgan Stanley or other companies in the Morgan Stanley Group may also affect the business and condition of MSI plc. Further, Securities issued by MSI plc will not be guaranteed by Morgan Stanley. The application of regulatory requirements and strategies in the United Kingdom to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for the holders of securities issued by MSI plc.

The following key risks affect Morgan Stanley and, since Morgan Stanley is the ultimate holding company of MSI plc, also impact MSI plc:

- **Risks relating to the financial situation of Morgan Stanley**

Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors, including changes in asset values. Significant changes to interest rates could adversely affect Morgan Stanley's results of operations. Holding large and concentrated positions may expose Morgan Stanley to losses. These factors may result in losses for a position or portfolio owned by Morgan Stanley.

Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations, as well as that a default by a large financial institution or financial services firm could adversely affect financial markets. Such factors give rise to the risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.

Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend on its credit ratings. Morgan Stanley is a holding company, has no business operations and depends on dividends, distributions and other payments from its subsidiaries. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. As a result of the foregoing, there is a risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets.

- **Risks relating to the operation of Morgan Stanley's business activities**

Morgan Stanley is subject to operational risks, including a failure, breach or other disruption of its operations or security systems or those of Morgan Stanley's third parties (or third parties thereof), as well as human error or malfeasance, which could adversely affect its businesses or reputation. A cyberattack, an information or security breach, or a technology failure of Morgan Stanley or of third parties could adversely affect Morgan Stanley's ability to conduct its business or manage its exposure to risk, or result in disclosure or misuse of personal, confidential or proprietary information and otherwise adversely impact its results of operations, liquidity and financial condition, as well as cause reputational harm.

Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposures in all market environments or against all types of risk.

- **Legal, Regulatory and Compliance Risk**

The financial services industry is subject to extensive regulation, and changes in regulation will impact Morgan Stanley's business. The application of regulatory requirements and strategies in the U.S. or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for Morgan Stanley's security holders and subject Morgan Stanley to other restrictions. Furthermore,

Morgan Stanley may be prevented from paying dividends or taking other capital actions because of regulatory constraints or revised regulatory capital requirements. The financial services industry faces substantial litigation and is subject to extensive regulatory and law enforcement investigations, and Morgan Stanley may face damage to its reputation and legal liability. In addition, a failure to address conflicts of interest appropriately could adversely affect Morgan Stanley's businesses and reputation. Other risks relating to Morgan Stanley's business activities Morgan Stanley faces strong competition from other financial services firms, which could lead to pricing pressures that could materially adversely affect its revenue and profitability. Further, automated trading markets and the introduction and application of new technologies may adversely affect Morgan Stanley's business and may increase competition. Morgan Stanley is subject to numerous political, economic, legal, compliance, tax, operational, franchise and other risks as a result of its international operations (including risks of possible nationalization, expropriation, price controls, capital controls, exchange controls, increased taxes and levies, cybersecurity, data transfer and outsourcing restrictions, regulatory scrutiny regarding the use of new technologies, prohibitions on certain types of foreign and capital market activities, limitations on cross-border listings and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability, including tensions between China and the U.S.) which could adversely impact its businesses in many ways. Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, partnerships, minority stakes or strategic alliances, and certain acquisitions may subject its business to new or increased risk. The application of regulatory requirements and strategies in the U.S. or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for Morgan Stanley's security holders and subject Morgan Stanley to other restrictions. Additionally, climate-related risks could result in increased costs and adversely affect Morgan Stanley's operations, businesses and clients.

The Determination Agent will determine the “**Initial Reference Value**” of the Index in respect of a relevant day as the value of the Index as of the scheduled weekday closing time of the exchange in respect of such day.

The Determination Agent will determine the “**Final Reference Value**” of the Index by first determining the value of the Index as of the scheduled weekday closing time of the exchange in respect of each Averaging Date and then determining the arithmetic average of such values.

Where:

Disruption Events: The following disruption events apply in relation to the Index: Change in Law, Hedging Disruption and Increased Cost of Hedging.

