What are the key risks that are specific to the Issuer?

The Barclays Bank Group has identified a broad range of risks to which its businesses are exposed. Material risks are those to which senior management pay particular attention and which could cause the delivery of the Barclays Bank Group's strategy, results of operations, financial condition and/or prospects to differ materially from expectations. Emerging risks are those which have unknown components, the impact of which could crystallise over a longer time period. The factors set out below should not be regarded as a complete and comprehensive statement of all the potential risks and uncertainties which the Barclays Bank Group faces. For example, certain other factors beyond the Barclays Bank Group's control, including escalation of global conflicts, acts of terrorism, natural disasters, pandemics and similar events, although not detailed below, could have a similar impact on the Barclays Bank Group.

- Material existing and emerging risks potentially impacting more than one principal risk:** In addition to material and emerging risks impacting the principal risks set out below, there are also material existing and emerging risks that potentially impact more than one of these principal risks. These risks are: (i) potentially unfavourable global and local economic and market conditions, as well as geopolitical developments; (ii) the impact of interest rate changes on the Barclays Bank Group's profitability; (iii) the competitive environments of the banking and financial services industry; (iv) the regulatory change agenda and impact on business model; (v) change delivery and execution risks; (vi) M&A and strategic initiatives; (vii) card partnerships and (viii) evolving landscape with respect to artificial intelligence (including generative and agentic AI) and machine learning technologies.
- Climate risk:** Climate risk is the risk of financial losses arising from climate change, through physical risks and risks associated with transitioning to a lower carbon economy.
- Credit and Market risks:** Credit risk is the risk of loss to the Barclays Bank Group from the failure of clients, customers or counterparties, including sovereigns, to fully honour their obligations to the Group. The Group is subject to risks arising from changes in credit quality and recovery rates for loans and advances due from borrowers and counterparties. Market risk is the risk of loss arising from potential adverse changes in the value of the Barclays Bank Group's assets and liabilities from fluctuation in market variables.
- Treasury and capital risk and the risk that the Issuer and the Barclays Bank Group are subject to substantial resolution powers:** There are three primary types of treasury and capital risk faced by the Barclays Bank Group which are (1) liquidity risk – the risk that the Barclays Bank Group is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount of stable funding and liquidity to support its assets, which may also be impacted by credit rating changes; (2) capital risk – the risk that the Barclays Bank Group has an insufficient level or composition of capital to support its normal business activities and to meet its regulatory capital requirements under normal operating environments and stressed conditions; and (3) interest rate risk in the banking book – the risk that the Barclays Bank Group is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its (non-traded) assets and liabilities. Under the Banking Act 2009, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury), in consultation with the United Kingdom Prudential Regulation Authority, the UK Financial Conduct Authority and HM Treasury, as appropriate as part of a special resolution regime. These powers enable the Bank of England (or any successor or replacement thereto and/or such other authority in the United Kingdom with the ability to exercise the UK Bail-in Power) (the "Resolution Authority") to implement various resolution measures and stabilisation options (including, but not limited to, the bail-in tool) with respect to a UK bank or investment firm and certain of its affiliates (as at the date of the Registration Document, including the Issuer) in circumstances in which the Resolution Authority is satisfied that the relevant resolution conditions are met.

- **Operational and model risks:** Operational risk is the risk of loss to the Group from inadequate or failed processes or systems, human factors or due to external events where the root cause is not due to credit or market risks. Model risk is the potential for adverse consequences from decisions based on incorrect or misused model outputs and reports.
- **Compliance, financial crime risk, reputation, legal risks and legal, competition and regulatory matters:** Compliance risk is the risk of poor outcomes for, or harm to, customers, clients and markets, arising from the delivery of the Barclays Bank Group's products and services (conduct risk) and the risk to the Barclays Bank Group, its clients, customers or markets from a failure to comply with the laws, rules and regulations applicable to the Barclays Bank Group, as well as from divergence between jurisdictions. Financial crime risk is the risk that the Barclays Bank Group and its associated persons (employees or third parties) commit or facilitate financial crime, and/or the Barclays Bank Group's products and services are used to facilitate financial crime. Reputation risk is the risk that an action, transaction, investment, event, decision or business relationship will reduce trust in the Barclays Bank Group's integrity and/or competence. The Barclays Bank Group conducts diverse activities in a highly regulated global market which exposes it and its employees to legal risk arising from (i) the multitude of laws, rules and regulations that apply to the activities it undertakes, which are highly dynamic, may vary between jurisdictions and/or conflict (particularly in relation to issues perceived as politically sensitive, such as policies and initiatives around diversity, equity and inclusion or sustainability), and may be unclear in their application to particular circumstances especially in new and emerging areas; and (ii) the diversified and evolving nature of the Barclays Bank Group's businesses and business practices. In each case, this exposes the Barclays Bank Group and its employees to the risk of complaints, investigation or enforcement action, loss or the imposition of penalties, damages or fines from the failure of members of the Barclays Bank Group to meet applicable laws, rules, regulations or contractual requirements or to assert or defend their intellectual property rights. Legal risk may arise in relation to any number of the material existing and emerging risks summarised above.

