SUMMARY

Credit Suisse International **Series NCSI 2007-1509 SKr 500,000,000 Zero Coupon Index-linked Notes due 2013 (the "Securities")**

This summary must be read as an introduction to this Prospectus and any decision to invest in the Securities should be based on a consideration of the Prospectus as a whole, including the documents incorporated by reference. No civil liability in respect of this summary will attach to the Issuer in any Member State of the European Economic Area in which the relevant provisions of the Prospectus Directive (Directive 2003/71/EC) have been implemented unless this summary, including any translation thereof, is misleading, inaccurate or inconsistent when read together with the other parts of this Prospectus. Description of the Issuer

Credit Suisse International (the "Issuer") is incorporated in England and Wales under the Companies Act 1985, with registered no. 2500199 as an unlimited liability company. Its registered office and principal place of business is at One Cabot Square, London E14 4QJ. The Issuer is an English bank and is authorised and regulated as an EU credit institution by the Financial Services Authority ("FSA") under the Financial Services and Markets Act 2000. The FSA has issued a scope of permission notice authorising the Issuer to carry out specified regulated investment activities.

The Issuer is an unlimited liability company and, as such, its shareholders have a joint, several and unlimited obligation to meet any insufficiency in the assets of the Issuer in the event of its liquidation. The joint, several and unlimited liability of the shareholders of the Issuer to meet any insufficiency in the assets of the Issuer will only apply upon liquidation of the Issuer. Therefore, prior to any liquidation of the Issuer, holders of the Securities may only have recourse to the assets of the Issuer and not to those of its shareholders. Its shareholders are Credit Suisse Group, Credit Suisse and Credit Suisse (International) Holding AG.

The Issuer commenced business on 16 July 1990. Its principal business is banking, including the trading of derivative products linked to interest rates, equities, foreign exchange, commodities and credit. The primary objective of the Issuer is to provide comprehensive treasury and risk management derivative product services worldwide. The Issuer has established a significant presence in global derivative markets through offering a full range of derivative products and continues to develop new products in response to the needs of its customers and changes in underlying markets. Credit Suisse is a leading global investment bank, serving institutional, corporate, government and individual clients.

Description of the Securities

The Securities are Swedish Kronor denominated, principal-protected zero coupon equity index-linked notes issued by the Issuer on 1 November 2007 and due to mature in January 2013. The principal amount of each Security is SKr 50,000 and the total principal amount of the Securities is SKr 500,000,000. The issue price is

102 per cent. of the principal amount. The return which will be paid to investors at maturity, in addition to the principal amount, is linked to the performance of two baskets of indices:

- (i) an equally weighted basket ("**Basket 1**") comprised of five indices: the TOPIX Index, the MSCI Singapore Free Index, the MSCI Taiwan Index, the Swiss Market Index and the Dow Jones EuroSTOXX 50 Index; and
- (ii) a basket ("**Basket 2**") comprised of one index: the HS Market Neutral Index (calculated in euros).

Each index an "**Index**" and together the "**Indices**".

The Securities may only be redeemed before the maturity date for reasons of default by the Issuer, the imposition of UK withholding tax on payments under the Securities or the illegality of the Issuer's payment obligations or its hedging arrangements.

Application will be made to the Irish Stock Exchange for the Securities to be admitted to the official list and admitted to trading on its regulated market. Application may subsequently be made for the Securities to be listed on other stock exchanges.

Return at Maturity

When the Securities mature in 2013, investors will receive (i) 100 per cent. of the principal amount and (ii) a return calculated as (a) the principal amount multiplied by the greater of zero and "**Index Return 1**" plus (b) the principal amount multiplied by the greater of zero and "**Index Return 2**", as explained below.

"**Index Return 1**" means the Average Performance 1 multiplied by 60 per cent. (such percentage is indicative and will be set based on market conditions on the Initial Setting Date, subject to a minimum of 40 per cent.).

"**Index Return 2**" means the Average Performance 2 multiplied by 60 per cent. (such percentage is indicative and will be set based on market conditions on the Initial Setting Date, subject to a minimum of 40 per cent.).

If the Average Performance 1 and Average Performance 2 values are both zero or negative then, at maturity, the investor will only receive 100 per cent. of the principal amount.

