Consequently, save as provided above, no key information document required by Regulation (EU) No. 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to any retail investor in the EEA has been prepared and therefore offering or selling the securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

3. Reasons for the Offer, Estimated Net Proceeds and Total Expenses

- (i) Reasons for the offer: General Business Purposes

4. Performance of Basket of Indices, explanation of effect on value of investment and associated risks and other information concerning the Basket of Indices:

The Notes are Index-Linked Redemption Notes issued at par and subject to Autocall Early Redemption. Consequently, the return of the Notes is overall linked to the worst performing Index and depends on whether the Notes are automatically called (redeemed) before the Maturity Date. If (any of) the Indices depreciate by more than 20%, as measured from the Initial Valuation Date to the Final Valuation Date, the holder of the Notes may lose some or all of its investment.

If, on the relevant Autocall Valuation Date, the closing price of each Index is at or above the Autocall Barrier of 100%, the Notes will automatically call (redeem) and the redemption price of 100% will be paid out on the following Early Redemption Date. If the Notes are not automatically called (redeemed) and any of the Indices depreciate by more than 20%, as measured from the Initial Valuation Date to the Final Valuation Date, then the Final Redemption Amount of the Notes equals the performance of the worst performing Index.

If, on the relevant Interest Determination Date, the closing price of each Index is at or above 100% of its closing price on the Initial Valuation Date, the coupon (interest) is calculated by the Calculation Agent as the numeric value of the observation date (1..5) multiplied by INDICATIVELY 13.50% (*to be determined no later than on the Issue Date, subject to a minimum of 11%*) minus the sum of interest (if any) paid prior to the relevant Interest Determination Date. The coupon is only paid once if the Notes are automatically called (redeemed), and if the closing price of one or more of the Indices is below 100%, as measured on the relevant Interest Determination Date, no coupon is paid on that Interest Payment Date.

The description of the Indices is provided below and taken from Bloomberg. Additional information about the Indices can be found on the website of the relevant stock exchange: www.nasdaq.com.

3. KEY INFORMATION ON THE SECURITIES

3.1 What are the main features of the securities?

The Notes are SEK denominated index-linked interest Notes and index-linked redemption Notes (subject to autocall early redemption) due 11 December 2030 (subject to adjustment), with International Securities Identification Number (ISIN) SE0026599177.

The Notes have a specified denomination of SEK10,000 and the Notes may be subscribed in a minimum lot of one Note.

The rights attached to the Notes

Performance of basket of indices, explanation of effect on value of investment and associated risks and other information concerning the basket of indices:

The Notes are index-linked redemption Notes issued at par and subject to autocall early redemption. Consequently, the return of the Notes is overall linked to the worst performing index and depends on whether the Notes are automatically called (redeemed) before the maturity date. If (any of) the indices depreciate by more than 20%, as measured from the initial valuation date to the final valuation date, the holder of the Notes may lose some or all of its investment.

If, on the relevant autocall valuation date, the closing price of each index is at or above the autocall barrier of 100%, the Notes will automatically call (redeem) and the redemption price of 100% will be paid out on the following early redemption date. If the Notes are not automatically called (redeemed) and any of the indices depreciate by more than 20%, as measured from the initial valuation date to the final valuation date, then the final redemption amount of the Notes equals the performance of the worst performing index.

If, on the relevant interest determination date, the closing price of each index is at or above 100% of its closing price on the initial valuation date, the coupon (interest) is calculated by the calculation agent as the numeric value of the observation date (1..5) multiplied by INDICATIVELY 13.50% (*to be determined no later than on the issue date, subject to a minimum of 11%*) minus the sum of interest (if any) paid prior to the relevant interest determination date. The coupon is only paid once if the Notes are automatically called (redeemed), and if the closing price of one or more of the indices is below 100%, as measured on the relevant interest determination date, no coupon is paid on that interest payment date.

Under the terms of the Notes, certain dates may be adjusted if the date specified is either not a business day or not a trading day. Any adjustments may affect the return (if any) received. The terms of the Notes also provide that if certain exceptional events occur (1) adjustments may be made to the Notes and/or (2) the Issuer may terminate the Notes early. These events principally relate to the basket of indices, the Notes and the Issuer. The return (if any) received on such early termination is likely to be different from the scenarios described above and may be less than the amount invested.