Rights attached to the Securities

Potential return: The Securities will give each holder of Securities the right to receive potential return on the Securities, together with certain ancillary rights such as the right to receive notice of certain determinations and events and the right to vote on some (but not all) amendments to the terms and conditions of the Securities. The potential return will be in the form of a Final Cash Settlement Amount, provided that if the Securities are early terminated, the potential return may be in the form of an Early Cash Settlement Amount instead.

Taxation: All payments in respect of the Securities shall be made without withholding or deduction for or on account of any UK taxes unless such withholding or deduction is required by law. In the event that any such withholding or deduction is required by law, the Issuer will, save in limited circumstances, be required to pay additional amounts to cover the amounts so withheld or deducted.

Events of default: If the Issuer fails to make any payment due under the Securities or breaches any other term and condition of the Securities in a way that is materially prejudicial to the interests of the holders (and such failure is not remedied within 30 calendar days), or the Issuer is subject to a winding-up order, then the Securities will become immediately due and payable, upon notice being given by the holder.

Limitations on rights

Early redemption following certain disruption events or due to unlawfulness or impracticability: The Issuer may redeem the Securities prior to their Scheduled Settlement Date following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, or if it determines that that an unlawfulness or impracticability event has occurred. In such case, investors will receive an "Early Cash Settlement Amount" equal to the fair market value of the Securities prior to their redemption, unless the Issuer gives notice to the holders that they may elect to receive such whole number of the disrupted Underlying Asset which may be acquired by the Issuer in the open market with the Early Cash Settlement Amount and the relevant holder returns to the Issuer a duly completed settlement election notice requesting physical settlement by the applicable cut off time.

Early redemption for certain events concerning Underlying Asset(s) listed on an exchange in the PRC: The Issuer may redeem the Securities prior to their Scheduled Settlement Date following the occurrence of certain events concerning a purchaser of the Securities or a failure to comply with an information request from a relevant governmental, regulatory or listing authority of the People's Republic of China (excluding Hong Kong, Macau and Taiwan). If the Securities are redeemed due to the occurrence of any such event, investors will receive a "Local Jurisdiction Early Redemption Cash Settlement Amount" equal to the pro rata proportion of the market value of the Securities, as reduced for certain costs, expenses and taxes (including local jurisdiction regulatory costs, taxes and expenses), as applicable.

Certain additional limitations:

- Notwithstanding that the Securities are linked to the performance of the Underlying Asset(s), holders do not have any rights in respect of the Underlying Asset(s).

- The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the holders' consent, to make adjustments to the terms and conditions of the Securities, to redeem the Securities prior to maturity, to monetise the Securities, to postpone or obtain alternative valuation of the Underlying Asset(s) to postpone scheduled payments under the Securities, to change the currency in which the Securities are denominated, to substitute the Underlying Asset(s), to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Securities and the Underlying Asset(s).
- The Securities contain provisions for calling meetings of holders to consider matters affecting their interests generally and these provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Governing law

The Securities will be governed by English law and the rights thereunder will be construed accordingly.

Status of the Securities

The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.

Description of restrictions on free transferability of the Securities

The Securities are offered and sold outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act and must comply with transfer restrictions with respect to the United States. Securities held in a clearing system will be transferred in accordance with the rules, procedures and regulations of that clearing system. Subject to the foregoing, the Securities will be freely transferable.

Where will the Securities be traded?

