

**PROHIBITION OF SALES TO UK RETAIL INVESTORS** – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (UK). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA); or (ii) a customer within the meaning of the Financial Services and Markets Act 2000 (the FSMA) and any rules or regulations under the FSMA to implement Directive (EU) No 2016/97, where that customer would not qualify as a professional client as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) No 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (as amended the UK PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

**MIFID II product governance / Retail clients, professional investors and eligible counterparties** – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 19 of the Guidelines published by the European Securities and Markets Authority ("ESMA") on 3 August 2023, has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, and portfolio management, and non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II. The product is incompatible for any client outside the positive target market identified above. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

**UK MIFIR PRODUCT GOVERNANCE /RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET** – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, has led to the conclusion that: (i) the target market for the Notes is retail clients, as defined in point 8 of article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (COBS), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("UK MiFIR"); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, portfolio management, non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable. The product is incompatible for any client outside the positive target market identified above. Any distributor should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the UK MiFIR Product Governance Rules) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

Note that this does not necessarily mean that the Notes will then be recognized as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

Return on the structured notes will be calculated based on the following payoff formula: **Conditional Vanilla**

The Conditional Vanilla is designed to pay an amount linked to the performance of the Selection. The payment of this amount is nonetheless conditional on the fulfilment of one or several conditions.

The Final redemption amount per Note is determined by the Calculation Agent in accordance with the following formula:

$$\text{Calculation Amount} \times [\mathbf{R} + \text{Coupon} + (\text{Vanilla}_1 \times \text{Condition}_1 \times \mathbf{FX}_1) + (\text{Vanilla}_2 \times \text{Condition}_2 \times \mathbf{FX}_2) + (\text{Vanilla}_3 \times \text{Condition}_3 \times \mathbf{FX}_3)]$$

Where:

$$\text{Vanilla}_1 = \text{Coupon}_1 + G_1 \times \text{Min}(\text{Cap}_1, \text{Max}(\text{Type}_1 \times (\text{BasketPerf}_1(T) - K_1), \text{Floor}_1))$$

$$\text{Vanilla}_2 = \text{Coupon}_2 + G_2 \times \text{Min}(\text{Cap}_2, \text{Max}(\text{Type}_2 \times (\text{BasketPerf}_2(T) - K_2), \text{Floor}_2))$$

$$\text{Vanilla}_3 = \text{Coupon}_3 + G_3 \times \text{Min}(\text{Cap}_3, \text{Max}(\text{Type}_3 \times (\text{BasketPerf}_3(T) - K_3), \text{Floor}_3))$$

The value of each Condition is determined as follows:

$$\text{Condition}_1 = 1 \text{ if } \text{BasketPerf}_4(T) \geq H$$

$$= 0 \text{ if not}$$

$$\text{Condition}_2 = 1 \text{ if } \text{BasketPerf}_5(T) < B$$

$$= 0 \text{ if not}$$

$$\text{Condition}_3 = 1 \text{ if "BasketPerf}_6(T) \geq D_1 \text{ and BasketPerf}_7(T) \leq D_2"$$

The key risks that are significant for the assessment of the Notes, are set out below:

***General risk factors***

***Risk of volatility of the Notes:*** Noteholders face a risk of volatility, which refers to the risk of changes in the value of a Note, as well as any difference between the valuation level and the sale price of the Notes on the secondary market. Events in France, Europe or elsewhere could cause volatility in the secondary market of the Notes, which could result in a negative impact on the trading or sale price of the Notes.

***Risk relating to the NATIXIS Guarantee (which includes reference to resolution or insolvency risk of the Guarantor):*** Should Natixis (as **Guarantor**) undergo resolution proceedings pursuant to European regulation and French transposition rules establishing a framework for the recovery and resolution of credit institutions and investment firms, it may not be able to fulfil all or part of its payment obligations under the Guarantee, if it was triggered, and the Noteholders could thus lose all or part of their initial investment.

***Risk of early redemption in the event of illegality, changes in taxation or force majeure:*** In the event of an early redemption of the Notes in the event of illegality or changes in rules on withholding taxes or if the performance of the Issuer's obligations under the Notes is impossible or insurmountable due to the occurrence of force majeure event, the noteholders will receive an amount equal to the fair market value of the Notes. The fair market value of the Notes payable upon early redemption may be lower than the amount that the Noteholders initially anticipated.

