The Securities may not be a suitable investment for all investors

An investment in the Securities entails certain risks, which vary depending on the specification and type or structure of the Securities.

Each potential investor should determine whether an investment in the Securities is appropriate in such potential investor's particular circumstances. An investment in the Securities requires a thorough understanding of the nature of the relevant transaction. Potential investors should be experienced with respect to an investment in the Securities and be aware of the related risks.

An investment in the Securities is only suitable for potential investors who:

- have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Securities and the information contained in, or incorporated by reference into, this document;
- have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of the potential investor's particular financial situation and to evaluate the impact the Securities will have on their overall investment portfolio;
- understand thoroughly the terms of the Securities and are familiar with the behaviour of the Relevant Underlyings and financial markets;
- are capable of bearing the economic risk of an investment in the Securities until the maturity date of the Securities;
- recognise that it may not be possible to dispose of the Securities for a substantial period of time, if at all before the maturity date; and
- are familiar with the behaviour of the Relevant Underlyings and relevant financial markets and be able to evaluate (either alone or with the help of a financial and legal adviser) possible scenarios for economic, interest rate and other factors that may affect the potential investor's investment and its ability to bear the applicable risks.

The Securities are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in any Securities unless such potential investor has the expertise (either alone or with a financial and legal adviser) to evaluate how the Securities will perform under changing conditions, the resulting effects on the value of the Securities and the impact this investment will have on the potential investor's overall investment portfolio. The Issuer, the Guarantor and Morgan Stanley & Co. International plc as Distribution Agent, disclaims any responsibility to advise prospective investors of any matters arising under the law of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments or deliveries on, the Securities.

<p>The payment obligations of MSBV in respect of the Securities are unconditionally and irrevocably guaranteed by Morgan Stanley (the “Guarantor” or “Morgan Stanley”) pursuant to a guarantee dated as of 14 July 2023 (the “Guarantee”) which is governed by New York law. The Guarantor’s obligations under the Guarantee constitute direct, general and unsecured obligations of the Guarantor which rank without preference among themselves and <i>pari passu</i> with all other outstanding, unsecured and unsubordinated obligations of the Guarantor, present and future, but in the event of insolvency only to the extent permitted by laws affecting creditors’ rights.</p>				
C.3.2	<i>Brief description of the Guarantor</i>

C.3.4	<i>Most material risk factors pertaining to the Guarantor</i>				
The most material risk factors pertaining to Morgan Stanley are listed under section B.3 “ <i>What are the key risks that are specific to the Issuer?</i> ” above.					
C.4	<i>What are the key risks that are specific to the Securities?</i>				
<ul style="list-style-type: none"> • <i>The Securities may be redeemed prior to maturity:</i> If an event of default occurs in respect of the Issuer, investors would have an unsecured claim against the Issuer for the amount due on the early redemption of the Securities. • <i>The value of the Securities may be influenced by unpredictable factors:</i> The market price or value of the Securities is expected to be affected primarily by changes in the Relevant Underlyings. It is impossible to predict how the levels or prices (as applicable) of the Relevant Underlyings will vary over time. The historical performance values of the Relevant Underlyings do not indicate the future performance of the Relevant Underlyings. Factors such as volatility, interest rates, remaining term of the Securities or exchange rates will influence the price investors will receive if an investor sells its Securities prior to maturity. While the market value of the Securities is linked to the Relevant Underlyings, any change may not be comparable or proportionate. • <i>No benefit of any cross-default or cross-acceleration with other indebtedness of MSBV or Morgan Stanley; A Morgan Stanley covenant default or bankruptcy, insolvency or reorganization event does not constitute an Event of Default:</i> The Securities will not have the benefit of any cross-default or cross-acceleration with other indebtedness of MSBV or Morgan Stanley (as applicable). In addition, a covenant default by Morgan Stanley, as guarantor, or an event of bankruptcy, insolvency or reorganization of Morgan Stanley, as guarantor, does not constitute an event of default with respect to the Securities. • <i>Secondary trading of the Securities may be limited:</i> Potential investors should be willing to hold the Securities until maturity. There may be little or no secondary market in the Securities. • <i>The Issuer may amend the terms and conditions of the Securities, the Guarantee and the applicable Deed of Covenant without Securityholder consent:</i> The Issuer may amend the terms and condition of the Securities, the Guarantee and the deed of covenant dated 17 July 2013 (as amended or supplemented from time to time) in relation to, amongst others, the Securities, without Securityholder consent if, in its opinion, such amendments are not materially prejudicial to Securityholders. • <i>The Securities are linked to indices:</i> Factors affecting the performance of the indices comprising the Relevant Underlyings may adversely affect the value of the Securities. Indices are comprised of a synthetic portfolio of other assets, and its performance may be dependent on the performance of such assets. Returns on the Securities do not reflect a direct investment in underlying shares or other assets comprising any index. A change in the composition or discontinuance of any index could adversely affect the market value of the Securities. Securities are not sold or promoted by any index or the sponsor of any such index. The Issuer or its affiliates are not liable for the actions or omissions of the sponsor of an index, any information concerning an index, the performance of such index or use thereof in connection with the Securities. • <i>The Securities are linked to a fund:</i> Investments offering direct or indirect exposure to the performance of funds are generally considered to be particularly risky and may bear similar risks, including but not limited to, market risks to a direct investment in the relevant fund(s). The risks associated with investing in fund-linked Securities are similar to the risks attached to a direct investment in the underlying fund. • <i>Securities linked to a Basket:</i> Investors will bear the risk of the performance of each component comprising the basket. A high correlation of such components may have a significant effect on amounts payable. The 					