Application is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the regulated market of NASDAQ Stockholm.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- **You may lose some or all of your investment in the Securities:** Investors are exposed to the credit risk of Barclays Bank PLC. As the Securities do not constitute a deposit and are not insured or guaranteed by any government or agency or under the UK Government credit guarantee scheme, all payments or deliveries to be made by Barclays Bank PLC as Issuer under the Securities are subject to its financial position and its ability to meet its obligations. The Securities constitute unsubordinated and unsecured obligations of the Issuer and rank *pari passu* with each and all other current and future unsubordinated and unsecured obligations of the Issuer. You may also lose some or all of your investment if: (a) you sell your Securities before their scheduled maturity or expiry; (b) your Securities are early redeemed in certain extraordinary circumstances; or (c) the terms and conditions of your Securities are adjusted such that the amount payable or property deliverable to you is less than your initial investment.
- **There are risks associated with the valuation, liquidity and offering of the Securities:** The market value of your Securities may be lower than the issue price since the issue price may take into account the Issuer's and/or distributor's profit margin and costs in addition to the fair market value of the Securities. The market value of your Securities may be affected by the volatility, level, value or price of the Underlying Asset(s) at the relevant time, changes in interest rates, the Issuer's financial condition and credit ratings, the supply of and demand for the Securities, the time remaining until the maturity or expiry of the Securities and other factors. The price, if any, at which you will be able to sell your Securities prior to maturity may be substantially less than the amount you originally invested. Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities prior to redemption. The Issuer may withdraw the public offer at any time. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.
- **You are subject to risks associated with the determination of amount payable under the Securities:**
In order to receive the scheduled minimum amount at maturity, you must hold them until maturity. If the Securities are early redeemed, they may return less than the scheduled minimum amount, or even zero.
The amount payable on your Securities will be calculated based on an initial price and final price which is the arithmetic average of the applicable levels, prices or other applicable values of the Underlying Asset(s) on the specified averaging dates, rather than on one initial valuation date or final valuation date. This means that if the applicable level, price or value of the Underlying Asset(s) dramatically changes on one or more of the averaging

dates, the amount payable on your Securities may be significantly less than it would have been if the amount payable had been calculated by reference to a single value taken on an initial valuation date or final valuation date.

The calculation of amount payable depends on the level, value or price of the Underlying Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities. This means you may receive less (or, in certain cases, more) if the level, value or price of the Underlying Asset(s) crosses or reaches (as applicable) a barrier, than if it comes close to the barrier but does not reach or cross it (as applicable), and in certain cases you might receive no interest or coupon payments and/or could lose some or all of your investment.

