**MiFID II product governance / Retail investors, professional investors and ECPs only target market** – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities, taking into account the five categories in item 19 of the Guidelines published by the European Securities and Markets Authority ("ESMA") on 3 August 2023, has led to the conclusion that: (i) the target market for the Securities is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, "MiFID II"); and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Securities to retail clients are appropriate – investment advice, portfolio management, and non-advised sales, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Securities (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

#### Most material risk factors pertaining to the guarantor

1. A substantial increase in new provisions or a shortfall in the level of previously recorded provisions exposed to credit risk and counterparty risk could adversely affect the BNP Paribas Group's results of operations and financial condition
2. The BNP Paribas Group's risk management policies, procedures and methods may leave it exposed to unidentified or unanticipated risks, which could lead to material losses
3. The BNP Paribas Group may incur significant losses on its trading and investment activities due to market fluctuations and volatility
4. The BNP Paribas Group's access to and cost of funding could be adversely affected by a resurgence of financial crises, worsening economic conditions, rating downgrades, increases in sovereign credit spreads or other factors

#### What are the key risks that are specific to the securities?

#### Most material risk factors specific to the securities

There are also risks associated with the Securities, including:

##### 1. Risks related to the structure of the securities:

The return on the Securities depends on the performance of the Underlying Reference(s) and the capital protection applies only at Maturity.

##### 2. Risks related to the underlying and its disruption and adjustments:

Unlike a direct investment in any Share(s), Stapled Share(s), GDR(s) and/or ADR(s) comprising the Underlying Reference(s) (together the "Share(s)"), an investment in Share Securities does not entitle Holders to vote or receive dividends or distributions (unless otherwise specified in the Final Terms). Accordingly, the return on Share Securities will not be the same as a direct investment in the relevant Share(s) and could be less than a direct investment.

Exposure to shares, similar market risks to a direct investment in an equity, potential adjustment events or extraordinary events and market disruption or failure to open of an exchange may have an adverse effect on the value and liquidity of the Securities.

##### 3. Risks related to the trading markets of the securities:

The trading price of the Securities may be affected by a number of factors including, but not limited to, the relevant price, value or level of the Underlying Reference(s), the time remaining until the scheduled redemption date of the Securities, the actual or implied volatility associated with the Underlying Reference(s) and the correlation risk of the relevant Underlying Reference(s). The possibility that the value and trading price of the Securities will fluctuate (either positively or negatively) depends on a number of factors, which investors should consider carefully before purchasing or selling Securities.

##### 4. Legal risks:

The terms of the Securities will contain provisions for calling meetings of holders of such Securities to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

#### **Vilka är de centrala riskerna som är specifika för värdepapperna?**

#### **Mest väsentliga riskfaktorer som är specifika för värdepapperna**

Det finns även risker som är förknippade med värdepapperna, inklusive:

#### **1. Risker som är relaterad till värdepappernas struktur:**

Avkastningen på värdepapperna beror på avkastningen på de underliggande referenserna och kapitalskyddet endast tillämpas på förfalldagen.

#### **2. Risker som är relaterade till de underliggande och dess avbrott och justeringar:**

Indexvärdepapper är kopplade till utvecklingen på underliggande index (ett "index"), som kan innehålla olika tillgångsklasser såsom aktier, obligationer, utländsk valuta eller värde på fastigheter eller kan referera till en blandning av tillgångsklasser. Investerare i Indexvärdepapper står inför risker som har ett bredare spektrum, vilket betyder att tillgångarna som Index baserar sig på inte utvecklar sig som man tror jämfört med en investering i en konventionell obligation. Därför är avkastningen på en investering i Indexvärdepapper antagligen mer negativt än en investering i konventionella obligationer.

Exponering mot index, justerade händelser och marknadsavbrott eller misslyckad handel kan ha negativa effekter på värdepapperets värde och likviditet.

#### **3. Risker som är relaterade till handel med värdepapper:**

Kursen på värdepapper kan påverkas av ett antal faktorer inklusive, men inte begränsat till, det gällande priset eller nivån på Underliggande Referenser, återstående tid på värdepapperets planerade inlösendag, aktuell eller implicit volatilitet som är förknippat med den Underliggande Referensen och risken med det inbördes förhållandet till gällande Underliggande Referens(er). Möjligheten att värdepapperets kurs kommer att fluktueras (antingen uppåt eller nedåt) beror på ett antal faktorer som investeraren nog borde överväga innan köp eller försäljning av värdepapper.

#### **4. Rättsliga risker:**

Villkoren för värdepapper kommer innehålla bestämmelser för hur man ska kalla till möten mellan innehavare av aktuella värdepapper för att belysa frågor som generellt sett påverkar deras intressen. Dessa bestämmelser ger angivna majoriteter rätten att fatta beslut som binder alla innehavare, inklusive innehavare som inte har närvarat eller röstat på aktuellt möte och innehavare som röstat mot majoriteten.

Förvaltaren och dess dotterbolag kan också ha varit verksamma, och kan även i framtiden bli verksamma vad gäller investeringar och börshandel och kan utföra andra tjänster för Emittenten och Garanten och deras respektive dotterbolag.

Olika företag inom BNPP-koncernen (inklusive Emittenten och Garanten) och Dotterbolag åtar sig olika roller i samband med Värdepapperna, inklusive Värdepappernas Emittent och Värdepappernas Beräkningsombud och kan även utföra handelsrelaterade verksamheter (inklusive risksäkringsverksamhet) som hänför sig till Underliggande och andra instrument eller derivatprodukter baseras på eller som är relaterade till de Underliggande. Detta kan förorsaka möjliga intressekonflikter.

BNP Paribas Financial Markets SNC som verkar som Förvaltare och Beräkningsombud, är ett Dotterbolag till Emittenten och Garanten och potentiella intressekonflikter kan finnas mellan Värdepappernas innehavare, inklusive och med hänsyn till vissa beslut och bedömningar som Beräkningsombuden måste göra. De ekonomiska intressena hos Emittenten och hos BNP Paribas Financial Markets SNC såsom Förvaltare och Beräkningsombud, är potentiellt motsatta till intressena hos Innehavare av Värdepapperna.

Annat än vad som nämnts ovan och såvitt Emittenten vet, har ingen person som är involverad i Värdepappersemissionerna något intresse i erbjudandet, inklusive de motstridiga intressena.