Average Performance 1

- (i) For each Index in Basket 1 the "**Index Performance**" is calculated as the percentage change between the Index Level for that Index on the Initial Setting Date and the Final Index Level for that Index. The "**Final Index Level**" is calculated as the average of the Index Levels for that Index on each of the Observation Dates and the "**Index Level**" of an Index is the prevailing index level;
- (ii) The Index Performance for each Index in Basket 1 is then multiplied by the Index Weighting for the relevant Index. The resultant figures are added together to give "**Average Performance 1**".

Average Performance 2

- (i) For the Index in Basket 2 the "**Index Performance**" is calculated as the percentage change between the Index Level for that Index on the Initial Setting Date and the Final Index Level for that Index. The "**Final Index Level**" is calculated as the average of the Index Levels for that Index on each of the Observation Dates and the "**Index Level**" of an Index is the prevailing index level;

- (ii) The Index Performance for the Index in Basket 2 is then multiplied by the Index Weighting for that Index and the result is “**Average Performance 2**”.

“**Index Weighting**” means, in respect of each Index in Basket 1, 20 per cent. and, in respect of the Index in Basket 2, 100 per cent.

“**Initial Setting Date**” means 12 December 2007.

“**Observation Date**” means the 12th calendar day of each month beginning on 12 December 2011 and ending on 12 December 2012 (13 Observation Dates in total).

Please note that the full terms and conditions included in the Securities Note contain provisions dealing with non-business days, disruptions and adjustments that may affect each Index and the Index levels and the timing and calculations of payments under the Securities.

The terms and conditions of the Securities are set out in full in the Securities Note relating to the Securities which is available at the offices of the Paying Agents.

The Offer

Garantum Fondkommission Aktiefbolag (“**Garantum**”) has agreed to purchase from the Issuer, and the Issuer has agreed to sell to Garantum, some or all of the Securities. Garantum has informed the Issuer that it contemplates offering, in its own name, Securities to the public in Sweden. Neither the Issuer nor the Dealer has any responsibility for such offers.

The offer period will be from 1 November 2007 to 5 December 2007. The offer period may be discontinued at any time. The maximum nominal amount of the offer is SKr 500,000,000. The price of the offer will be 102 per cent. of the principal amount.

Purchases can be made by submitting a purchase commitment form provided by Garantum, or otherwise as instructed by Garantum. Payment for the Securities shall be made to Garantum on or around 14 December 2007 for delivery of Securities to purchasers’ accounts on or around 21 December 2007. Garantum will not charge a commission payable by the purchaser. The Issuer may pay a commission to Garantum.

Garantum reserves the right to cancel the offer if the nominal amount of purchases are less than SKr 50,000,000, or if Garantum assesses, at its absolute discretion, that any factors render it illegal, impossible or impractical, in whole or part, to complete the offer or that there has been a material adverse change in the market conditions. In case of cancellation, Garantum will repay the purchase price and commission paid by any purchaser without interest.

Risk Factors

The terms of the Securities provide that the amount paid to the investor at maturity will be dependent upon the performance of the Indices. The amount payable at maturity (but not on any early redemption) is subject to a minimum of 100 per cent. of the principal amount, which is less than the issue price.

An investment in the Securities is not the same as an investment in any or all of the shares comprised in the Indices or an investment which is directly linked to the Indices. In particular, investors will not benefit from any dividends.

The levels of the Indices may go down as well as up throughout the term of the Securities. Furthermore, the levels of the Indices at any specific date may not reflect their prior or future performance. There can be no assurance as to the future performance of the Indices. Accordingly, before investing in the Securities, prospective investors should carefully consider whether an investment based on the performance of the Indices is suitable for them.

The Securities involve complex risks, which include, among other things, share price risks, credit risks, foreign exchange risks, interest rate risks and/or political risks.

It is not possible to predict the price at which Securities will trade in the market or whether such market will be liquid or illiquid. The Issuer may, but is not obliged to, purchase Securities at any time at any price in the open market or by tender or private treaty. Any Securities so purchased may be held or resold or surrendered for cancellation. The market for Securities may be limited and neither the Issuer or Garantum intends to provide a market for the Securities. The only way in which a holder can realise value from a Security prior to maturity is to sell it at its then market price in the market, which may be less than the amount initially invested.

Fluctuations in the prices of the shares comprised in the Indices and in the levels of the Indices may affect the value of the Securities.

