9. **UNITED STATES TAX CONSIDERATIONS**

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

EXAMPLES

THE EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY.

For the purposes of each Example:

- (i) the Calculation Amount per Certificate is SEK 10,000, the Aggregate Amount is SEK 100,000,000 and the Issue Price is 100 per cent. (100%) of the Aggregate Amount;
- (ii) in respect of each Underlying Asset, the Autocall Level is 100 per cent. (100%) of the Asset Initial Price of such Underlying Asset, the Coupon Barrier Level 1 is 100 per cent. (100%) of the Asset Initial Price of such Underlying Asset, the Coupon Barrier Level 2 is 80 per cent. (80%) of the Asset Initial Price of such Underlying Asset, the Trigger Level is 100 per cent. (100%) of the Asset Initial Price of such Underlying Asset and the Barrier Level is 70 per cent. (70%) of the Asset Initial Price of such Underlying Asset;
- (iii) the Redemption Percentage is 100 per cent. (100%); and
- (iv) the Minimum Percentage is 85 per cent. (85%).

For the purposes of these Examples only, (i) the Autocall Event Amount for the first Autocall Observation Date (being the Valuation Date scheduled to fall on September 9, 2022) is deemed to be SEK 11,000, (ii) the Coupon Value is deemed to be 0.02 and (iii) the Trigger Percentage is deemed to be 180 per cent. (180%). The actual Autocall Event Amount for the first Autocall Observation Date, the Coupon Value and the Trigger Percentage will each be determined by the Calculation Agent on or around September 9, 2021 and, in respect of (i) the Autocall Event Amount for the first Autocall Observation Date may be a lesser or greater amount than SEK 11,000 (but shall not be less than SEK 10,700), (ii) the Coupon Value may be a lesser or greater value than 0.02 (but shall not be less than 0.01) and (iii) the Trigger Percentage may be a lesser or greater percentage than 180 per cent. (180%) (but shall not be less than 156 per cent. (156%)). Therefore, as the actual Autocall Event Amount for the first Autocall Observation Date, the Coupon Value and the Trigger Percentage may each be lower than the deemed values used for the purposes of these Examples, the actual amounts received by investors may be less than the amounts stated in the Examples below.

AUTOMATIC EARLY EXERCISE

Example 1 – Automatic Early Exercise but no Coupon Amount: *The Reference Price of each Underlying Asset for the first Autocall Observation Date is greater than or equal to its respective Autocall Level.*

In this Example, the Certificates will be exercised on such Autocall Observation Date, and the Automatic Early Exercise Amount payable per Certificate (of the Calculation Amount) on the Automatic Early Exercise Date immediately following such Autocall Observation Date will be an amount in the Settlement Currency equal to the Autocall Event Amount for the first Autocall Observation Date, i.e., SEK 11,000. No Coupon Amount will be payable on the Coupon Payment Date falling on such Automatic Early Exercise Date.

Example 2 – no Automatic Early Exercise but Coupon Amount: *The Reference Price of one Underlying Asset for the first Autocall Observation Date is less than its Autocall Level but greater than or equal to its Coupon Barrier Level 2, and the Reference Price of each other Underlying Asset for such Autocall Observation Date is greater than or equal to its respective Autocall Level.*

In this Example, the Certificates will not be exercised on such Autocall Observation Date. A Coupon Amount of 2.00 per cent. (2.00%) of the Calculation Amount, i.e., SEK 200, will be payable per Certificate (of the Calculation Amount) on the Coupon Payment Date immediately following such Autocall Observation Date.

Example 3 – no Automatic Early Exercise and no Coupon Amount: *The Reference Price of one Underlying Asset for the first Autocall Observation Date is less than its Coupon Barrier Level 2 and the Reference Price*

of each other Underlying Asset for such Autocall Observation Date is greater than or equal to its respective Coupon Barrier Level 2.

In this Example, the Certificates will not be exercised on such Autocall Observation Date and no Coupon Amount will be payable on the Coupon Payment Date immediately following such Autocall Observation Date.