- **Your Securities are subject to adjustments and early redemption:** Pursuant to the terms and conditions of the Securities, following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, the Determination Agent or the Issuer may take a number of remedial actions, including estimating the price of the Underlying Assets, substituting the Underlying Assets, and making adjustments to the terms and conditions of the Securities. Any of such remedial action may change the economic characteristics of the Securities and have a material adverse effect on the value of and return on the Securities. If no remedial action can be taken, or it is determined that an unlawfulness or impracticability event has occurred, the Issuer may early redeem the Securities by payment of an Early Cash Settlement Amount. If early redemption occurs, you may lose some or all of your investment because the Early Cash Settlement Amount may be lower than the price at which you purchase the Securities, or may even be zero. You will also lose the opportunity to participate in any subsequent positive performance of the Underlying Asset(s) and be unable to realise any potential gains in the value of the Securities. You may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest or coupon rate for a similar level of risk.
Pursuant to the terms of your Securities, following the occurrence of certain events concerning a purchaser of the Securities or a failure to comply with an information request from a relevant governmental, regulatory or listing authority of the People's Republic of China (excluding Hong Kong, Macau and Taiwan), your Securities may be redeemed early by payment of a local jurisdiction early redemption cash settlement amount which may be less than the amount invested or even zero. If such redemption occurs, you may lose some or all of your investment. You will also lose the opportunity to participate in any subsequent positive performance of the Underlying Asset(s) and be unable to realise any potential gains in the value of the Securities. You may also not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest or coupon rate for a similar level of risk.
- **Settlement is subject to conditions and may be impossible in certain circumstances:** Payment of the amount payable to you will not take place until all conditions to settlement have been satisfied in full. No additional amounts will be payable to you by the Issuer because of any resulting delay or postponement. Certain settlement disruption events may occur which could restrict the Issuer's ability to make payments, and the date of settlement could be delayed accordingly.
- **Your Securities are subject to foreign exchange risks:** Payment under the Securities will be made in a Settlement Currency which may be different from your home currency. You will be exposed to the risk of foreign exchange rate fluctuations between the Settlement Currency and your home currency. These fluctuations may decrease the value of the Securities.
- **Risks relating to Underlying Asset(s) that are equity indices:** Equity indices are composed of a synthetic portfolio of shares and provide investment diversification opportunities but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. The Securities are linked to equity indices, and as such may not participate in dividends or any other distributions paid on the shares which make up such indices. Accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares. The index sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. Equity indices may comprise index components of different types of asset classes. Each type of asset class may have a different set of valuation methodology and extraordinary events that differ from the other types of components within the index methodology and, in certain case, the determination agent may require to determine the price, value, level or other relevant measures of such component by adopting a valuation methodology and making reference to a price source it deems appropriate or using the other applicable fallback valuation methodologies. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities
- **Risks relating to Underlying Asset(s) that are mutual funds:** A fund may hold a significant number of illiquid assets which do not have reliable prices. The valuation of a fund is controlled by its fund manager and may be based on unaudited financial records of the fund. Funds may be subject to not only market price fluctuations, but also numerous other factors that may trigger a fund event. Following such an event, the Determination Agent may determine that the Securities shall be adjusted, monetised, early redeemed or that the underlying fund shall be substituted by a replacement fund. In any case, your expected return on investment in the Securities linked to funds may not materialise and in certain cases, you may lose some or all of your investment. Furthermore, the net asset value of an underlying fund may be written down to zero for the purposes of the Securities and payment dates under your Securities may be postponed for up to 180 days without compensation if a hypothetical investor in such fund is unable to receive payment in full in respect of a redemption of its shares in the fund as of the relevant payment date
- **Taxation risks:** The levels and basis of taxation on the Securities and any reliefs for such taxation will depend on your individual circumstances and could change at any time over the life of the Securities. This could have adverse consequences for you and you should therefore consult your own tax advisers as to the tax consequences to you of transactions involving the Securities.

Vilka är nyckelriskerna som är specifika för Emittenten?

Barclays Bankkoncernen har identifierat ett brett spektrum av risker för vilka dess verksamhet är exponerad mot. Väsentliga risker är de som den högsta ledningen ägnar särskild uppmärksamhet åt och som kan leda till att leveransen av Barclays Bankkoncernens strategi, resultat av verksamheten, finansiella ställning och/eller utsikter skiljer sig väsentligt från förväntningarna. Tillväxtrisker är sådana som har okända komponenter, vars påverkan kan kristalliseras under en längre tidsperiod. Faktorer som anges nedan ska inte betraktas som ett komplett och fullständigt uttalande om all de potentiella risker och osäkerheter som Barclays Bankkoncernen möter. Till exempel, vissa andra faktorer utanför Barclays Bankkoncernens kontroll, inklusive upptrappning av globala konflikter, terrorismhändelser, naturkatastrofer, pandemier och liknande händelser, även om de inte beskrivs nedan, ha en liknande inverkan på Barclays Bankkoncernen.

