Targeted investor category	Public Offering in Sweden
Additional Selling Restrictions	Not Applicable
Additional Risk Factors	Product-specific risks The Certificates are not capital-protected and investors must be prepared to sustain a loss of their entire investment

in the Certificates.

No person should purchase the Certificates unless that person understands the mechanics of the Certificates and the extent of that person's exposure to potential loss. Each prospective purchaser of Certificates should consider carefully whether the Certificates are suitable for it in the light of such purchaser's circumstances and financial position. In this context, investors should consider the risks of an investment in the Certificates (risks relating to the Issuer as well as risks relating to the type of Certificates).

Prospective investors are advised that in considering whether or not to purchase the Certificates, among other things the following should be taken into account:

Each Certificate entitles its holder to receive on the Redemption Date the Final Redemption Amount or, in the case of the occurrence of an Automatic Early Redemption Event resulting in an automatic early redemption of all Certificates, the Automatic Early Redemption Amount on the relevant Automatic Early Redemption Date. Such Automatic Early Redemption Amount increases with the life of the Certificates.

If the Certificates are not automatically early redeemed, then the holder of a Certificate will receive at maturity the Final Redemption Amount which will be (i) at least SEK 10,000 plus SEK 10,000 multiplied with the higher of three times the Fixed Rate or the Basket Performance minus 1 in accordance with the formula contained in the Terms and Conditions of the Certificates if on the Final Valuation Date all Underlyings close at or above their respective Initial Prices, (ii) equal to SEK 10,000 if on the Final Valuation Date the Worst Performing Underlying closes below its Initial Price but at or above 60% of its Initial Price or (iii) SEK 10,000 multiplied with the Performance of the Worst Performing Underlying in all other cases, all as specified in the Terms and Conditions of the Certificates. In the latter case, the Final Redemption Amount will be below SEK 10,000 and, if the Worst Performing Underlying closes at zero on the Final Valuation Date, there will be no Final Redemption Amount payable at all. In such case, the investor would lose the total amount of the invested capital (including transaction costs).

Investors should note that the Initial Price of each Underlying shall be the official closing

price of each Underlying determined by the Issuer on the Strike Date, subject to postponement in accordance with § 7.

Investors should further note that the Fixed Rate shall be a percentage which will be fixed only on the Trade Date by the Issuer in its reasonable discretion on the basis of the volatility of the Underlyings and the market conditions prevailing on such date. The Trade Date might be postponed by the Issuer in its reasonable discretion. The Fixed Rate shall be at least 30%.

The Certificates do not bear any interest and the holders of Certificates are not entitled to receive any dividends paid on the Underlyings. The Terms and Conditions of the Certificates will only be adjusted for distributions and other corporate actions relating to the Underlyings in certain limited circumstances.

The Issuer as of the date of these Final Terms has not any material non-public information concerning the Companies, corporate events of the Companies including those described in § 7 of the Terms and Conditions of the Certificates are beyond the Issuer's ability to control and are difficult to predict.

A potential profit from an investment in the Certificates can therefore only be made in the case that the Certificates are automatically early redeemed or if on the Final Valuation Date all Underlyings close at or above their respective Initial Prices. As the prices of the Underlyings are volatile, a profit from an investment in the Certificates cannot be guaranteed. Investors should be aware that the fact that there is more than one Underlying significantly increases the risk that at maturity the Final Redemption Amount payable may not be more than SEK 10,000 or even less than SEK 10,000 or, in a worst case, zero.

The market value of the Certificates can be volatile. It will be affected by a number of factors independent of the creditworthiness of the Issuer and the value of the Underlyings, including, but not limited to, the volatility of the Underlyings, the dividend rate on the Underlyings, the Companies' financial results and prospects, market interest and yield rates and the time remaining to any redemption date or maturity. In addition, the value of the Underlyings depends on a number of inter-related factors, including economic, financial and political events as well as factors affecting capital markets generally and the

stock exchanges on which the Underlyings are traded. The price at which a Certificateholder will be able to sell Certificates prior to maturity may be at a discount, which, among other reasons, could be substantial from the Issue Price or the price paid for the purchase of the Certificates, if, at such time, the market price of the Underlyings are below, equal to or not sufficiently above the market price of the Underlyings at the date of these Final Terms. The historical market prices of the Underlyings should not be taken as an indication of the Underlyings' future performance during the lifetime of the Certificates.