***Risk of loss of capital for Notes whose redemption amount is determined by reference to a calculation formula and/or linked to an underlying asset:*** The amounts payable by the Issuer are linked to or make reference to the performance of the underlying asset(s) (the **Underlying(s)**). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation to the Underlying(s). If there is an adverse change in the performance of the Underlying(s), exacerbated, if relevant, by the terms of the formula or indexation provisions, the Noteholders may suffer a significantly decreased redemption amount on the Notes or even a total loss of its investment.

***Underlying dedicated risk factors***

***Risks relating to certain events affecting Underlying shares:*** The determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the Underlying's prices. Certain events, such as, without limitation, nationalisation, insolvency, tender offer, de-listing or certain corporate events and/or disposals, affecting the Underlying or which increase the cost of borrowing such Underlying may have an impact on their price or even make it impossible to observe their performance properly. In addition, the Issuer may be required to borrow the relevant Share(s) for the purposes of hedging the Notes but at a potentially higher rate. These events constitute additional adjustment events. In these cases, the Issuer may, at its discretion, either (i) request the Calculation Agent to adjust certain terms of the Notes, or (ii) redeem the Notes at the early redemption amount equal to the fair market value of the Notes as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes may have a material impact on the interest amounts and/or redemption amounts due in respect of the Notes and on the value of the Notes. Moreover, the fair market value of the Notes may be less than the redemption amount set out in the terms of the Notes and consequently investors may lose all or some of their investment.

***Risk relating to change in law or the inability to hold hedging positions and/or materially increased cost of hedging:*** The Issuer enters into hedging agreements to cover the risks related to such Notes and in particular changes in the price, value or level of the relevant Underlying(s). In the event of a change in law, a hedging disruption, increased cost of hedging, it may become unlawful or impracticable or materially more costly for the Issuer to hold or otherwise deal with such hedging agreements.

In these cases, the Issuer may elect to (i) request the Calculation Agent to adjust certain terms of the Notes, at its discretion, or (ii) redeem all (but not some only) of the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes. Moreover, such fair market value may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

***Risks relating to inability to observe the price, value or level of the Underlying(s) in the event of market disruption:*** Determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the value of the Underlying(s) in the relevant market(s) or from a particular source of information. Market disruption events related to these markets may occur and prevent the Calculation Agent from making such determinations. In such cases, the Calculation Agent shall defer the observation of the level of the Underlying(s). If the market disruption event continues, the Calculation Agent shall determine in good faith the level of the affected Underlying(s) which may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes. The deferral of the observation of the level of the Underlying(s) affected or the disregarding of the day on which a market disruption event occurred may reduce some or all of amounts due in respect of the Notes and the market value of the Notes.

***Risk Relating to the discretionary power of the Calculation Agent:*** The Calculation Agent has the discretionary power to make the calculations, observations and adjustments and set out in the terms and conditions of the Notes and the interest amounts and/or redemption amounts determined or calculations made by the Calculation Agent may affect the value and any payment to be made under Notes in a way that is unfavorable to investors. The decisions of the Calculation Agent may also result in an early redemption of the Notes.

In any such case, the Issuer will notify the change to the Noteholders through a notice to the Noteholders which will be published on the NATIXIS website (<https://cib.natixis.com/Home/pims/Prospectus#/prospectusPublic>) but without having to specify any reason for this.

*Issue price:* 110% of the aggregate nominal amount.

Application has been made by the Issuer (or on its behalf) for the Notes to be admitted to trading on the regulated market of the NASDAQ Stockholm regulated market.

The LEI of the person asking for admission to trading is KX1WK48MPD4Y2NCUIZ63.

### *Why is this Prospectus being produced?*

The net proceeds from the issue of the Notes will be on-lent by Natixis Structured Issuance to NATIXIS and will be used by NATIXIS for its general corporate purposes, affairs and business development.

### **Most material conflicts of interest pertaining to the offer or the admission to trading of the Notes**

The dealer and its affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and the Guarantor and their respective affiliates in the ordinary course of business.