Disruption Events can affect the Index and lead to adjustments and/or early redemption of the Securities. The Determination Agent shall determine whether the Securities or any exchanges or price sources are affected by such events on a relevant date of valuation, and may make adjustments to the Securities, or take any other appropriate action, to account for relevant adjustments or events in relation to the Index. In addition, in certain circumstances, the Issuer may redeem or terminate the Securities early following any such event. In this case, in relation to each Security, the Issuer will pay an amount (which amount may, in certain circumstances, be the fair market value of the Securities) which may be less than the nominal value or face value.

Tax Redemption: The Securities may be redeemed early for tax reasons at an amount (determined by the Determination Agent, acting in good faith and in a commercially reasonable manner) equal to the fair market value of such Security on such day as is selected by the Determination Agent acting in good faith and in a commercially reasonable manner.

Events of Default: If an Event of Default occurs, the Securities may be redeemed prior to their Maturity Date at the Early Redemption Amount if the Securityholders of not less than 25.00 per cent. in aggregate principal amount of such Securities give written notice to the Issuer declaring the Securities to be immediately due and payable.

The Events of Default applicable to the Securities are as follows:

- (1) non-payment of any amount of principal or any amount of interest (in each case, within 30 days of the due date) in respect of the Securities; and
- (2) the Issuer becomes insolvent or is unable to pay its debts as they fall due, or an administrator or liquidator is appointed in respect of the Issuer or the whole or a substantial part of its undertaking, assets and revenues (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent), or the Issuer takes any action for a composition with or for the benefit of its creditors generally, or an order is made or an effective resolution is passed for the winding up, liquidation or dissolution of the Issuer (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent) and such order or effective resolution has remained in force and has not been rescinded, revoked or set aside for 60 days after the date on which such order is made or effective resolution is passed.

Early Redemption Amount: The Early Redemption Amount will be determined by the Determination Agent to be the amount a qualified financial institution (being a financial institution organised under the laws of any jurisdiction in the USA, European Union or Japan and which satisfies certain credit ratings requirements, which the Determination Agent selects for this purposes at the time when the Early Redemption Amount is to be determined) would charge to assume all of the Issuer's obligations in respect of the Securities or to undertake obligations that would have the effect of preserving the economic equivalent of any payments by the Issuer to the Securityholder with respect to the Securities.

Governing Law: The Securities will be governed by English law.

Limitations to the rights:

Prescription. Claims for principal and interest on redemption in respect of the Securities shall become void unless made, in the case of claims for principal, within a period of 10 years after the due date for payment, and in the case of claims for interest made within three years after the due date for payment.

C.1.4	<i>Rank of the Securities in the Issuer's capital structure upon insolvency</i>
--------------	---

The Securities constitute direct and general obligations of the Issuer ranking *pari passu* among themselves.

C.1.5	<i>Restrictions on free transferability of the Securities</i>
--------------	---

Interests in the Securities will be transferred in accordance with the procedures and regulations of the relevant clearing system, subject to restrictions on sale of the Securities into certain jurisdictions. The Securities cannot be offered or sold in the U.S. or to U.S. persons, nor held in the U.S. or by U.S. Persons at any time. The Securities may not be acquired or held by, or acquired with the assets of, any employee benefit plan subject to Title I of the United States Employee Retirement Income Security Act of 1974, as amended (“**ERISA**”), any individual retirement account or plan subject to Section 4975 of the United States Internal Revenue Code of 1986, or any entity whose underlying assets include “plan assets” within the meaning of Section 3(42) of ERISA by reason of any such employee benefit plan's account's or plan's investment therein.