Under certain limited circumstances as set forth in these Final Terms, the Certificates may be redeemed early, which may adversely affect the economics of the Certificates for the investor.

There can be no assurance as to how the Certificates will trade in the secondary market or whether such market will be liquid or illiquid. No assurance can be given that there will be a market for the Certificates. The investment in the Certificates does not result in any right to receive information on the Companies and/or the Underlyings, to exercise voting rights or to receive distributions on the Underlyings.

Risks relating to the Issuer

Investors are exposed to the default risk of the Issuer.

The value of the Certificates is not only subject to the performance of the Underlyings, but among others also to the creditworthiness of the Issuer, which may vary over the term of the Certificates.

The Certificates represent general contractual unsecured, unsubordinated obligations of the Issuer and are ranking pari passu with all other unsecured unsubordinated obligations of the Issuer, save for obligations preferred by operation of law.

For further information on risk factors, especially to risk factors relating to Commerzbank Aktiengesellschaft reference is made to the Base Prospectus, in particular the consideration set forth therein under "RISK FACTORS".

Additional Taxation Disclosure

Not Applicable

Additional further Information

Investors should note that the Initial Price of each Underlying shall be the official closing price of each Underlying determined by the Issuer on the Strike Date, subject to postponement in accordance with § 7.

Investors should further note that the Fixed Rate shall be determined by the Issuer at its own discretion on the Trade Date in consideration of the volatility of the Underlyings and the prevailing market conditions. The Trade Date might be postponed by the Issuer in its reasonable discretion.

The Fixed Rate shall be at least 30%.

The Certificates to be issued have not been and will not be rated.

**§ 7
(ADJUSTMENTS; POSTPONEMENT OF STRIKE DATE AND VALUATION DATE;
MARKET DISRUPTION)**

- (1) If in the opinion of the Calculation Agent (§ 10) an Adjustment Event or an Extraordinary Event (both as defined below) has occurred, the Issuer is entitled to make adjustments to the Terms and Conditions taking into consideration the provisions set forth hereinafter. If in the opinion of the Calculation Agent an Extraordinary Event has occurred, the Issuer is entitled, but not obligated, to (instead of an adjustment) terminate and redeem the Certificates prematurely at the Early Redemption Amount (§ 4 paragraph (3)) by giving notice in accordance with § 13.
- (2) In making adjustments to the Terms and Conditions, the Issuer is entitled, but not obligated, to take into consideration the adjustments made to options or futures contracts relating to the Underlying that are traded on the Related Exchange (as defined below). In the event that options or futures contracts relating to the Underlying are not traded on the Related Exchange, the Issuer is entitled, but not obligated, to take into consideration the manner in which adjustments would be made by the Related Exchange if such options or futures contracts were traded on the Related Exchange. If the Issuer makes adjustments without taking into consideration the manner in which adjustments are or would be made by the Related Exchange, the Issuer shall make the adjustments in its reasonable discretion (§ 315 of the German Civil Code).
- (3) Any of the before-mentioned adjustments may, among others, relate to the Initial Price and may result in the Underlying being replaced by other securities, a basket of securities and/or cash, and another stock exchange being determined as the Exchange. However, the Issuer is also entitled to make other adjustments taking into consideration the before-mentioned principles.
- (4) Adjustments take effect as from the date determined by the Issuer, provided that (in case the Issuer takes into consideration the manner in which adjustments are or would be made by the Related Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect on the Related Exchange if such options or futures contracts were traded on the Related Exchange. Adjustments as well as the effective date shall be notified by the Issuer in accordance with § 13.
- (5)
 - (a) If on the Strike Date the Reference Price of any of the Shares is not determined and published by the Exchange, or if on the Strike Date, in the opinion of the Calculation Agent, a Market Disruption Event with respect to any of the Shares occurs, then the next following Exchange Business Day on which the Reference Price of all Shares is again determined and published by the Exchange and on which there is no Market Disruption Event with respect to a Share will be deemed to be the Strike Date.
 - (b) If on a Valuation Date the Reference Price of any of the Shares is not determined and published by the Exchange, or if on a Valuation Date, in the opinion of the Calculation Agent, a Market Disruption Event with respect to any of the Shares occurs, then the next following Exchange Business Day on which the Reference Price of the respective Share is again determined and published by the Exchange and on which there is no Market Disruption Event with respect to the relevant Share will be deemed to be the relevant Valuation Date for such Share.