- **Väsentliga befintliga och framväxande risker som potentiellt påverkar mer än en huvudrisk:** Förutom väsentliga och framväxande risker som påverkar de huvudsakliga riskerna som anges nedan, finns det även väsentliga befintliga och framväxande risker som potentiellt påverkar mer än en av dessa huvudsakliga risker. Dessa risker är: (i) potentiellt ogynnsamma globala och lokala ekonomiska och marknadsmässiga förhållanden samt geopolitisk utveckling; (ii) effekterna av ränteförändringar på Barclays Bankkoncernens lönsamhet; (iii) konkurrensmiljöerna inom bank- och finanssektorn; (iv) agendan för regleringsändring och påverkan på affärsmodellen; (v) förändringar i leverans- och genomföranderisker, (vi) M&A-aktivitet samt strategiska initiativ, (vii), kortsamarbeten och (viii) förändringar avseende artificiell intelligens (inklusive generativ och agentbaserad AI) och maskininlärningsteknologier.
- **Klimatrisk:** Klimatrisk är risken för finansiella förluster som uppstår till följd av klimatförändringar genom fysiska risker och risker förknippade med övergången till en ekonomi med lägre koldioxidutsläpp.
- **Kredit- och Marknadsrisk:** Kreditrisk är risken för förluster för Bankkoncernen genom klienters, kunders eller motparters, inklusive staters, oförmåga att fullfölja sina åtaganden gentemot Bankkoncernen. Bankkoncernen är utsatt för risker som uppstår på grund av förändringar i kreditkvaliteten och återbetalningsgraden av lån och förskott som betalas av låntagare och motparter. Marknadsrisk är risken för förluster som uppstår från potentiella negativa förändringar i värdet på Barclays Bankkoncernens tillgångar och skulder från fluktuationer i marknadsvariabler.
- **Treasury och kapitalrisk samt risken för att Emittenten och Barclays Bankkoncernen är föremål för betydande resolutionsåtgärder:** Det finns tre primära typer av treasury- och kapitalrisk för Barclays Bankkoncernen, som är (1) likviditetsrisk – risken för att Barclays Bankkoncernen inte kan möta sina kontraktuella eller implicita åtaganden eller att den inte har lämpligt belopp av stabil finansiering och likviditet för att stödja sina tillgångar, vilket även kan påverkas av förändringar i kreditvärdighetsbetyg; (2) kapitalrisk – risken för att Barclays Bankkoncernen har en otillräcklig nivå eller sammansättning av kapital för att stödja dess normala affärsverksamheter och att möta dessa regulatoriska kapitalkrav under normala verksamhetsförhållanden och under stressade förutsättningar; och (3) ränterisk i bankboken – risken för att Barclays Bankkoncernen är exponerad mot kapital- eller inkomstvolatilitet på grund av en

missmatchning mellan räntexponeringar i dess (icke-handlade) tillgångar och skulder. Enligt viss engelsk lagstiftning (*Banking Act*) ges Bank of England betydande befogenheter (eller, under vissa omständigheter, HM Treasury), i samråd med Storbritanniens tillsynsmyndigheter Prudential Regulation Authority, Financial Conduct Authority och HM Treasury, efter vad som är tillämpligt som en del av en särskild resolutionsregim. Dessa befogenheter gör det möjligt för Bank of England (eller varje efterföljare eller ersättare och/eller sådan annan myndighet i Storbritannien med förmågan att utöva Storbritanniens Resolutionsbefogenheter) ("**Resolutionsmyndigheten**") för att genomföra olika resolutionsåtgärder och stabiliseringsalternativ (inklusive, men inte begränsat till, nedskrivningsverktyget) med avseende på en brittisk bank eller värdepappersföretag och vissa av dess dotterföretag (per dagen för detta Registreringsdokument, inklusive Emittenten) under omständigheter där Resolutionsmyndigheten anser att de relevanta resolutionsvillkoren är uppfyllda.

- **Operationella risker och modellrisker:** Operationell risk är risken för förluster för Barclays Bankkoncernen genom opassande eller fallerade processer eller system, mänsklig faktor eller på grund av externa händelser där orsaken inte beror på kredit- eller marknadsrisker. Modellrisk är potentialen för potentiella negativa konsekvenser från beslut baserade på inkorrekt eller felaktigt använd modelldata och rapporter.
- **Regelefterlevnadsrisk, risk för ekonomisk brottslighet, rykterisk, juridisk risk och rättsliga konkurrens- och regleringsfrågor:** Regelefterlevnadsrisk är risken för dåliga utfall för, eller skada för kunder, klienter och marknader, som uppstår ur leveransen av Barclays Bankkoncernens produkter och tjänster (utföranderisk) och risken för Barclays Bankkoncernen, dess klienter, kunder eller marknader att misslycka att efterleva tillämpliga lagarna, reglerna och förordningar, liksom till följd av skillnader mellan olika jurisdiktioner. Risken för ekonomisk brottslighet är risken att Barclays Bankkoncernen och dess närstående begår eller underlättar ekonomisk brottslighet eller att Barclays Bankkoncernens produkter eller tjänster används för att underlätta ekonomisk brottslighet. Rykterisk är risken för att en åtgärd, transaktion, investering, händelse, beslut eller affärsrelation minskar förtroendet för Barclays Bankkoncernens integritet och/eller kompetens. Barclays Bankkoncernen bedriver olika verksamhet på en mycket reglerad global marknad som exponerar den för juridisk risk som uppstår till följd av (i) mängden lagar, regler och förordningar som gäller för de verksamheter som den bedriver, som är mycket dynamiska, kan variera och/eller stå i konflikt mellan jurisdiktioner (särskilt i frågor som kan uppfattas som politiskt känsliga, såsom policyer och initiativ kring mångfald, jämlikhet och inkludering eller hållbarhet), och kan vara oklara i sin tillämpning beträffande särskilda omständigheter, särskilt i nya och nya områden; och (ii) Barclays Bankkoncernens diversifierade och utvecklande karaktär och affärsmetoder. I samtliga fall utsätter detta Barclays Bankkoncernen för risken för klagomål, utredning eller verkställighetsåtgärd, förlust eller sanktioner, skadestånd eller böter från misslyckandet av medlemmar i Barclays Bankgruppen att uppfylla tillämpliga lagar, regler, förordningar eller avtalade krav. Juridisk risk kan uppstå i förhållande till ett antal riskfaktorer som sammanfattats ovan. Risk för ekonomiska brott är risken att Barclays Bankkoncernen och dess närstående personer (anställda eller tredje part) begår eller underlättar ekonomiska brott och/eller att Barclays Bankkoncernens produkter och tjänster används för att underlätta ekonomiska brott.