The rules of the HS Market Neutral Index may be amended by Credit Suisse (the “**Index Creator**”). No assurance can be given that any such amendment would not be prejudicial to Securityholders.

The end-of-day value of the HS Market Neutral Index is published subject to the provisions in the rules of that Index. None of the Issuer, Credit Suisse or the relevant publisher is obliged to publish any information regarding that Index other than as stipulated in the rules of that Index. The Index Creator may enter into licensing arrangements with investors pursuant to which the investor in question can obtain further and more detailed information, such as the constituent stocks, against payment of licensing fees and typically subject to a time lag. It is expected that only large professional investors will enter into such licensing arrangements.

The Issuer and the Index Creator are affiliated entities and may each face a conflict of interest between their obligations as Issuer and Index Creator, respectively, and their interests in another capacity.

Accordingly, an investment in the Securities is only suitable for investors who (either alone or in conjunction with an appropriate financial adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom.

The levels and basis of taxation on the Securities and any reliefs from such taxation can change at any time. The value of any tax reliefs will depend on an investor’s individual circumstances. The tax and regulatory characterisation of the Securities may change over the life of the Securities. This could have adverse consequences for investors.

Before making any investment decision with respect to the Securities, any prospective investors should consult their own financial, tax or other advisers as they consider necessary and carefully review and consider such an investment decision in the light of the foregoing and their personal circumstances.

$$\sum_{i=6}^6 \frac{(\text{Index}_i \text{ Final} - \text{Index}_i \text{ Initial})}{\text{Index}_i \text{ Initial}} \times \text{Weight}_i$$

where:

“**Index_i Initial**” means the Index Level of Index_i on the Initial Setting Date; and

“**Index_i Final**” means the arithmetic average (rounded up to two places of decimals) of the Index Levels of Index_i on each of the Observation Dates;

“**i**”, “**Index_(i)**” and “**Weight_(i)**” mean, respectively:

“ i ”	“ Index_(i) ”	“ Weight_(i) ”
1	TOPIX Index (Bloomberg Code TPX <Index>)	20%
2	MSCI Singapore Free Index (Bloomberg Code SGY <Index>)	20%
3	MSCI Taiwan Index (Bloomberg Code TWY <Index>)	20%
4	Swiss Market Index (Bloomberg Code SMI <Index>)	20%
5	Dow Jones EuroSTOXX 50 Index (Bloomberg Code SX5E <Index>)	20%
6	HS Market Neutral Index (calculated in euros) (Bloomberg Code HSGMNE <Index>)	100%

4.2.2

“**Index**” means Index₍₁₎, Index₍₂₎, Index₍₃₎, Index₍₄₎, Index₍₅₎ and/or Index₍₆₎ as the context so requires;

“**Index Level**” means, in respect of an Index, on any relevant Scheduled Trading Day, the level of the relevant Index determined by the Issuer as at the relevant Valuation Time on that Scheduled Trading Day, as calculated and published by the relevant Sponsor, subject to the provisions of this Schedule;

“**Initial Setting Date**” means, in respect of an Index, subject as provided in paragraph 2 of this Schedule, 12 December 2007 (or, if that day is not a Scheduled Trading Day in respect of that Index, the next following Scheduled Trading Day for that Index);

“**Market Disruption Event**” means, in respect of an Index, the occurrence or existence during the one hour period that ends at the relevant Valuation Time on any Scheduled Trading Day of a Trading Disruption or an Exchange Disruption which in either case the Issuer determines is material or an Early Closure provided that (other than where the Market Disruption Event relates to futures or options contracts relating to the relevant Index) the securities comprised in the relevant Index in respect of which an Early Closure, Exchange Disruption and/or Trading Disruption occurs or exists amount, in the determination of the Issuer, in aggregate to 20 per cent. or more of the level of the relevant Index. For the purpose of determining whether a Market Disruption Event exists at any time in respect of a

4.2.3

security included in the relevant Index at any time, then the relevant percentage contribution of that security to the level of the relevant Index shall be based on a comparison of (x) the portion of the level of the relevant Index attributable to that security and (y) the overall level of the relevant Index, in each case immediately before the occurrence of such Market Disruption Event, as determined by the Issuer;

“Maturity Date” means the later of 7 January 2013 and the tenth Currency Business Day after the last Final Observation Date;