If according to the before-mentioned provisions a Valuation Date with respect to a Share is postponed until the seventh Payment Business Day prior to the directly following

Automatic Early Redemption Date or the Redemption Date, as the case may be, and if on such date the Reference Price of the respective Share is still not determined and published by the Exchange or if a Market Disruption Event occurs or is continuing on such date, such seventh Payment Business Day prior to the directly following Automatic Early Redemption Date or the Redemption Date, as the case may be, shall be deemed to be the relevant Valuation Date for the respective Share, and the Calculation Agent will, in its reasonable discretion (§ 315 of the German Civil Code) and in consideration of the prevailing market conditions, estimate the closing price of the Underlying on such date and make due notification in accordance with § 13.

(6) For the purposes of this § 7 the following definitions shall apply:

"Adjustment Event" means:

- (a) any of the following actions taken by the Company: capital increases through issuance of new shares against capital contribution and issuance of subscription rights to the shareholders, capital increases out of the Company's reserves, issuance of securities with option or conversion rights related to the Underlying, distributions of extraordinary dividends, stock splits or any other split, consolidation or alteration of category (as long as this does not constitute a merger);
- (b) a spin-off of a part of the Company in such a way that a new independent entity is formed, or that the spun-off part of the Company is absorbed by another entity;
- (c) the adjustment of options or futures contracts relating to the Underlying on the Related Exchange or the announcement of such adjustment; or
- (d) any other adjustment event being economically comparable to the before-mentioned events with regard to their effects.

"Extraordinary Event" means any of the following events:

- (a) a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Company as a consequence of a conversion or otherwise, as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer;
- (b) the termination of trading in, or early settlement of, options or futures contracts relating to the Underlying on the Related Exchange or the announcement of such termination or early settlement;
- (c) the becoming known of the intention of the Company or of the Exchange to terminate the listing of the Underlying on the Exchange due to a merger by absorption or by creation, a change of legal form into a company without shares or any other reason;
- (d) the termination of the listing of the Underlying at the Exchange or the announcement of the Exchange that the listing of the Underlying at the Exchange will terminate immediately or at a later date and that the Underlying will not be admitted, traded or listed at any other exchange, trading system or quotation system immediately following the termination of the listing;
- (e) the Issuer and/or its affiliates (§ 15 of the German Stock Corporation Act) are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any transactions or investments that the Issuer considers necessary to hedge its risks resulting from the assumption and performance of its obligations under the Certificates or (ii) to realize, regain or transfer the proceeds resulting from such transactions or investments;

- (f) a procedure is introduced or ongoing pursuant to which all shares or the substantial assets of the Company are or are liable to be nationalized or expropriated or otherwise transferred to public agencies, authorities or organizations;
- (g) the application for insolvency proceedings or for comparable proceedings with regard to the assets of the Company according to the applicable law of the Company; or
- (h) any other event being economically comparable to the before-mentioned events with regard to their effects.

"Market Disruption Event" means the occurrence or existence of any suspension of, or limitation imposed on, trading (by reason of movements in price exceeding the limits permitted by the Exchange or otherwise) in (a) the Underlying on the Exchange, or (b) any options contracts or futures contracts relating to the Underlying on the Related Exchange, provided that any such suspension or limitation is material in the reasonable discretion of the Issuer (§ 315 of the German Civil Code) for the evaluation of the Certificates and the fulfilment of its obligations under the Certificates. The occurrence of a Market Disruption Event shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

§ 8 (PRESCRIPTION)

The prescription period for claims against the Issuer for the payment of principal shall be ten (10) years from the due date for such payment.

§ 9 (STATUS)

The obligations under the Certificates constitute direct, unconditional and unsecured obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).