<p>negative performance of a single component may outweigh a positive performance of one or more other components.</p> <ul style="list-style-type: none"> • Basket Performance: The Final Redemption Amount includes a component which is calculated as the Basket Performance minus the Strike. Investors in the Securities will only receive this component if the Basket Performance minus the Strike is a positive number. The Basket Performance involves a comparison of (i) the Initial Reference Value in respect of each Relevant Underlying (being the closing value of each such Relevant Underlying as on the Strike Date, as determined on the Determination Date) and (ii) the Final Average Reference Value in respect of each Relevant Underlying (being the arithmetic mean of the closing value of each such Relevant Underlying as on each Averaging Date, as determined on the Determination Date). • Averaging: The Final Average Reference Value in respect of each Relevant Underlying is determined based on the arithmetic mean of the closing values of each such Relevant Underlying on each Averaging Date. This will limit the extent to which a sudden increase in value or performance of any Relevant Underlying on a single Averaging Date affects the Final Average Reference Value of any such Relevant Underlying (and ultimately, therefore, the Basket Performance).

The other provisions of Condition 9 (*Provisions relating to Equity-Linked Securities*) and Condition 13 (*Provisions relating to Fund-Linked Securities*) shall continue to apply and shall be construed in conjunction with these Multi-Asset Basket Conditions where the context requires.

1. Reference Dates and Averaging Dates in respect of an Index

1.1 Reference Dates

- (a) If a Reference Date for any Multi-Asset Basket Component which is an Index is not a Scheduled Trading Day for such Multi-Asset Basket Component, the relevant Reference Date shall be the next succeeding Scheduled Trading Day for that Multi-Asset Basket Component.
- (b) If any Scheduled Reference Date for any Multi-Asset Basket Component which is an Index is determined to be a Disrupted Day for such Multi-Asset Basket Component by the Determination Agent, then:
 - (A) the Reference Date for such Multi-Asset Basket Component in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Multi-Asset Basket Component; and
 - (B) the Reference Date for any such Multi-Asset Basket Component in respect of which the Scheduled Reference Date is a Disrupted Day (each, an “**Affected Multi-Asset Basket Component**”) shall be the earlier of (A) the first Scheduled Trading Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Multi-Asset Basket Component; and (B) the Reference Cut-Off Date for such Affected Multi-Asset Basket Component (notwithstanding that such day may not be a Scheduled Trading Day).
- (c) In the case where a Reference Date for any Multi-Asset Basket Component which is an Index falls on the relevant Reference Cut-Off Date pursuant to Multi-Asset Basket Condition 1.1(b) above, then:
 - (A) if such Reference Cut-Off Date is not a Disrupted Day, the Determination Agent shall determine the level of such Multi-Asset Basket Component as at the Determination Time on such Reference Cut-Off Date; or
 - (B) if such Reference Cut-Off Date is a Disrupted Day, the Determination Agent shall determine, in its reasonable discretion, its good faith estimate of the level of such Multi-Asset Basket Component as of the Determination Time on such Reference Cut-Off Date.