PLUS

(ii), om

(a) den Slutliga Utvecklingen är större än eller motsvarande Procentsatsen av Övre Startkursen (som är 100,00%), ett belopp lika med produkten av Beräkningsbeloppet och det större av (I) Golvet (som är 0,00%) och (II) Deltagandegraden^(Avveckling) (som är indikativt 100,00%,

Deltaganderaden^(Avveckling) skall inte vara mindre än 75,00%) multiplicerat med ett belopp lika med Slutlig Utveckling minus Procentsatsen av Övre Startkursen med Utvecklingen för Valutaomvandling, eller;

(b) annars, noll.

Vilka nyckelrisker är specifika för Värdepapperen?

Värdepapperen är föremål för följande huvudrisker:

- **Du kan förlora en del av eller hela dina investering i Värdepapperen:** Investerar är exponerade mot Barclays Bank PLC:s kreditrisk. Eftersom Värdepapperen inte utgör en insättning och inte är försäkrade eller garanterade av någon regering eller byrå eller under den brittiska regeringens kreditgarantisystem, är alla betalningar eller leveranser som ska göras av Barclays Bank PLC som Emittent under Värdepapperen beroende av dess finansiella ställning och dess förmåga att uppfylla sina skyldigheter. Värdepapperen utgör icke efterställda och icke säkerställda obligationer för Emittenten och rangordnas lika (*pari-passu*) med alla andra nuvarande och framtida icke efterställda och icke säkerställda förpliktelser för Emittenten. Du kan också förlora en del av eller hela din investering om: (a) du säljer dina Värdepapper innan den planerade förfallodagen eller avslutandedagen; (b) dina Värdepapper blir förtida inlösta under vissa extraordinära omständigheter; eller (c) villkoren för dina Värdepapper justeras så att det belopp som ska betalas eller den egendom som levereras till dig är mindre än din initiala investering.
- **Det finns risker i samband med värderingen, likviditeten och erbjudandet av Värdepapperen:** Marknadsvärdet på dina Värdepapper kan vara lägre än emissionskursen eftersom emissionskursen kan ta hänsyn till Emittentens och/eller distributörens vinstmarginal och kostnader utöver Värdepapperens rimliga marknadsvärde. Marknadsvärdet på dina Värdepapper kan påverkas av volatiliteten, nivån, värdet eller kursen på de(n) Underliggande Tillgången(arna) vid den aktuella tidpunkten, ränteförändringar, Emittentens finansiella tillstånd och kreditbetyg, utbudet och efterfrågan på Värdepapper, den återstående tiden fram till förfallodagen eller avslutandedagen för Värdepapperen och andra faktorer. Kursen, i förekommande fall, till vilken du kommer att kunna sälja dina Värdepapper före förfallodagen kan vara väsentligt mindre än det belopp du ursprungligen investerade. Dina Värdepapper kanske inte har en aktiv handelsmarknad och Emittenten är inte skyldig att skapa en marknad eller återköpa värdepapperen före förfallodagen. Emittenten kan när som helst dra tillbaka det offentliga erbjudandet. I sådant fall, om du redan har betalat eller levererat teckningsbeloppet för de relevanta Värdepapperen, har du rätt till återbetalning av sådant belopp, men kommer inte att få någon ersättning som kan ha uppstått under perioden mellan deras betalning eller leverans av teckningsbelopp och återbetalningen av Värdepapperen.