SETTLEMENT AMOUNT

No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date.

Example 5 – neutral scenario plus Coupon Amount: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is 99 per cent. (99%) of its Asset Initial Price and the Final Closing Price of each other Underlying Asset is 100 per cent. (100%) or more of its respective Asset Initial Price.*

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Calculation Amount) on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Redemption Percentage, i.e., SEK 10,000. Additionally, a Coupon Amount of 2.00 per cent. (2.00%) of the Calculation Amount, i.e., SEK 200, will be payable per Certificate (of the Calculation Amount) on the Coupon Payment Date falling on the Maturity Date.

Example 6 – neutral scenario but no Coupon Amount: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is 79 per cent. (79%) of its Asset Initial Price and the Final Closing Price of each other Underlying Asset is 80 per cent. (80%) or more of its respective Asset Initial Price.*

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Calculation Amount) on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Redemption Percentage, i.e., SEK 10,000. No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date.

Example 7 – negative scenario and no Coupon Amount: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is 69 per cent. (69%) of its Asset Initial Price and the Final Closing Price of each other Underlying Asset is 70 per cent. (70%) or more of its respective Asset Initial Price.*

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Calculation Amount) on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Minimum Percentage, i.e., SEK 8,500. No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a substantial loss of the amount invested in the Certificates (apart from any Coupon Amounts received prior to the Maturity Date).**

Example 8 – negative scenario and no Coupon Amount: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is zero per cent. (0%) of its Asset Initial Price and the Final Closing Price of each other Underlying Asset is 70 per cent. (70%) or more of its respective Asset*

Initial Price.

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Calculation Amount) on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Minimum Percentage, i.e., SEK 8,500. No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a substantial loss of the amount invested in the Certificates (apart from any Coupon Amounts received prior to the Maturity Date).**

- GSI is subject to the Bank Recovery and Resolution Directive, which is intended to enable a range of actions to be taken by a resolution authority in relation to credit institutions and investment firms considered by the resolution authority to be at risk of failing and where such action is necessary in the public interest. The resolution powers available to the resolution authority include powers to (i) write down the amount owing, including to zero, or convert the Securities into other securities, including ordinary shares of the relevant institution (or a subsidiary) – the so-called "bail-in" tool; (ii) transfer all or part of the business of the relevant institution to a "bridge bank"; (iii) transfer impaired or problem assets to an asset management vehicle; and (iv) sell the relevant institution to a commercial purchaser. In addition, the resolution authority is empowered to modify contractual arrangements, suspend enforcement or termination rights that might otherwise be triggered. The resolution regime is designed to be triggered prior to insolvency, and holders of Securities may not be able to anticipate the exercise of any resolution power by the resolution authority. Further, holders of Securities would have very limited rights to challenge the exercise of powers by the resolution authority, even where such powers have resulted in the write down of the Securities or conversion of the Securities to equity.

Governing law: The Securities are governed by English law provided that Swedish law will apply with regard to the registration of Euroclear Sweden Registered Instruments.

Status of the Securities:

The Securities are unsubordinated and unsecured obligations of the Issuer and will rank equally among themselves and with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

The taking of any action by a resolution authority under the Bank Recovery and Resolution Directive, in relation to the Issuer could materially affect the value of, or any repayments linked to, the Securities, and/or risk a conversion into equity of the Securities.

Description of restrictions on free transferability of the Securities: The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances that will result in compliance with any applicable laws and regulations. Subject to the above, the Securities will be freely transferable.

Where will the Securities be traded?

Application will be made by the Issuer (or on its behalf) for the Securities to be listed on the Official List and admitted to trading on the regulated market of the Nasdaq Stockholm AB with effect from at the earliest the Issue Date.

What are the key risks that are specific to the Securities?

Risk factors associated with the Securities: The Securities are subject to the following key risks:

The value and quoted price of your Securities (if any) at any time will reflect many factors and cannot be predicted. Depending on the performance of the Underlying Assets, you may lose some or all of your investment.