Ratings: The Issuer has been rated by each of S&P Global Ratings Europe Limited (“S&P”), Fitch Ratings Ireland Limited (“Fitch”), Moody’s Investors Service (Nordics) AB (“Moody’s”), Scope Ratings GmbH (“Scope”) as follows:

long-term Issuer rating	S&P: A+	Fitch: A+	Moody's: A1	Scope: A+
short-term Issuer rating	S&P: A-1	Fitch: F1	Moody's: P-1	Scope: S-1+

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Transferability of the Notes: There are no restrictions on the free transferability of the Notes, subject to the offering and selling restrictions of the United States, the EEA, the United Kingdom, Denmark, Finland, Norway and Sweden and the laws of any jurisdiction in which the Notes are offered or sold.

Status (Ranking): The Notes are issued on a senior basis. The Notes will constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and will rank *pari passu* without any preference among themselves and at least *pari passu* with all other ordinary, non-preferred, unsubordinated and unsecured obligations of the Issuer, present and future, save for certain mandatory exceptions provided by law. The Notes may be subject to the power to write down or convert relevant capital instruments and eligible liabilities and the bail-in tool under EU Directive 2014/59/EU (BRRD) and EU Directive 2019/879 (BRRD II) as implemented into Danish law via Act No. 2110 of 22 December 2020, as amended from time to time, which may result in holders losing some or all of their investment.

Taxation: The Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment or enforcement of any Note and all payments made by the Issuer shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

Negative pledge and cross-default: The terms of the Notes will not have the benefit of a negative pledge or a cross-default.

Events of default: The terms of the Notes will contain, amongst others, the following events of default and following any such event the Notes will be repayable at their early redemption amount: (i) default in payment of any principal or interest due in respect of the Notes, continuing for a period of 5 business days after the date on which notice has been given to the Issuer; (ii) default in the performance or observance of any other obligation of the Issuer under the Notes and such default remains unremedied for 30 days after notice requiring remedy has been given to the Issuer; (iii) a legal process is levied or enforced or sued out upon or against any part of the assets of the Issuer which is material in its effect upon the operation of the Issuer and is not discharged or stayed within 60 days of having been so levied, enforced or sued out; (iv) events relating to the bankruptcy of the Issuer; and (v) the Danish Financial Supervisory Authority files a petition for the suspension of payments of the Issuer.

Meetings: The terms of the Notes will contain provisions for calling meetings of holders (including by way of conference call or videoconference platform) to consider matters affecting their interests generally or to pass resolutions. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Governing law: English law, except that the acknowledgement by the holders of the Danish statutory loss absorption powers shall be governed by Danish law and the registration of the Notes in Euroclear Sweden AB shall be governed by Swedish law.

Representative of holders: Not Applicable – no representative of noteholders has been appointed by the Issuer.

3.2 *Where will the securities be traded?*

Application is expected to be made by the Issuer for the Notes to be admitted to trading on the regulated market of Nasdaq Stockholm AB.

3.3 What are the key risks that are specific to the securities?

Risks associated with the Notes include the following:

Liquidity and secondary market risk: the Notes may have no established trading market when issued, and one may never develop. Investors may not be able to sell their Notes easily or at a price greater than the amount invested.

Risk of losing all or some of the investment: many factors are likely to affect the value of and return on the Notes, including interest rates, exchange rates, performance of the reference items and economic, financial and political factors.

The Notes may be modified: the terms of the Notes may be modified without the consent of the investor in certain circumstances. This will not always require the decision of a meeting of investors.

Risk of adjustment or early redemption following a disruption or additional disruption event: in this case any adjustments made or an early redemption of the Notes at the early redemption amount may not be a favourable outcome for investors.

Risk of volatility: movements in the level of the basket of Indices may be subject to significant fluctuations. The timing of this may adversely affect the return to investors, even if the average level is consistent with their expectations.

Risks relating to benchmarks: the regulation and reform of benchmarks may adversely affect the value of the Notes as they are linked to or reference such benchmarks.

Investors have no claim against the reference item: investors are exposed to the performance of the relevant reference item but will have no recourse to such reference item or to the issuer or sponsor of the reference item.

3. NYCKELINFORMATION OM VÄRDEPAPPAREN

3.1 Vilka är värdepapperens viktigaste egenskaper?

Obligationerna är SEK denominerade Obligationer med indexrelaterad ränta och indexrelaterade återbetalning (med förbehåll för autocall förtida inlösen) med förfallodag den 11 december 2030 (med förbehåll för justeringar) med ISIN-kod SE0026599177.

Obligationerna har en angiven valör om SEK 10 000 och Obligationerna kan tecknas i minsta post om en Obligation.