1.2 Averaging Dates

- (a) If a Scheduled Averaging Date in respect of a Reference Date is determined by the Determination Agent to be a Disrupted Day in respect of a Multi-Asset Basket Component which is an Index, then:

- (i) the Averaging Date for each Multi-Asset Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (ii) the Averaging Date for each Multi-Asset Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Multi-Asset Basket Component, an “**Affected Multi-Asset Basket Index Component**”) shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Date in respect of such Affected Multi-Asset Basket Index Component and (II) the Averaging Cut-Off Date for such Affected Multi-Asset Basket Index Component, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date.
- (b) If an Averaging Date in respect of any Multi-Asset Basket Component which is an Index falls on the relevant Averaging Cut-Off Date:
- (i) if such Averaging Cut-Off Date is not a Disrupted Day for such Multi-Asset Basket Component, the Determination Agent shall determine the level of such Multi-Asset Basket Component as at the Determination Time on such Averaging Cut-Off Date; or
 - (ii) if such Averaging Cut-Off Date is a Disrupted Day, the Determination Agent shall determine, in its reasonable discretion, the level of such Multi-Asset Basket Component as of the Determination Time on such date in accordance with the formula for and method of calculating such Multi-Asset Basket Component last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Determination Time on such Averaging Cut-Off Date of each security comprised in that Multi-Asset Basket Component (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on such Averaging Cut-Off Date, its estimate of the value for the relevant security as of the Determination Time on such Averaging Cut-Off Date, acting in good faith and a commercially reasonable manner).

- (c) If any Scheduled Reference Date is a Disrupted Day in respect of any such Multi-Asset Basket Component, then the relevant Reference Date shall be the next succeeding Fund Business Day that is not in the determination of the Determination Agent a Disrupted Day, unless no Fund Business Day that is not a Disrupted Day has occurred prior to the

last Fund Business Day of one Cut-off Period following the Scheduled Reference Date. In that case, (i) the last Fund Business Day of such Cut-off Period shall be deemed to be the Reference Date, notwithstanding the fact that such Fund Business Day is a Disrupted Day, and (ii) the Determination Agent shall determine its estimate of the value for the Fund Interest as of the Valuation Time on that deemed Reference Date, acting in good faith and a commercially reasonable manner;

2.2 Averaging Dates

- (a) If any Averaging Date in respect of a Reference Date is a Disrupted Day in respect of any Multi-Asset Basket Component which is a Fund, then the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred prior to the Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Reference Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (2) the Determination Agent shall determine its estimate of the value for the Fund Interest as of the Valuation Time on that deemed Averaging Date, acting in good faith and a commercially reasonable manner.

B.3 Vilka nyckelrisker är specifika för Emittenten?

Kreditrisk: Innehavare av Värdepapper emitterade av Emittenten bär kreditrisken för den relevanta Emittenten och/eller Garanten, som är risken att den relevanta Emittenten och/eller Garanten inte kan uppfylla sina åtaganden enligt Värdepapperen, oavsett huruvida sådana Värdepapper är kapitalskyddade eller principalskyddade eller hur kapitalbelopp, räntebelopp eller andra betalningar enligt sådana Värdepapper ska beräknas. - **Morgan Stanley möter stark konkurrens från bolag som erbjuder finansiella tjänster och andra, vilket kan leda till prissättningspress som kan påverka dess avkastning och lönsamhet betydande negativt.**

C.3.4 De mest väsentliga riskfaktorerna som hänför sig till Garanten

De mest väsentliga riskfaktorerna som hänför sig till Morgan Stanley finns angivna i avsnitt B.3 "Vilka nyckelrisker är specifika för Emittenten?" ovan.

C.4 Vilka nyckelrisker är specifika för Värdepapperen?

- **Värdepapperen kan lösas in innan förfallodagen:** Om en Uppsägningsgrundande Händelse uppkommer avseende Emittenten, kommer en investerare ha ett icke-säkerställt krav gentemot Emittenten för belopp som förfaller till betalning vid förtida inlösen av Värdepapperen.
- **Värdet på Värdepapperen kan påverkas av oförutsebara faktorer:** Marknadskursen eller värdet på Värdepapperen förväntas påverkas primärt av förändringar i de Relevanta Underliggande. Det är omöjligt att förutse hur nivåerna eller kurserna (efter vad som är tillämpligt) för de Relevanta Underliggande kommer att variera över tid. Den historiska utvecklingen av värdena för de Relevanta Underliggande är inte en indikation på framtida utveckling för de Relevanta Underliggande. Faktorer som volatilitet, räntesatser, återstående löptid på Värdepapperen eller växelkurser kommer att påverka kursen investerare kommer att få om en investerare säljer sina Värdepapper innan förfallodagen. Där marknadsvärdet för Värdepapperen är relaterat till de Relevanta Underliggande, kanske inte förändringar är jämförbara eller proportionerliga.
- **Ingen fördel av någon uppsägnings- eller accelerationsgrund hänförlig till acceleration eller uppsägning av annan skuldsättning för MSBV eller Morgan Stanley; en villkorsbrotts- eller konkurs-, insolvens- eller omstruktureringshändelse för Morgan Stanley utgör inte en Uppsägningsgrund:** Värdepapperen kommer inte att dra fördel av någon uppsägnings- eller accelerationsgrund hänförlig till acceleration eller uppsägning av annan skuldsättning för MSBV eller Morgan Stanley (beroende på vad som är tillämpligt). Dessutom, en överträdelse av ett villkorsåtagande av Morgan Stanley, som garant, eller inträffandet av konkurs, insolvens eller rekonstruktion av Morgan Stanley, som garant, utgör inte en uppsägningsgrund avseende Värdepapperen.