C.2	<i>Where will the Securities be traded?</i>
Application is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on Nasdaq Stockholm with effect from on or around the Issue Date.	
C.3	<i>What are the key risks that are specific to the Securities?</i>
• The Securities are not deposits or savings accounts and are not insured by the U.S. Federal deposit insurance corporation, the UK Financial Services Compensation Scheme, or any other governmental agency or instrumentality or deposit protection scheme anywhere, nor are they obligations of, or guaranteed by, a bank. • The terms of the Securities differ from those of ordinary debt securities because the Securities do not pay interest and on maturity, depending on the performance of the Index, may return less than the amount invested or nothing. • It is impossible to predict how the level of the Index will vary over time. The historical performance value (if any) of the Index does not indicate the future performance of the Index. Factors such as volatility, interest rates, remaining term of the Securities or exchange rates will influence the price investors will receive if an investor sells its Securities prior to maturity. • The Issuer may amend the terms and conditions of the Securities and the deed of covenant dated 10 July 2026 (as amended, supplemented and/or restated from time to time) in relation to, amongst others, the Securities, without Securityholder consent if, in its opinion, such amendments are not materially prejudicial to Securityholders. • An investment in the Securities bears the risk that the Issuer is not able to fulfil its obligations in respect of such Securities at maturity or before maturity of the Securities. In certain circumstances, holders may lose all or a substantial portion of their principal or investment. • The Issuer has the right to withdraw the offering of the Securities and cancel the issuance of the Securities prior to the end of the subscription period for any reason. Reasons for the cancellation of the offer include, in particular: (i) adverse market conditions, as determined by the Issuer in its reasonable discretion (such as, for example, increased equity market volatility and increased currency exchange rate volatility); or (ii) that the number of applications received at that time is insufficient, in the Issuer's opinion, to make an economically viable issuance. • The market price of Securities may be very volatile. Further, investors in Securities will receive no interest and payment of principal, may occur at a different time or in a different currency than expected. The Index may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices. The timing of changes in the Index may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Index, the greater the effect on yield. • "Benchmarks" are subject to regulatory reforms, which could have a material impact on any Securities linked to a "benchmark" index, including in any of the following circumstances: (i) certain "benchmarks" may be discontinued, materially modified, deemed non-representative or cease to be regulated if deemed to be non-critical and non-significant under Regulation (EU) 2025/914, or (ii) the administrator/benchmark may not obtain the requisite approvals or may be subject to a public notice, in each case under applicable legislation, such that restrictions on use apply. Depending on the particular "benchmark" and the applicable terms of the Securities, the occurrence of such a circumstance may lead to such benchmark being replaced with an alternative pre-nominated index, or an alternative benchmark selected by the Determination Agent, or to an adjustment to the terms and conditions of the Securities or early redemption of the Securities. Any of the above consequences could have a material adverse effect on the value of and return on any such Securities. • The Index is comprised of a synthetic portfolio of other assets, and its performance may be dependent on the performance of such assets. Returns on the Securities do not reflect a direct investment in underlying shares or other assets comprising the Index. A change in the composition or discontinuance of the Index could adversely affect the market value of the Securities. The Securities are not sold or promoted by the Index or the sponsor of such Index. The Issuer or its affiliates are not liable for the actions or omissions of the sponsor of the Index, any information concerning the Index, the performance of such Index or use thereof in connection with the Securities.

D.2	<i>Why has the prospectus been produced?</i>
<i>Reasons for offer, use and estimated net amount of proceeds</i> The net proceeds of the issue of the Securities will be used by the Issuer for general corporate purposes and/or in connection with hedging its obligations under the Securities. <i>Underwriting agreement on a firm commitment basis</i> The offer of the Securities is not subject to an underwriting agreement on a firm commitment basis. <i>Conflicts of interest</i> Potential conflicts of interest may exist between the investor and the Determination Agent, who, under the terms of the Securities, may make such adjustments to the Securities as it considers appropriate as a consequence of certain events affecting the Index, and in doing so, is entitled to exercise substantial discretion.

B.3 Vilka nyckelrisker är specifika för Emittenten?

• Risker relaterade till Emittenten

Innehavare av Värdepapper emitterade av Emittenten bär kreditrisken för Emittenten, som är risken att Emittenten inte kan uppfylla sina åtaganden enligt sådana Värdepapperen, oavsett huruvida sådana Värdepapper är kapitalskyddade eller principalskyddade eller hur kapitalbelopp, räntebelopp eller andra betalningar enligt sådana Värdepapper ska beräknas. Om Emittenten inte kan uppfylla sina åtaganden enligt Värdepapperen, kommer det ha en betydande negativ påverkan på investerarens avkastning på Värdepapperen och en investerare kan förlora hela sin investering.