Various entities within the BPCE group (including the Issuer and the Guarantor) and affiliates undertake different roles in connection with the Notes, including Issuer of the Notes and may also engage in trading activities (including hedging activities) relating to the Underlying and other instruments or derivative products based on or relating to the Underlying which may give rise to potential conflicts of interest.

NATIXIS, which acts as arranger, permanent dealer and Calculation Agent is an affiliate of the Issuer and the same legal entity as the Guarantor and potential conflicts of interest may exist between it and the Noteholders, including with respect to certain determinations and judgments that the Calculation Agent must make that may influence the amounts payable under the Notes. The economic interests of the Issuer and of NATIXIS as arranger and permanent dealer are potentially adverse to a noteholder's interests as an investor in the Notes.

A commission could be paid up to 6.00% (all taxes included) of the nominal. This commission can be paid either by an up- front fee or/and a running commission. Further details of the commission element are available upon request.

Other than as mentioned above, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer, including conflicting interests.

Räntesatsen på Obligationerna beräknas i enlighet med följande betalningsformel: **Villkorad Standard (Conditional Vanilla)**

Villkorad Standard (Conditional Vanilla) är konstruerad för att betala ett belopp relaterat till utvecklingen för Urvalet. Betalningen av detta belopp är dock icke desto mindre villkorat av uppfyllandet av ett eller flera villkor.

Det slutliga inlösenbeloppet per Obligation fastställs av Beräkningsagenten i enlighet med följande formel:

$$\text{Beräkningsbelopp} \times [R + \text{Kupong} + (\text{Standard}_1 \times \text{Villkor}_1 \times \text{Valutakurs}_1) + (\text{Standard}_2 \times \text{Villkor}_2 \times \text{Valutakurs}_2) + (\text{Standard}_3 \times \text{Villkor}_3 \times \text{Valutakurs}_3)]$$

Där:

$$\text{Standard}_1 = \text{Kupong}_1 + G_1 \times \text{Min}(\text{Tak}_1, \text{Max}(\text{Typ}_1 \times (\text{KorgUtveckl}_1(T) - K_1), \text{Golv}_1))$$

$$\text{Standard}_2 = \text{Kupong}_2 + G_2 \times \text{Min}(\text{Tak}_2, \text{Max}(\text{Typ}_2 \times (\text{KorgUtveckl}_2(T) - K_2), \text{Golv}_2))$$

$$\text{Standard}_3 = \text{Kupong}_3 + G_3 \times \text{Min}(\text{Tak}_3, \text{Max}(\text{Typ}_3 \times (\text{KorgUtveckl}_3(T) - K_3), \text{Golv}_3))$$

Värdet för varje Villkor fastställs som följer:

$$\text{Villkor}_1 = 1 \text{ om } \text{KorgUtveckl}_4(T) \geq H \\ = 0 \text{ om inte}$$

$$\text{Villkor}_2 = 1 \text{ om } \text{KorgUtveckl}_5(T) < B \\ = 0 \text{ om inte}$$

$$\text{Villkor}_3 = 1 \text{ om } \text{KorgUtveckl}_6(T) \geq D_1 \text{ och } \text{KorgUtveckl}_7(T) \leq D_2 \\ = 0 \text{ om inte}$$

#### Rangordning och begränsningar av Obligationernas fria överlåtbarhet

Obligationerna utgör direkta, ovillkorade, icke-efterställda och icke-säkerställda förpliktelser för Emittenten som kommer att rangordnas lika utan prioritet sinsemellan.

#### De mest väsentliga riskfaktorerna hänförliga till Garanten

1. NATIXIS är exponerad mot kredit- och motpartsrisker i sin verksamhet. I händelse av att en eller flera av dess motparter misslyckas med att uppfylla sina avtalsenliga förpliktelser, kan NATIXIS drabbas av varierande storlek av ekonomiska förluster beroende på koncentrationen av dess exponering mot sådana motparter ;

2. En försämring på de finansiella marknaderna kan leda till betydande förluster för NATIXIS kapitalmarknads- och kapitalförvaltningsverksamhet. Under de senaste åren har de finansiella marknaderna fluktuerat kraftigt i en ibland exceptionellt volatil miljö, vilket kan upprepas och potentiellt leda till betydande förluster för NATIXIS kapitalmarknad och kan ha en negativ inverkan på NATIXIS kapitalförvaltningsverksamhet.