Risks relating to certain features of the Securities:

- The terms and conditions of your Securities provide that the Securities are subject to a cap. Therefore, your ability to participate in any change in the value of the Underlying Assets over the term of the Securities will be limited, no matter how much the price of an Underlying Asset may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Assets directly.
- The terms and conditions of your Securities provide that the return on the Securities depends on the "worst-of" performance of the basket of Underlying Assets. Therefore, you will be exposed to the performance of each Underlying Asset and, in particular, to the Underlying Asset which has the worst performance. This means that, irrespective of how the other Underlying Assets perform, if any Underlying Asset fails to meet a relevant threshold or barrier for the payment of interest or the calculation of any settlement amount, you could lose some of your initial investment.

Risks relating to the Underlying Assets:

- *The value of and return on your Securities depends on the performance of the Underlying Assets.* The return on your Securities depends on the performance of one or more Underlying Assets. The price of an Underlying Asset may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the price of an Underlying Asset, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.
- *Past performance of an Underlying Asset is not indicative of future performance.* You should not regard any information about the past performance of an Underlying Asset as indicative of the range of, or trends in, fluctuations in such Underlying Asset that may occur in the future. An Underlying Asset may perform differently

(or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.

- The performance of Shares is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as business risks faced by the issuers thereof. Any one or a combination of such factors could adversely affect the performance of the Underlying Assets which, in turn, would have a negative effect on the value of and return on your Securities.

för och avkastningen från Värdepapperen kommer att vara utsatt för Emittentens kreditrisk och för förändringar i marknadens syn på Emittentens kreditvärdighet.

- GSG och dess konsoliderade dotterföretag ("**Goldman Sachs**") är en ledande global investmentbank, värdepappers- och investeringsförvaltningskoncern och står inför en rad betydande risker som kan påverka Emittentens förmåga att uppfylla dess skyldigheter enligt Värdepapperen, inklusive marknads- och kreditrisker, likviditetsrisker, affärsaktivitets- och branschrisker, operativa risker och legala, regulatoriska och renommérisker.
- GSI är ett helägt dotterföretag till Goldman Sachs-koncernen och ett viktigt bankdotterföretag till Goldman Sachs-koncernen. Som ett resultat är det föremål för olika risker som är väsentliga och inneboende i dess verksamheter inklusive risker relaterade till ekonomiska och marknadsmässiga förhållanden, reglering, Brexit, marknadsvolatilitet, likviditet, kreditmarknader, koncentration av risk, kreditkvalitet, kundbasens sammansättning, derivattransaktioner, operationell infrastruktur, cybersäkerhet, riskhantering, affärsinitiativ, verksamhet i flera jurisdiktioner, intressekonflikter, konkurrens, förändringar i underliggande, personal, negativ publicitet, juridiskt ansvar, katastrofala händelser och klimatförändringar.
- GSI omfattas av direktivet om återhämtning och resolution av banker, som är avsett att möjliggöra en rad åtgärder tas av en resolutionsmyndighet i förhållande till kreditinstitut och värdepappersföretag som en resolutionsmyndighet bedömer att riskerar att falla och där sådana åtgärder är nödvändiga i allmänhetens intresse. De resolutionsbefogenheter som finns tillgängliga för resolutionsmyndigheten inkluderar befogenheter att (i) skriva ner det skyldiga beloppet, inklusive till noll, eller konvertera Värdepapperen till andra värdepapper, inklusive vanliga aktier i den relevanta institutionen (eller ett dotterföretag) - det så kallade "räddnings"-verktyget; (ii) överföra hela eller delar av verksamheten för det relevanta institution till ett "broinstitut"; (iii) överföra nedskrivna eller problemtillgångar till ett tillgångsförvaltningsverktyg; och (iv) sälja den berörda institutionen till en kommersiell köpare. Dessutom har resolutionsmyndigheten befogenhet att ändra avtalsarrangemang, avbryta verkställighets- eller uppsägningsrättigheter som annars skulle kunna utlösas. Resolutionsregimen är utformad för att utlösas före insolvens, och innehavare av Värdepapper kanske inte kan förutse att resolutionsmyndigheten utövar resolutionsmakten. Vidare skulle innehavare av Värdepapper ha mycket begränsade rättigheter att utmana utövandet av befogenheter av resolutionsmyndigheten, även om sådana befogenheter har resulterat i nedskrivning av Värdepapperen eller omvandling av Värdepapperen till eget kapital.