- **Du är föremål för risker förknippade med fastställandet av betalningsbara belopp under Värdepapperen:**

För att få det planerade minimibeloppet vid förfallodagen måste du hålla dem tills förfall. Om Värdepappererna löses in i förtid kan de ge mindre avkastning än det planerade minimibeloppet, eller till och med noll. Belopp som ska betalas på dina Värdepapper kommer att beräknas baserat på en initial kurs och slutlig kurs som är det aritmetiska genomsnittet för tillämpliga nivåer, kurser eller andra tillämpliga värden på de(n) Underliggande Tillgången(arna) på de angivna genomsnittsdagarna snarare än på en initial värderingsdag eller slutlig värderingsdag. Detta innebär att om den tillämpliga nivån, kursen eller värdet

på de(n) Underliggande Tillgången(arna) dramatiskt förändras på en eller fler av genomsnittsdagarna, kan belopp som ska betalas på dina Värdepapper vara betydligt mindre än det skulle ha varit om det betalningsbara beloppet hade beräknats med hänvisning till ett enskilt värde taget på en initialvärderingsdag eller slutlig värderingsdag. Beräkningen av det belopp som ska betalas beror på nivån, värdet eller kursen på de(n) Underliggande Tillgången(arna) som når eller passerar en "barriär" under en viss period eller specificerade dagar under Värdepapperens löptid. Detta innebär att du kan få mindre (eller i vissa fall mer) om nivån, värdet eller kursen på de(n) Underliggande Tillgången(arna) passerar eller når (i tillämpliga fall) en barriär, än om den kommer nära barriären men inte når eller passerar den (i förekommande fall), och i vissa fall kanske du inte får några ränte- eller kupongbetalningar och/eller kan förlora en del av eller hela din investering.

- **Dina Värdepapper är föremål för justeringar och förtida inlösen:** I enlighet med villkoren för Värdepapperen, efter inträffandet av vissa störmingshändelser eller extraordinära händelser som rör Emittenten, dess hedgningsarrangemang, de(n) Underliggande Tillgången(arna), beskattning eller Värdepappers relevanta valuta, kan Fastställandeagenten eller Emittenten vidta ett antal korrigerande åtgärder, inklusive uppskattning av kurs för de(n) Underliggande Tillgången(arna), ersätta de(n) Underliggande Tillgången(arna) och göra justeringar av villkoren för Värdepapperen. Alla sådana korrigerande åtgärder kan ändra Värdepappers ekonomiska egenskaper och ha en väsentlig negativ inverkan på värdet på och avkastningen på Värdepapperen. Om inga korrigerande åtgärder kan vidtas, eller det fastställs att fullgörandet av någon av Emittentens skyldigheter enligt Värdepapperen är olagligt kan Emittenten lösa in Värdepapperen i förtid genom betalning av ett förtida belopp för kontant avveckling. Om förtida inlösen inträffar, kan du förlora en del av eller hela din investering eftersom det Kontanta Förtida Avvecklingsbeloppet kan vara lägre än den kurs du köpte Värdepapperen för, eller till och med vara noll. Du kommer också att förlora möjligheten att delta i all efterföljande positiva utveckling för de(n) Underliggande Tillgången(arna) och inte kunna realisera några potentiella vinster i värdet på Värdepapperen. Du kanske inte kan återinvestera intäkterna från en investering till en jämförbar avkastning och/eller med en jämförbar ränta eller kupongränta för en liknande risknivå.

Enligt villkoren för dina Värdepapper, efter inträffandet av vissa händelser avseende en köpare av Värdepapperen eller ett misslyckande att efterleva en begäran om information från en relevant statlig, regulatorisk eller noteringsmyndighet i Folkrepubliken Kina (exkluderande Hong Kong, Macau och Taiwan), kan dina Värdepapper bli inlösta i förtid genom betalning av ett kontant avvecklingsbelopp vid förtida inlösen vilket kan vara lägre än beloppet som investerades eller rentav noll. Om sådan inlösen inträffar, kan du förlora hela eller delar av din investering. Du kan också förlora möjligheten att delta i vilken som helst potentiell positiv utveckling för den Underliggande Tillgången(arna) och du kan vara oförmögen att realisera vilka som helst potentiella uppgångar i värdet på Värdepapperen. Du kanske inte heller kan återinvestera likviderna från en investering till en motsvarande avkastning och/eller motsvarande ränta eller kupongräntesats till en liknande nivå av risk.