Rättigheter tillhörande Obligationerna

Utvecklingen av korgen av index, förklaring av påverkan på investeringen och medföljande risker och övrig information om korgen av index:

Obligationerna är Obligationer med indexrelaterad återbetalning som emitteras till par och som är föremål för automatisk inlösen (autocall). Genom detta är avkastningen på Obligationerna övergripande kopplat till utvecklingen av det sämst presterande indexet och beror på om Obligationerna automatiskt löses in före förfallodagen. Om något av indexen minskar i värde med mer än 20%, mätt från den första värderingsdagen till den sista värderingsdagen, kan innehavaren av Obligationerna förlora delar av eller hela sin investering.

Om stängningskursen på den relevanta värderingsdagen för automatisk inlösen för varje index är på eller över inlösenbarriären på 100%, kommer Obligationerna automatiskt att lösas in och inlösenpriset på 100% betalas ut på den följande förtida inlösendagen. Om Obligationerna inte automatiskt löses in och något av indexen minskar i värde med mer än 20%, mätt från den första värderingsdagen till den sista värderingsdagen, kommer det slutliga inlösenbeloppet för Obligationerna att motsvara utvecklingen av det sämst presterande indexet.

Om stängningskursen på den relevanta räntebestämningdagen för varje index är på eller över 100% av dess stängningskurs på den första värderingsdagen, beräknas kupongen (räntan) av beräkningsagenten som det numeriska värdet av observationsdatumet (1..5) multiplicerat med INDIKATIVT 13.50% (att fastställas senast än på emissionsdagen, med en lägsta nivå på 11%) minus summan av kuponger (om

några) som betalats före den relevanta räntebestämningdagen. Kupongen betalas endast en gång om Obligationerna blir föremål för automatisk inlösen, och om stängningskursen för en eller flera av indexen är under 100%, mätt på den relevanta räntebestämningdagen, betalas ingen kupong på den räntebetalingdagen.

Enligt villkoren för Obligationerna kan vissa datum justeras för det fall det aktuella datumet antingen inte är en bankdag eller handelsdag. Varje justering kan påverka avkastningen (om någon). Villkoren för Obligationerna anger även att för det fall extraordinära händelser inträffar (1) kan justeringar av Obligationerna göras och/eller (2) kan Emittenten säga upp Obligationerna i förtid. Dessa händelser hänför sig till morgon av index, Obligationerna och Emittenten. Avkastningen (om någon) vid sådan förtida uppsägning kommer troligtvis avvika från de scenarier som beskrivs ovan och kan bli mindre än det investerade beloppet.

Kreditbetyg/rating: Emittenten har åsatts kreditbetyg av var och en av S&P Global Ratings Europe Limited (“**S&P**”), Fitch Ratings Ireland Limited (“**Fitch**”), Moody’s Investors Service (Nordics) AB (“**Moody’s**”) och Scope Ratings GmbH (“**Scope**”) enligt följande:

Emittentens långfristiga kreditbetyg	S&P: A+	Fitch: A+	Moody's: A1	Scope: A+
Emittentens kortfristiga kreditbetyg	S&P: A-1	Fitch: F1	Moody's: P-1	Scope: S-1+

Ett kreditbetyg är inte en rekommendation av köpa, sälja eller behålla värdepapper och kreditbetyget kan bli föremål för suspension, sänkning eller tillbakadragande vid vilken tidpunkt som helst av aktuellt kreditvärderingsinstitut.

Obligationernas överlåtbarhet: Det finns inga begränsningar avseende Obligationernas överlåtbarhet, med förbehåll för begränsningar av erbjudanden och försäljning i USA, EES, Storbritannien, Danmark, Finland, Norge och Sverige och lagarna i alla jurisdiktioner där Obligationerna erbjuds eller säljs.

Status (Förmånsrätt): Obligationerna ges ut på oprioriterad basis. Obligationerna kommer att utgöra direkta, ovillkorliga, icke-efterställda och icke-säkerställda förpliktelser för Emittenten och kommer att rankas lika sinsemellan (*pari passu*) utan någon preferens sinsemellan och åtminstone *pari passu* med alla andra nuvarande och framtida icke-prioriterade, icke-efterställda och icke-säkerställda förpliktelser för Emittenten, med undantag för vissa obligatoriska undantag enligt lag. Obligationerna kan bli föremål för befogenheten att skriva ned eller konvertera relevanta kapitalinstrument och kvalificerade skulder samt verktyget för skuldnedskrivning enligt EU-direktiv 2014/59/EU (BRRD) och EU-direktiv 2019/879 (BRRD II) som implementerats i dansk lag genom lag nr 2110 av den 22 december 2020, med ändringar från tid till annan, vilket kan resultera i att innehavare förlorar en del eller hela sin investering.