4.1.11

“Multi-Exchange Index” means an Index in respect of which there is more than one Exchange;

“Notional Amount” means SKr 50,000;

“Observation Date” means, in respect of an Index, subject as provided in paragraph 2 of this Schedule, the 12th calendar day of each month from and including 12 December 2011 (the **“First Observation Date”**) to and including 12 December 2012 (the **“Final Observation Date”**) (13 Observation Dates in total) or, if any such day is not a Scheduled Trading Day for that Index, the next following Scheduled Trading Day for that Index;

“Related Exchange(s)” means, in respect of an Index, each exchange or quotation system where trading has a material effect (as determined by the Issuer) on the overall market for futures or options contracts relating to that Index;

“Required Exchange” means, in respect of Index₍₆₎, the London Stock Exchange, the New York Stock Exchange and the Tokyo Stock Exchange;

“Scheduled Closing Time” means, in respect of an Exchange or Related Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside the regular trading session hours;

“Scheduled Trading Day” means, in respect of an Index, (i) in respect of a Multi-Exchange Index, any day on which the Sponsor is scheduled to publish the level of the Index and each Required Exchange and each Related Exchange is scheduled to be open for trading for its regular trading session, or (ii) in respect of an Index which is not a Multi-Exchange Index, any day on which the Exchange and each Related Exchange are scheduled to be open for trading for their respective regular trading sessions;

“Settlement Currency” means Swedish Kronor;

“Sponsor” means, in respect of an Index, the corporation or other entity as determined by the Issuer that (i) is responsible for setting and reviewing the rules and procedures and the methods of calculation and adjustments if any, related to the relevant Index, and (ii) announces (directly or through an agent) the level of that Index on a regular basis during each Scheduled Trading Day failing whom, in any such case, such person acceptable to the Issuer who calculates and announces such Index or any agent or person acting on behalf of such person;

“Trading Disruption” means, in respect of an Index, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (i) on any relevant Exchange(s) relating to any security comprised in the relevant Index or (ii) in futures or options contracts relating to that Index on any relevant Related Exchange; and

“Valuation Time” means, in respect of an Index, (i), for the purposes of determining whether a Market Disruption Event has occurred, (a) in respect of any component security, the Scheduled Closing Time on the Exchange in respect of such security, and (b) in respect of any options or futures contracts on such Indices, the close of trading on the Related Exchange, and (ii) in all other circumstances, the time with reference to which the Sponsor calculates the closing level of the relevant Index.

2 Disrupted Days

4.2.3

If the Issuer determines, in respect of an Index, that the Initial Setting Date or any Observation Date (other than the Final Observation Date) is a Disrupted Day in respect of that Index, then the Initial Setting Date or that Observation Date, as the case may be for that Index shall be the first succeeding Scheduled Trading Day that is not such a Disrupted Day unless each of the eight Scheduled Trading Days immediately following the original date that, but for the determination by the Issuer of the occurrence of a Disrupted Day, would have been the Initial Setting Date or such Observation Date, as the case may be, is such a Disrupted Day. In that case, (i) that eighth Scheduled Trading Day shall be deemed to be the Initial Setting Date or that Observation Date, as the case may be, for that Index, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Issuer shall determine the relevant Index Level as of the relevant Valuation Time on that eighth Scheduled Trading Day in accordance with (subject to the provisions of paragraph 3 of this Schedule) the formula for and method of calculating the relevant Index last in effect prior to the occurrence of the first such Disrupted Day using the Exchange-traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in that Index (or, if the Issuer determines that an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value of the relevant security as of the Valuation Time on that eighth Scheduled Trading Day).

If the Issuer determines, in respect of an Index, that the Final Observation Date in respect of that Index is a Disrupted Day, then the Final Observation Date for that Index shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day unless each of the three Scheduled Trading Days immediately following the original date that, but for the determination by the Issuer of the occurrence of a Disrupted Day, would have been the Final Observation Date in respect of that Index, is a Disrupted Day. In that case, the Final Observation Date in respect of that Index shall be the immediately preceding Scheduled Trading Day which was not such a Disrupted Day.