Vilka nyckelrisker är specifika för Värdepapperen?

Risikfaktorer förknippade med Värdepapperen: Värdepapperen är föremål för följande nyckelrisker:

Värdet och den kvoterade kursen för dina Värdepapper (om några) kommer vid var tid reflektera många faktorer och kan inte förutsägas. Beroende på utvecklingen för de Underliggande Tillgångarna kan du förlora delar av eller hela din investering.

Risker relaterade till vissa funktioner i Värdepapperen:

- Villkoren för dina Värdepapper föreskriver att Värdepapperen är föremål för ett tak. Följaktligen kan din förmåga att delta i förändringar i värdet på de Underliggande Tillgångarna under Värdepapperens löptid vara begränsad, oavsett hur mycket kursen för en Underliggande Tillgång kan stiga utöver taknivån under Värdepapperens livslängd. Följaktligen kan avkastningen på dina Värdepapper vara betydligt mindre än om du hade köpt de Underliggande Tillgångarna direkt.
- Villkoren för Dina Värdepapper föreskriver att avkastningen på Värdepapperen är beroende av "sämsta-av utvecklingen för korgen av Underliggande Tillgångar. Följaktligen, kommer du exponeras mot utvecklingen för varje Underliggande Tillgång och, i synnerhet, mot den Underliggande Tillgång som har sämst utveckling. Detta innebär att, oberoende av hur de andra Underliggande Tillgångarna utvecklas, om någon Underliggande Tillgång misslyckas med att uppnå en relevant tröskel eller barriär för räntebetalning eller beräkning av vilket avvecklingsbelopp som helst, kan du förlora delar av eller hela din initiala investering.

Risker relaterade till de Underliggande Tillgångarna:

- **Värdet på och avkastningen från dina Värdepapper beror på utvecklingen för de Underliggande Tillgångarna:** Avkastningen på dina Värdepapper är beroende av utvecklingen för en eller flera Underliggande Tillgångar. Kursen på en Underliggande Tillgång kan vara föremål för oförutsebara förändringar över tid. Denna nivå av förändring är känd som "volatilitet". Volatiliteten för en Underliggande Tillgång kan påverkas av nationella och internationella finansiella, politiska, militära eller ekonomiska händelser, inkluderat statliga åtgärder, eller genom åtgärder av medlemmar på relevanta marknader. Sådana händelser eller åtgärder kan negativt påverka värdet och avkastningen på Värdepapperen. Volatilitet innebär inte en riktning av kursen på en Underliggande Tillgång, även om det är troligt att en Underliggande Tillgång med högre volatilitet ökar eller minskar i värde mer ofta och/eller i högre omfattning än en som är mindre volatil.
- **Historisk utveckling för en Underliggande Tillgång indikerar inte framtida utveckling:** Du ska inte se någon information om historisk utveckling för en Underliggande Tillgång som en indikation på omfattningen av, eller trender för, fluktuationer i sådan Underliggande Tillgång som kan inträffa i framtiden. En Underliggande Tillgång kan utvecklas annorlunda (eller lika) som historisk sett, och detta kan ha väsentligt negativ påverkan på värdet på och avkastningen från dina Värdepapper.
- Aktiernas utveckling är beroende av makroekonomiska faktorer, såsom ränta och prisnivåer på kapitalmarknaderna, valutaförändringar, politiska faktorer såväl som företagsspecifika faktorer som vinstposition, marknadsposition, riskläge, aktieägare struktur- och distributionspolicy samt affärsrisker som emittenterna står inför. Vilken som helst eller en kombination av sådana faktorer kan påverka utvecklingen för de Underliggande Tillgångarna som i sin tur skulle ha en negativ effekt på värdet på och avkastningen från dina Värdepapper.