Beskattning: Emittenten är inte ansvarig för eller på annat sätt skyldig att betala någon skatt, tull, källskatt eller annan betalning som kan uppstå till följd av ägande, överlåtelse, presentation och överlämnande för betalning av någon Obligation och alla betalningar gjorda av Emittenten ska vara föremål för eventuell skatt, tull, källskatt eller annan betalning som kan krävas att genomföras, betalas, innehållas eller dras av.

Negativklausul och cross-default: Villkoren för Obligationerna innehåller inte någon negativklausul eller cross-default.

Uppsägningsgrunder: Villkoren för Obligationerna kommer att innehålla bland annat följande uppsägningsgrundande händelser och efter alla sådana händelser kommer Obligationerna att återbetalas till dessas förtida inlösenbelopp: (i) underlåtenhet att betala av eventuell(t) kapitalbelopp eller ränta som är förfallen med avseende på Obligationerna och sådan underlåtenhet varar under en period om 5 bankdagar efter det datum då meddelande har lämnats till Emittenten; (ii) Emittentens underlåtenhet att utföra eller iaktta något av sina andra åtaganden enligt Obligationerna och sådan underlåtenhet fortgår i 30 dagar efter det att Emittenten har mottagit meddelande med krav på rättelse; (iii) ett juridiskt förfarande avseende beskattning eller verkställande eller stämning avseende eller gällande någon del av Emittentens tillgångar företas som är betydande vad gäller dess effekt på Emittentens verksamhet och som inte avslås eller inhiberas inom 60 dagar efter sådant juridiskt förfarande avseende beskattning, verkställande eller stämning; (iv) händelser avseende Emittentens konkurs; och (v) den danska finansiella tillsynsmyndigheten lämnar in en begäran om betalningsinställelse för Emittenten.

Fordringshavarmöten: Villkoren för Obligationerna kommer att innehålla bestämmelser för att kalla innehavare till fordringshavarmöten (inklusive möten via konferenssamtal eller videosamtal) för att överväga frågor som påverkar deras intressen generellt eller för att fatta beslut. Dessa bestämmelser tillåter definierade majoriteter att binda samtliga innehavare, inklusive innehavare som inte närvarade och röstade vid det relevanta mötet och innehavare som röstade på ett annat sätt än majoriteten.

Tillämplig lag: Engelsk rätt, förutom att erkännandet av innehavarna av de danska lagstadgade förlustabsorberande befogenheterna ska regleras av dansk lag och registreringen av Obligationerna i Euroclear Sweden AB ska regleras av svensk rätt.

Representation för innehavarna: Ej tillämpligt – ingen representant för innehavarna har utsetts av Emittenten.

3.2 Var kommer värdepapperen att handlas?

Ansökan förväntas göras av Emittenten för att ta upp Obligationerna till handel på den reglerade marknaden Nasdaq Stockholm AB.

3.3 Vilka nyckelrisker är specifika för värdepapperen?

Obligationerna är förenade med följande risker:

Likviditets- och andrahandsmarknadsrisk: det finns risk för att det inte finns någon andrahandsmarknad för Obligationerna när dessa emitteras och det är möjligt att en sådan aldrig utvecklas. Det är möjligt att investerare inte på ett enkelt sätt eller till ett pris högre än det investerade kommer att kunna sälja sina Obligationer.

Risk att förlora hela eller delar av investeringen: många faktorer kommer sannolikt att påverka värdet och avkastningen av Obligationen, däribland inkluderat ränta, valutaväxlingskurser, utveckling av referensobjekt och ekonomiska, finansiella och politiska faktorer.

Obligationerna kan ändras: villkoren för Obligationerna kan i vissa fall ändras utan investerarens godkännande. En sådan ändring kommer inte alltid att kräva beslut genom fordringshavarmöte.

Risk för justering eller förtida inlösen efter en störnings- eller ytterligare störningshändelse: i detta fall kan eventuella justeringar som görs eller en förtida inlösen av Obligationerna till det förtida inlösenbeloppet behöver detta inte ge ett gynnsamt resultat för investerare.

Risk för volatilitet: rörelser i nivån på korgen av index kan vara föremål för betydande fluktuationer. Tidpunkten för detta kan negativt påverka avkastningen till investerare, även om den genomsnittliga nivån är i linje med deras förväntningar.

Risker relaterade till benchmarks: reglering och reform av benchmark kan negativt påverka värdet av obligationerna eftersom de är kopplade till eller refererar till sådana benchmarks.

Investerare har ingen fordran mot referensobjektet: investerare utsätts för prestandan hos det relevanta referensobjektet men kommer inte att ha någon tillgång till sådant referensobjekt eller till Emittenten eller sponsorn av referensobjektet.