- **Andrahandsmarknaden för Värdepapperen kan vara begränsad:** Potentiella investerare bör vara villiga att behålla Värdepapperen till förfallodagen. Det kan finnas en begränsad eller ingen andrahandsmarknad för Värdepapperen.
- **Emittenten kan justera villkoren för Värdepapperen, Garantin och tillämplig deed of covenant utan Värdepappersinnehavarnas samtycke:** Emittenten kan justera villkoren för Värdepapperen, Garantin och deed of covenant daterad den 17 juli 2013 (så som justerad eller förändrad från en tid till en annan) avseende, bl.a., Värdepapperen utan Värdepappersinnehavarens samtycke om, enligt dess uppfattning, sådana justeringar som inte är betydande till nackdel för Värdepappersinnehavare.
- **Värdepapperen är relaterade till ett index:** Faktorer som påverkar utvecklingen för de index som utgör de Relevanta Underliggande kan negativt påverka värdet på Värdepapperen. Index består av en syntetisk portfölj med andra tillgångar, och dess utveckling kan vara beroende av utvecklingen för sådana tillgångar. Avkastning på Värdepapper speglar inte en direktinvestering i underliggande aktier eller andra tillgångar som ingår i index. En förändring av sammansättningen av index eller nedläggande av ett index kan negativt påverka marknadsvärdet på Värdepapperen. Värdepapperen säljs inte och marknadsförs inte av något index eller av någon sponsor till sådant index. Emittenten och dess närstående är inte ansvariga för åtgärder eller försummelser från sponsorn av ett index, någon information avseende index, utvecklingen för sådant index eller användningen av indexet i samband med Värdepapperen.
- **Värdepapperen är relaterade till en fond:** Investeringar som erbjuder direkt eller indirekt exponering mot fonders utveckling anses generellt vara särskilt riskfyllda och kan bära liknande risker, inkluderat men inte begränsat till, marknadsrisker för en direkt investering i fonden(erna). Riskerna förknippade med investering i fondrelaterade Värdepapper liknar riskerna förknippade med en direkt investering i den underliggande fonden.
- **Värdepapper relaterade till en korg:** Investerare kommer bära risken för utvecklingen för vardera av korgkomponenterna. En hög korrelation mellan korgkomponenterna kan ha en betydande påverkan på belopp som ska betalas. Den negativa utvecklingen för en korgkomponent kan väga ut en positiv utveckling för en eller flera andra korgkomponenter.
- **Underliggande Utveckling:** Det Slutliga Inlösenbeloppet inkluderar en komponent som beräknas som Korgutvecklingen minskad med Startvärdet. Investerare i Värdepapperen kommer endast erhålla den komponenten om Korgutvecklingen minskad med Startvärdet är en positiv siffra. Korgutvecklingen innehåller en jämförelse av (i) det Initiala Referensvärdet avseende respektive Relevant Underliggande (som är stängningsvärdet för varje sådan Relevant Underliggande per Startdagen, så som det fastställs på Fastställsedagen) och (ii) det Slutliga Genomsnittliga Referensvärdet avseende respektive Relevant Underliggande (som är det aritmetiska genomsnittet av stängningsvärdet för varje sådan Relevant Underliggande på varje Genomsnittsdag, så som det fastställs på Fastställsedagen).
- **Genomsnittsfunktion:** Det Slutliga Genomsnittliga Referensvärdet avseende respektive Relevant Underliggande fastställs baserat på det aritmetiska genomsnittet av stängningsvärdena för varje sådan Relevant Underliggande på varje Genomsnittsdag. Detta kommer att begränsa i vilken utsträckning en plötslig höjning i värdet eller utvecklingen för någon Relevant Underliggande på en enskild Genomsnittsdag påverkar det Slutliga Genomsnittliga Referensvärdet för någon sådan Relevant Underliggande (och, i förlängningen, därmed Korgutvecklingen).