Förekomsten av betydande interna förhållanden (inkluderande villkoren för finansiering, kapital, tjänster och logistiskt stöd till eller från MSI plc, samt gemensam eller delad verksamhet eller operationella plattformar eller system, inklusive anställda) mellan MSI plc och andra företag inom Morgan Stanley-Koncernen exponerar MSI plc mot risken att, faktorer som kan påverka verksamheten och förhållandena för Morgan Stanley eller andra företag inom Morgan Stanley-Koncernen kan även påverka verksamheten och förhållandena för MSI plc. Vidare, Värdepapper emitterade av MSI plc kommer inte garanteras av Morgan Stanley. Tillämpningen av regulatoriska krav och strategier i Storbritannien för att underlätta den ordnande resolutionen av stora finansiella institutioner kan utgöra en större risk för förlust för innehavare av värdepapper emitterade av eller garanterade av MSI plc.

De följande nyckelriskerna påverkar Morgan Stanley, och eftersom Morgan Stanley är det yttersta holdingmoderbolaget för MSI plc, påverkar de även MSI plc:

• Risker relaterade till Morgan Stanleys finansiella ställning

Morgan Stanleys verksamhetsresultat kan väsentligen påverkas av marknadsfluktuationer och av globala och ekonomiska händelser och andra faktorer, inklusive förändringar i tillgångsvärdering. Betydande förändringar i räntesatser skulle kunna negativt påverka Morgan Stanleys verksamhetsresultat. Att inneha stora och koncentrerade positioner exponerar Morgan Stanley för stora förluster. Dessa faktorer kan resultera i förluster för en position eller portfölj som ägs av Morgan Stanley.

Morgan Stanley är exponerat för risken att tredje parter som är skuldsatta till företaget inte kommer uppfylla sina åtaganden, såväl som att ett fallissemang av en stor finansiell institution eller finansiellt tjänsteföretag negativt kan påverka finansiella marknader. Sådana faktorer ger upphov till risken för förlust som uppstår när en låntagare, motpart eller emittent inte uppfyller sina finansiella åtaganden gentemot Morgan Stanley.

Likviditet är essentiellt för Morgan Stanleys verksamhet och Morgan Stanley förlitar sig på externa källor för att finansiera en betydande del av sin verksamhet. Morgan Stanleys lånekostnader och tillgång till skuldkapitalmarknader är beroende av dess kreditbetyg. Morgan Stanley är ett holdingbolag, har ingen affärsverksamhet och är beroende av dess utdelning, distribution och andra betalningar från dess dotterföretag. Vidare har Morgan Stanleys likviditet och finansiella ställning historiskt varit, och kan i framtiden vara, negativt påverkad av amerikanska och

internationella marknader och ekonomiska händelser. Som en följd av det föregående, finns det en risk att Morgan Stanley kan vara oförmöget att finansiera sin verksamhet på grund av förlorad tillgång till kapitalmarknaderna eller svårigheter att avyttra sina tillgångar.

- **Risker relaterade till bedrivandet av Morgan Stanleys verksamhet**

Morgan Stanley är föremål för operationella risker, inklusive misslyckande, avbrott eller annan störning av dess verksamhet eller säkerhetssystem eller de för Morgan Stanleys tredje parter (eller dess tredje parter), såväl som mänskliga misstag eller tjänstefel, vilket negativt kan påverka dess verksamhet eller rykte. En cyberattack, ett informations- eller säkerhetsavbrott, eller teknisk störning för Morgan Stanley eller tredje parter kan negativt påverka Morgan Stanleys förmåga att utöva sin verksamhet, eller hantera sin riskexponering eller resultera i avslöjande eller olaglig användning av personlig, konfidentiell eller proprietär information och i övrigt negativt påverka dess verksamhetsresultat, likviditet och finansiella ställning, såväl som orsaka en skada på dess rykte.

Morgan Stanleys riskhanteringsstrategier, modeller och processer kanske inte är till fullo effektiva vad avser lindring av dess riskexponering i alla marknadsmiljöer eller mot alla typer av risk.