3. Om NATIXIS misslyckas med att följa gällande lagar och förordningar kan NATIXIS utsättas för betydande böter och andra rättsliga, administrativa, skiljedoms- och disciplinära (inklusive straffrättsliga) påföljder som kan få en väsentlig negativ inverkan på dess ekonomiska ställning, affärsverksamhet och rykte; och

4. NATIXIS är exponerat mot risker relaterade till den ekonomiska miljö där NATIXIS verkar. Dess verksamhet inom tillgångs- och förmögenhetsförvaltning samt företags- och investmentbanktjänster är känsliga för förändringar på de finansiella marknaderna och, i allmänhet, för ekonomiska förhållanden i Frankrike, Europa och världen över. Ogynnsamma marknads- eller ekonomiska förhållanden skulle kunna ha en negativ inverkan på NATIXIS lönsamhet och finansiella utveckling.

#### Vilka nyckelrisker är specifika för Obligationerna?

De huvudsakliga riskerna förknippade med Obligationerna anges nedan:

##### Generella riskfaktorer

**Risk för volatilitet i Obligationerna:** Obligationerna kan möta en risk för volatilitet, vilket hänvisar till risken för värdeförändringar för en Obligation, liksom eventuell skillnad mellan värderingsnivån och försäljningspriset för Obligationerna på andrahandsmarknaden. Händelser i Frankrike, Europa eller någon annanstans kan orsaka volatilitet på andrahandsmarknaden för Obligationerna, och den resulterande volatiliteten kan ha en negativ inverkan på Obligationernas marknads- eller försäljningskurs.

##### Risker relaterade till NATIXIS-Garantin (vilket inkluderar hänvisning till resolution eller insolvensrisk för Garanten):

Om NATIXIS (som **Garant**) skulle bli föremål för ett resolutionsförfarande enligt europeisk reglering och franska övergångsbestämmelser som fastställer en ram för återhämtning och resolution av kreditinstitut och värdepappersföretag, föreligger en risk för att hela eller delar av dess betalningsåtaganden inte kan uppfyllas under Garantin om den utlöses och Obligationsinnehavarna kan därmed förlora hela eller delar av sin ursprungliga investering

**Risk för förtida inlösen i händelse av olaglighet eller skatteförändringar eller force majeure eller betydande justeringshändelse:** Vid inlösen av Obligationerna före förfall vid olaglighet eller ändringar i reglerna för källskatt eller om utövandet av Emittentens förpliktelser under Obligationerna är omöjliga eller oöverkomliga på grund av inträffandet av en force majeure-händelse, kommer obligationsinnehavarna att erhålla ett belopp som är lika med dess rimliga marknadsvärde i händelse av inlösen före förfall. Det rimliga marknadsvärdet som ska betalas vid förtida inlösen kan vara lägre än det belopp som de ursprungligen förväntade sig.

**Risk för kapitalförlust för Obligationer vars inlösenbelopp fastställs med hänvisning till en beräkningsformel och/eller relaterad till en underliggande tillgång:** Huvudbeloppen som ska betalas av Emittenten indexeras eller relaterad till utvecklingen av de(n) Underliggande. Sådana belopp kan bestämmas genom tillämpning av en beräkningsformel och en eller flera observationer eller förekomsten av vissa händelser i förhållande till de(n) Underliggande. Om det sker en ogynnsam förändring av utvecklingen hos de(n)

<sup>2</sup> Tillsyns- och utvärderingsprocess

Underliggande, förvärras, om relevant, av villkoren i ovannämnda formel eller indexeringsbestämmelser, kan investerare drabbas av ett betydligt minskat inlösenbelopp för Obligationerna eller till och med en total förlust av deras investering.