3 Modification or Discontinuation of the Indices

- (a) If an Index is (i) not calculated and announced by its Sponsor but is calculated and announced by a successor sponsor acceptable to the Issuer or (ii) replaced by a successor index using, in the determination of the Issuer, the same or a substantially similar formula for and method of calculation as used in the calculation of the relevant Index, then in each case that index (the “**Successor Index**”) shall be deemed to be the relevant Index.
- (b) If, in the determination of the Issuer, (i) on or before the Initial Setting Date or any Observation Date, as the case may be, in respect of an Index the Sponsor announces that it will make a material change in the formula for or the method of calculating the relevant Index or in any other way materially modifies the relevant Index (other than a modification prescribed in that formula or method to maintain the relevant Index in the event of changes in constituent securities and capitalisation and other routine events) (an “**Index Modification**”) or permanently cancels that Index and no Successor Index exists (an “**Index Cancellation**”) or (ii) on the Initial Setting Date or any Observation Date, as the case may be, in respect of an Index the Sponsor fails to calculate and announce the relevant Index Level (an “**Index Disruption**” and together with an Index Modification and an Index Cancellation, each an “**Index Adjustment Event**”), then the Issuer shall calculate the relevant Index Level, using, in lieu of a published level for such Index, the level for such Index as at the Valuation Time on the Initial Setting Date or the relevant Observation Date, as the case may be, as determined by the Issuer in accordance with the formula for and method of calculating such Index last in effect before that change or failure, but using only those securities that comprised such Index immediately before that Index Adjustment Event (other than those securities that have since ceased to be listed on the relevant Exchange) and shall notify the Fiscal Agent, the Registrar and the Securityholders thereof (in accordance with General Condition 13) provided that if the Issuer determines that the modification is solely of a mathematical nature it may in its discretion alternatively use the published level of the

4.2.4

relevant Index and make such consequential changes to the method of calculating the Final Redemption Amount, as it may determine to be appropriate to preserve the economic equivalent effect of the Securities. None of the Issuer or the Agents shall have any responsibility in respect of any error or omission or subsequent corrections made in the calculation or publication of an Index, whether caused by negligence or otherwise.

4 Calculations and Determinations

The Issuer shall have no responsibility for good faith errors or omissions in its calculations and determinations, whether caused by negligence or otherwise. The calculations and determinations of the Issuer shall be made in accordance with these provisions having regard in each case to the criteria stipulated herein and (where relevant) on the basis of information provided to or obtained by employees or officers of the Issuer responsible for making the relevant calculation or determination and shall, in the absence of manifest error, be final, conclusive and binding on Securityholders.

Nothing in the Conditions shall however exclude or restrict any duty or liability arising under the regulatory framework applicable to any person authorised by the Financial Services Authority.

HS MARKET NEUTRAL INDEX 'POWERED BY HOLT™'

4.2.2

General

The HS Market Neutral Index 'Powered by HOLT™' is described in the "Rules for the HS Market Neutral Index Powered by HOLT™" dated 7 September 2007 published by Standard & Poor's (the "**Index Calculation Agent**"), as amended from time to time (the "**Index Rules**"). The Index is calculated and maintained by the Index Calculation Agent based on a methodology developed by Credit Suisse Securities (Europe) Limited (the "**Index Creator**").

Index Rules

The rules for construction, calculation and re-balancing of the Index are set out in the Index Rules. This summary description is qualified in all respects by and is subject to the Index Rules.

Index composition

HOLT, a division of Credit Suisse, maintains a database that currently contains a global universe of approximately 18,000 stocks.

From the stocks in the HOLT database:

- 275 stocks with the highest market capitalisation issued by companies which are listed on a regulated stock exchange in United States or Canada;
- 300 stocks with the highest liquidity out of the 330 stocks with the highest market capitalisation issued by companies which are listed on a regulated stock exchange in United Kingdom, France, Germany, Italy, Netherlands or Spain; and
- 175 stocks with the highest market capitalisation issued by companies which are listed on a regulated stock exchange in Japan;

constitute the universe of eligible companies.

The Index consists of two equally weighted sub-indices, the Long Total Return Index (the "**Long Index**") and the Short Total Return Index (the "**Short Index**").