- **Juridisk, regulatorisk och regelefterlevnadsrisk**

Finansbranschen är föremål för omfattande reglering, och förändringar i regleringen kommer att påverka Morgan Stanleys verksamhet. Tillämpningen av regulatoriska krav och strategier i USA eller andra jurisdiktioner för att underlätta en ordnad resolution av stora finansinstitut kan innebära en större risk för förlust för Morgan Stanleys värdepappersinnehavare och bli föremål för andra restriktioner. Dessutom kan Morgan Stanley hindras från att betala utdelning eller vidta andra kapitalåtgärder på grund av regulatoriska begränsningar eller reviderade lagstadgade kapitalkrav.

Finansbranschen står inför betydande rättstvister och är föremål för omfattande regulatoriska och brottsbekämpande utredningar, och Morgan Stanley kan drabbas av skador på sitt rykte och juridiska ansvar. Dessutom skulle ett misslyckande att hantera intressekonflikter på lämpligt sätt kunna påverka Morgan Stanleys verksamhet och rykte negativt.

- **Andra risker relaterade till Morgan Stanleys verksamhet**

Morgan Stanley står inför stark konkurrens från andra finansiella tjänsteföretag, vilket kan leda till prispress som kan påverka dess intäkter och lönsamhet väsentligt negativt. Vidare kan automatiserade handelsmarknader och införandet och tillämpningen av ny teknik påverka Morgan Stanleys verksamhet negativt och kan öka konkurrensen.

Morgan Stanley är föremål för ett flertal politiska, ekonomiska, juridiska, regelefterlevnads-, skattemässiga, operativa, franchise- och andra risker till följd av sin internationella verksamhet (inklusive risker för eventuell nationalisering, expropriering, priskontroller, kapitalkontroller, valutakontroller, ökade skatter och avgifter, cybersäkerhet, dataöverföring och outsourcingrestriktioner, regulatorisk granskning av användningen av ny teknik, förbud mot vissa typer av utländska aktiviteter och kapitalmarknadsaktiviteter, begränsningar av gränsöverskridande förteckningar och andra restriktiva statliga åtgärder, liksom utbrott av fientligheter eller politisk och statlig instabilitet, inklusive spänningar mellan Kina och USA.) vilket kan påverka dess verksamhet negativt på många sätt.

Det kan hända att Morgan Stanley inte fullt ut kan tillvarata det förväntade värdet från förvärv, avyttringar, joint ventures, partnerskap, minoritetsandelar eller strategiska allianser, och vissa förvärv kan utsätta verksamheten för nya eller ökade risker.

Tillämpningen av regulatoriska krav och strategier i USA eller andra jurisdiktioner för att underlätta en ordnad resolution av stora finansinstitut kan innebära en större risk för förlust för Morgan Stanleys värdepappersinnehavare och bli föremål för andra restriktioner.

Dessutom kan klimatrelaterade risker leda till ökade kostnader och risker och påverka Morgan Stanleys verksamhet, verksamheter och kunder negativt.

C.2	<i>Var kommer Värdepapperen att handlas?</i>
------------	--

Ansökan förväntas göras av Emittenten (eller å dess vägnar) för att inregistrera och/eller ta upp Värdepapperen till handel hos Nasdaq Stockholm med verkan från på eller omkring Emissionsdagen.