#### ***Risikfaktorer dedikerade till Underliggande***

***Risker förknippade med vissa händelser som påverkar Underliggande aktier:*** Fastställandet av räntebelopp och/eller inlösenbelopp förfallna med avseende på Obligationerna kräver observation av kursen på Underliggande. Vissa händelser, som, utan begränsning, nationalisering, insolvens, köpebud, avnotering eller vissa företagshändelser och/eller avyttringar, som påverkar Underliggande eller som ökar kostnaden för att låna sådan Underliggande kan ha en inverkan på deras kurs eller till och med göra det är omöjligt att observera deras utveckling ordentligt. Dessutom kan Emittenten bli skyldig att låna relevant(a) Aktie(r) i syfte att hedgea Obligationerna men till en potentiellt högre ränta. Dessa händelser utgör ytterligare justeringshändelser. I dessa fall kan Emittenten, efter eget gottfinnande, antingen (i) begära att Beräkningsagenten justerar vissa villkor för Obligationerna, eller (ii) lösa in Obligationerna till det förtida inlösenbeloppet lika med det rimliga marknadsvärdet för Obligationerna som fastställs av och efter eget gottfinnande av Beräkningsagenten. Justeringen av villkoren för Obligationerna kan ha en väsentlig inverkan på räntebeloppet och/eller inlösenbeloppet förfallna med avseende på Obligationerna och på värdet på Obligationerna. Vidare kan det rimliga marknadsvärdet för Obligationerna vara mindre än det inlösenbelopp som anges i villkoren för Obligationerna och följaktligen kan investerare förlora hela eller delar av sin investering.

***Risker relaterade till lagändring eller oförmågan att inneha hedgningspositioner och/eller väsentligt ökade kostnader för hedgning.*** Emittenten ingår hedgningsavtal för att täcka riskerna relaterade till sådana Obligationer och särskilt förändringar i värdet på relevant(a) Underliggande. I händelse av lagändring, en hedgningsstörning, ökade kostnader för hedgning kan det bli olagligt eller opraktiskt eller väsentligt mer kostsamt för Emittenten att inneha eller i övrigt hantera sådana hedgningsavtal. I dessa fall kan Emittenten välja att (i) begära att Beräkningsagenten, efter eget gottfinnande, justerar vissa villkor för Obligationerna, eller (ii) lösa in alla (men inte bara några) Obligationer till det förtida inlösenbeloppet lika med det rimliga marknadsvärdet fastställt av och efter eget gottfinnande av Beräkningsagenten. Justeringen av villkoren för Obligationerna kan ha en väsentlig påverkan på räntebelopp och/eller inlösenbelopp förfallna med avseende på Obligationerna och på värdet av Obligationerna. Dessutom kan ett sådant rimligt marknadsvärde vara mindre än det inlösenbelopp som ursprungligen anges i villkoren för Obligationerna och följaktligen kan investerare förlora hela eller en del av sin investering.

***Risker relaterade till oförmåga att observera kursen, värdet eller nivån på de(n) Underliggande i händelse av marknadsstörningar:*** Fastställande av räntebelopp och/eller inlösenbelopp med avseende på Obligationerna kräver observation av värdet på de(n) Underliggande på de(n) relevanta marknaderna(en) eller från en viss informationskälla. Marknadsstörande händelser relaterade till dessa marknader kan inträffa och förhindra att Beräkningsagenten göra sådana fastställanden. I sådana fall ska Beräkningsagenten skjuta upp observationen av värdet på de(n) Underliggande. Om den marknadsstörande händelsen fortsätter ska Beräkningsagenten i god anda fastställa värdet på de(n) drabbade Underliggande som kan ha en väsentlig påverkan på räntebelopp och/eller inlösenbelopp avseende Obligationerna och på värdet på Obligationerna. Uppskjutandet av observationen av värdet på de(n) drabbade Underliggande eller bortseendet av den dag då den marknadsstörande händelsen inträffa kan minska vissa eller samtliga förfallna belopp avseende Obligationerna och Obligationernas marknadsvärde.