The eligible universe is determined each time the selection list is created. In order to qualify for inclusion in the Long Index, the stock should meet some or all of the following overall criteria according to the HOLT scoring model: it must (a) be undervalued, (b) have good stock market momentum and (c) display strong corporate performance. In order to qualify for inclusion in the Short Index, the stock should meet some or all of the following overall criteria according to the HOLT scoring model: it must (a) be overvalued, (b) have poor stock market momentum and (c) display poor corporate performance.

The stocks that most closely match these criteria using the HOLT scoring model are chosen for the Long Index and the Short Index as outlined in "Selection" below.

The Index is rebalanced quarterly.

Selection

The Index constituents are selected according to the following procedure:

The companies within the eligible universe are divided into the following regions based on where the respective company is listed: (i) United States, (ii) Canada, (iii) United Kingdom, (iv) the Eurozone (comprising France, Germany, Italy, Netherlands and Spain), and (v) Japan.

The companies within the eligible universe are also divided into the following sectors (defined as per the Global Industry Classification System (GICS)) based on the operations of the respective company: (i) Energy; (ii) Materials; (iii) Industrials; (iv) Consumer Discretionary; (v) Consumer Staples; (vi) Health Care; (vii) Financials; (viii) Information Technology; (ix) Telecommunication Services; and (x) Utilities.

The companies are then divided up into region and sector buckets. Each bucket will contain all companies from that particular region and sector, for example one bucket will contain all Energy companies from the United States. The total possible number of buckets is 50 (because there are five regions and ten sectors).

The companies in region and sector buckets containing 3 or fewer companies will not qualify for inclusion in the Index and will be removed from the selection process.

Within each of the remaining region and sector buckets, the companies will be ranked according to their HOLT score. For further details with respect to HOLT, please refer to http://www.csfb.com/institutional/csfb_holt/index.shtml (provided that such website does not form part of this Base Prospectus).

Each company is then assigned a proportion rank within its region and sector bucket which is calculated as $(r-0.5)/w$ where "r" is the company's rank (1 being the highest) and "w" is the total number of companies within that region and sector bucket.

The region and sector buckets are then combined into ten sector buckets, such that each of the new buckets will contain all companies from that particular sector (for example one bucket will contain all Energy companies, irrespective of region).

Within each of the ten sector buckets, the companies will be ranked according to their HOLT score. Each company is then assigned a proportion rank within its sector bucket which is calculated as $(r-0.5)/w$ where "r" is the company's rank (1 being the highest) and "w" is the total number of companies within that sector bucket.

Long Index

The stocks of those companies with a proportion rank within their sector bucket of less than or equal to 10% and with a proportion rank within their region and sector bucket of less than or equal to 34% will go into the Long Index.

Those stocks which have an average trading volume of less than US dollars 10 million per day over the last six month period will be excluded from the Long Index. This will be determined by or on behalf of the Index Creator.

Those companies whose stocks are not freely tradable (because the equity and/or foreign exchange market is not free and well developed) may be excluded at the discretion of the Index Creator.

If a stock in the Long Index is excluded, it will be replaced by the stock of the next highest-ranking company within the same sector bucket that is not already included in the Long Index, as long as its proportion rank within the region and sector bucket is less than or equal to 34% if that stock is not excluded pursuant to the above. If there is no stock that satisfies these criteria, the stock which is excluded will not be replaced in the Long Index.

Short Index

For each region and sector bucket, the stocks of the companies with the lowest rankings according to the HOLT score will be selected for inclusion in the Short Index, starting from the lowest, until as many stocks have been selected as there are in the Long Index for that specific region and sector bucket.

Those companies whose stocks are not freely tradable (because the equity and/or foreign exchange market is not free and well developed) may be excluded at the discretion of the Index Creator.

Those stocks which are hard to borrow in the market will be excluded from the Short Index. Stocks which are hard to borrow include stocks with availability below US dollars 30 million in the market or stocks which are highly sought after in the market by borrowers due to the expectation of an event based on public information that is likely to affect availability. This will be determined by or on behalf of the Index Creator.

If a stock in the Short Index is excluded it will be replaced by the stock of the next lowest-ranking company within the same region and sector bucket that is not already included in the Short Index, as long as its proportion rank within the region and sector bucket is greater than or equal to 66% if that stock is not excluded pursuant to the above. If there is no stock that satisfies these criteria, the stock which is excluded will not be replaced in the Short Index and the stock of the company with the lowest rank in the same region and sector bucket in the Long Index will be excluded from the Long Index.