C.3	<i>Vilka nyckelrisker är specifika för Värdepapperen?</i>
------------	---

- Värdepapperen är inte insättningar eller sparkonton och är inte försäkrade av vare sig det amerikanska bolaget för insättningsförsäkring (U.S. Federal deposit insurance corporation), UK Financial Services Compensation Scheme eller något annat regeringsorgan eller -funktion eller insättningskyddsarrangemang någonstans. Värdepapperen utgör inte heller något åtagande för, och garanteras inte heller, av någon bank.
- Villkoren för Värdepapperen skiljer sig från de för vanliga skuldinstrument eftersom Värdepapperen inte betalar ränta och, vid förfallodagen, och beroende på utvecklingen för Index, kan återbetala mindre än det investerade beloppet eller ingenting.
- Det är omöjligt att förutsäga hur nivån för Indexet kommer att variera över tid. Det historiska utvecklingsvärdet (om något) för Indexet indikerar inte Indexets framtida resultat. Faktorer som volatilitet, räntesatser, Värdepapperens återstående löptid eller valutakurser kommer att påverka det pris som investerare kommer att få om en investerare säljer sina Värdepapper före förfallodagen.
- Emittenten kan justera villkoren för Värdepapperen och deed of covenant daterad den 10 juli 2026 (så som vidare ändrad, kompletterad och/eller förnyad från tid till annan) avseende, bl.a., Värdepapperen utan Värdepappersinnehavarens samtycke om, enligt dess uppfattning, sådana justeringar som inte är betydande till nackdel för Värdepappersinnehavare.
- En investering i Värdepapperen bär risken att Emittenten inte kan uppfylla sina skyldigheter avseende sådana Värdepapper vid förfallodagen eller före Värdepapperets förfallodag. Under vissa omständigheter kan innehavarna förlora hela eller en betydande del av sitt ursprungliga kapital eller investering.
- Emittenten har rätt att dra tillbaka erbjudandet av Värdepapperen och avbryta emissionen av Värdepapperen före teckningsperiodens utgång av någon anledning. Skälen för annullering av erbjudandet inkluderar särskilt: (i) ogynnsamma marknadsförhållanden, som bestämts av Emittenten i sitt rimliga gottfinnande (till exempel ökad volatilitet på aktiemarknaden och ökad valutakursvolatilitet); eller (ii) att antalet ansökningar som mottagits vid den tiden inte är tillräckligt, enligt Emittentens åsikt, för att göra en ekonomiskt genomförbar emission.
- Marknadspriset på Värdepapper kan vara mycket volatilt. Vidare, investerare kommer inte att erhålla någon ränta och betalning av kapitalbelopp kan ske vid en annan tidpunkt eller i en annan valuta än förväntat. Indexet kan vara föremål för betydande fluktuationer som kanske inte korrelerar med förändringar i räntesatser, valutor eller andra index. Tidpunkten för förändringar i Indexet kan påverka den faktiska avkastningen för investerarna, även om den genomsnittliga nivån överensstämmer med deras förväntningar. Generellt gäller att ju tidigare förändringen i Indexet är, desto större är effekten på avkastningen.
- "Referensvärden" är föremål för regleringsreformer, som kan ha en väsentlig påverkan på Värdepapper relaterade till ett "referensvärdes"-index, inklusive i vilken som helst av följande omständigheter: (i) vissa "referensvärden" kan avslutas, väsentligen förändras, anses som icke-representativt eller sluta att stå under tillsyn om det anses icke-kritisk och icke-väsentligt enligt Förordning (EU) 2025/914 eller (ii) administratören/referensvärdet kanske inte får de erforderliga godkännandena eller kan bli föremål för ett offentligt meddelande, i respektive fall under tillämplig lagstiftning, så att restriktioner ska tillämpas vad gäller användningen. Beroende på det specifika "referensvärdet" och de

tillämpliga villkoren för Värdepapperen kan förekomsten av en sådan omständighet leda till att ett sådant referensvärde ersätts med ett alternativ, förnominerat referensvärde eller ett alternativt referensvärde valt av Fastställelseagenten eller till en anpassning till villkoren för Värdepapperen eller förtida inlösen av Värdepapperen. Vilken som helst av ovanstående konsekvenserna kan ha en väsentlig negativ inverkan på värdet på och avkastningen från sådana Värdepapper. Index består av en syntetisk portfölj med andra tillgångar, och dess utveckling kan vara beroende av utvecklingen för sådana tillgångar. Avkastningen från Värdepapperen speglar inte en direktinvestering i underliggande aktier eller andra tillgångar som ingår i Index. En förändring av sammansättningen av Index eller nedläggande av Index kan negativt påverka marknadsvärdet på Värdepapperen. Värdepapperen säljs inte och marknadsförs inte av Index eller av sponsorn till Index. Emittenten och dess närstående är inte ansvariga för åtgärder eller försummelser från sponsorn av Index, någon information avseende Index, utvecklingen för Index eller användningen av Index i samband med Värdepapperen.