- **Avveckling är föremål för villkor och kan vara omöjlig under vissa omständigheter:** Betalning av det belopp som ska betalas till dig kommer inte att ske förrän alla villkor för avveckling har uppfyllts i sin helhet. Inget ytterligare belopp kommer att betalas till dig av Emittenten på grund av eventuella förseningar eller uppskjutningar. Vissa händelser i avvecklingsstörningar kan inträffa som kan begränsa Emittentens förmåga att göra betalningar och dag för avveckling kan försenas i enlighet därmed.
- **Dina Värdepapper är föremål för valutarisker:** Betalning enligt Värdepapperen kommer att göras i en Avvecklingsvaluta som kan skilja sig från din hemvaluta. Du kommer att utsättas för risken för valutakursförändringar mellan Avvecklingsvalutan och din hemvaluta. Dessa fluktuationer kan minska värdet på Värdepapperen.
- **Risker relaterade till Underliggande Tillgång(ar) som är som är aktieindex:** Aktieindex består av en syntetisk portfölj av aktier och ger investeringsdiversifieringsmöjligheter, men kommer att vara föremål för risken för fluktuationer i både aktiekurser och värdet och volatiliteten i det aktuella aktieindexet. Värdepapperen är relaterade till aktieindex, och får som sådan inte delta i utdelning eller någon annan utdelning som betalas på de aktier som utgör sådana index. Därför kan du få en lägre avkastning på Värdepapperen än du skulle ha fått om du hade investerat direkt i dessa aktier. Indexsponsorn kan lägga till, radera eller ersätta komponenterna i ett aktieindex efter eget gottfinnande och kan också ändra metoden som används för att beräkna nivån på ett sådant index. Aktieindex kan bestå av indexkomponenter av olika typer av tillgångsklasser. Varje typ av tillgångsklass kan ha en annan uppsättning värderingsmetoder och extraordinära händelser som skiljer sig från andra typer av komponenter inom indexmetodiken och, i vissa fall, kan fastställelseagenten kräva att fastställandet priset, värdet, nivån eller andra relevanta mått på en sådan komponent sker genom att anta en värderingsmetod och hänvisa till en prislista som den anser vara lämplig eller med hjälp av annan tillämplig reservvärderingsmetod. Dessa händelser kan ha en skadlig inverkan på nivån på det indexet, vilket i sin tur kan ha en negativ inverkan på värdet på och avkastningen på Värdepapperen.
- **Risker relaterade till Underliggande Tillgång(ar) som är fonder:** En fond kan innehålla ett betydande antal illikvida tillgångar vilka inte har tillförlitliga priser. Värderingen av en fond kontrolleras av dess fondförvaltare och kan vara baserad på oreviderade finansiella poster avseende fonden. Fonder kan vara föremål för, inte bara fluktuationer i marknadspris, men även ett stort antal andra faktorer vilka kan aktiveras av en fondhändelse. Efter en sådan händelse kan Beräkningsagenten komma att besluta att Värdepapperen ska justeras, omvandlas till likvida medel, förtida inlösta eller att den underliggande fonden ska ersättas med en ersättningsfond. I varje fall, din förväntade avkastning från investeringen i värdepapperen relaterad till en fond kanske inte realiseras och i vissa fall kan du komma att förlora hela eller delar av din investering. Vidare kan nettotillgångsvärdet för en underliggande fond skrivas ner till noll för Värdepapperen [och betalningsdagar under dina Värdepapper kan skjutas upp i upp till 180 dagar utan kompensation om en hypotetisk investerare i sådan fond är oförmögen att erhålla full betalning avseende inlösen av dess andelar i fonden vid den relevanta betalningsdagen.
- **Beskattningsrisker:** Nivåerna och grunden för beskattningen av Värdepapperen och eventuella befrielser för sådan beskattning beror på dina individuella omständigheter och kan ändras när som helst under Värdepapperens löptid. Detta kan ha negativa konsekvenser för dig och du bör därför rådfråga dina egna skatterådgivare om skattekonsekvenserna för dig av transaktioner som involverar Värdepapperen.