***Risk relaterad till Beräkningsagentens diskretionära befogenhet:*** Beräkningsagenten har diskretionär befogenhet att göra beräkningar, observationer och justeringar som anges i villkoren för Obligationerna och räntebeloppet och/eller inlösenbeloppet som fastställts eller beräkningar som görs av Beräkningsagenten kan påverka värdet och betalningar som ska göras avseende Obligationerna på ett sätt som är ofördelaktigt för investerarna. Besluten som fattas av Beräkningsagenten kan även leda till en förtida inlösen av Obligationerna.

## **AVSNITT D – VIKTIG INFORMATION OM ERBJUDANDE AV OBLIGATIONER TILL ALLMÄNHETEN OCH/ELLER UPPTAGANDET TILL HANDEL PÅ EN REGLERAD MARKNAD**

### ***På vilka villkor och enligt vilken tidplan kan jag investera i dessa obligationer?***

I varje sådant fall kommer Emittenten att meddela sådan ändring till Obligationsinnehavarna på NATIXIS webbplats (<https://cib.natixis.com/Home/pims/Prospectus#/prospectusPublic>), men utan att behöva ange skälen för detta.

Emissionskurs: 110% av det Sammanlagda Nominella Beloppet.

Ansökan har gjorts av Emittenten (eller å dennes vägnar) avseende upptagande av Obligationerna till handel på den reglerade NASDAQ Stockholm regulated market.

Uppskattade totala utgifter för emissionen: med undantag för uppskattningen av noteringsavgifterna (EUR 390) och indexlicensavgifterna, kan inga andra utgifter fastställas per Emissionsdagen. Inga utgifter debiteras investerare.

### ***Vem är den person som ansöker om upptagande till handel?***

NATIXIS, ett franskt aktiebolag (*société anonyme à conseil d'administration*) stiftat under fransk rätt under nummer 542 044 524 RCS Paris och registrerad på 7, promenade Germaine Sablon, 75013 Paris, Frankrike. Identifieringskoden för personen som ansöker om upptagande till handel är KX1WK48MPD4Y2NCUIZ63.

### ***Varför upprättas detta prospekt?***

Nettointäkterna från emissionen av Obligationerna kommer att användas för utlåning av Natixis Structured Issuance (som långgivare) till NATIXIS (som låntagare) enligt villkoren i ett låneavtal och kommer att användas av NATIXIS för dess allmänna företagsändamål, affärer och affärsutveckling.

Uppskattad nettointäkt är lika med det totala nominella beloppet multiplicerat med Emissionskursen.

**De mest väsentliga intressekonflikterna avseende erbjudandet eller upptagandet till handel av Obligationerna**

Återförsäljaren och dess närstående kan även ha ingått, och kan i framtiden ingå, transaktioner inom investment banking och/eller kommersiell banking med, och kan utföra andra tjänster, för Emittenten och Garanten och den/deras respektive närstående i den ordinarie verksamheten.

Olika enheter inom BPCE-koncernen (inklusive Emittenten och Garanten) och närstående åtar sig olika roller i samband med Obligationerna, inklusive Emittenten av Obligationerna och kan också bedriva handelsaktiviteter (inklusive hedgingaktiviteter) avseende de(n) Underliggande och andra instrument eller derivatprodukter baserade på eller relaterade till de(n) Underliggande, vilket kan ge upphov till potentiella intressekonflikter.

NATIXIS, som fungerar som arrangör, permanent återförsäljare och Beräkningsagent är närstående till Emittenten och samma juridiska person som Garanten och potentiella intressekonflikter kan förekomma mellan det och Obligationsinnehavare, inklusive med avseende på vissa fastställelser och bedömningar som Beräkningsagenten måste göra som kan påverka de belopp som ska betalas enligt Obligationerna. Emittentens och NATIXIS ekonomiska intressen som arranger och permanent återförsäljare är potentiellt negativa för Obligationsinnehavarnas intressen som investerare i Obligationerna.

En provision kan komma att betalas om upp till 6,00% (skatt inkluderad) av det nominella beloppet. Denna provision kan betalas antingen med en förskottsavgift eller/och en löpande avgift. Ytterligare information om provisionselementet finns tillgänglig på begäran.

Utöver vad som nämnts ovan, så långt som Emittenten är medveten, har ingen som är inblandad i utgivningen av Obligationerna ett väsentligt intresse i erbjudandet, inklusive motstridiga intressen.