General

If two stocks are equally ranked, the stock with the higher market capitalisation will be deemed to have the higher rank unless both stocks have a proportion rank in their region and sector bucket greater than 50%, in which case the stock with the lower market capitalisation will be deemed to have the higher rank.

When a stock has several listings or different share classes outstanding, the Index Creator has discretion as to which stock and/or listing is considered, bearing in mind among other factors the liquidity of the stocks. Normally, the primary listing will be considered. In exceptional cases an ADR or GDR can be included, especially if the ADR or GDR is more liquid than the related stocks. For the purpose of this description, the term “stocks” shall be interpreted to include such securities.

The procedure described above is carried out on every Monday to create a selection list. The selection list indicates possible changes in the composition of the Index at the next quarterly review.

Number of stocks

Due to the way that the stocks in the Long Index and the Short Index are selected, the number of stocks in the Long Index and the Short Index can vary from period to period, but will be approximately 75. The number of stocks in the Short Index will always equal the number of stocks in the Long Index.

Weighting

The Index constituent stocks are equally weighted initially and on each quarterly rebalancing effective date. On each quarterly rebalancing effective date the weightings of the Index constituent stocks are each reset to an equal value of 1/nth of the Index. The weighting of each stock is expressed in the number of shares included in the Index. The number of shares required according to the weighting is generally rounded to 13 decimal places. The number of shares in the Long Index and the Short Index for each company is calculated on the base date (7 December 1995) and is recalculated on each quarterly rebalancing effective date according to the formula set out in the Index Rules.

Calculation of the Index

How the value of the Index is determined

The value of the Index is calculated by taking the performance of the Long Index less the performance of the Short Index and the cost of borrowing the constituents of the Short Index in the market as determined by the Index Creator.

The value of the Index is calculated in U.S. dollars, Euro and Swiss francs using the official closing prices from the relevant exchanges of all the stocks included in the Index converted into the relevant currency (as applicable) using spot rates as outlined in the Index Rules.

Dividend treatment

For purposes of calculating the Long Index, net dividends are accounted for by reinvesting them on a daily basis.

For purposes of calculating the Short Index, gross dividends are accounted for by reinvesting them on a daily basis.

For both the Long Index and the Short Index the ex-dividend date is used to determine the total daily dividends for each day.

Closing Index Value

The Index is calculated on an end-of-day basis by the Index Calculation Agent based on each constituent's last available closing price on its primary exchange. For calculation purposes the Index closes at 6.30 p.m. New York time.

As long as at least one constituent stock is being traded on a day, an Index value is calculated for that day.

Publication of the Index

The closing value of the Index is published by the Index Calculation Agent by 6.30 p.m. New York time.

The Index Calculation Agent may delay the publication of the Index values, or suspend or discontinue the publication of the Index values, if it believes that there exist circumstances preventing the correct calculation of the Index.

Information as to the historic and current performance and volatility of the Index may be found at the website mentioned in the section entitled "Selection" above (provided that such website does not form part of this Base Prospectus).

Rules for the Periodic Review of the Index

Revisions to the Index constituent stocks are made in March, June, September and December of each year.

Operational Adjustment of the Index

In addition to the periodic reviews, the Index is continually reviewed for changes to the Index composition necessitated by extraordinary corporate actions.

The Index is the exclusive property of and currently sponsored by the Index Creator which has contracted with the Index Calculation Agent to maintain and calculate the Index. The Certificates are not in any way sponsored, endorsed or promoted by the Index Creator or the Index Calculation Agent. Neither the Index Creator nor the Index Calculation Agent has any obligation to take the needs of any person into consideration in composing, determining or calculating the Index (or causing the Index to be calculated). The Securities (which expression shall include any Securities issued pursuant to General Condition 12) are issued pursuant to an Agency Agreement (as amended or supplemented as at the Issue Date, the “**Agency Agreement**”) dated 10 August 2006 between the Issuer, JPMorgan Chase Bank, N.A. as fiscal agent and the other agents named in it. Expressions used herein and not defined shall have the meaning given to them in the relevant Issue Specific Terms. In the event of any inconsistency between the General Conditions and the Issue Specific Terms, the Issue Specific Terms will prevail.

1. Form, Denomination and Title

The Securities are issued in bearer form (“**Bearer Securities**”, which expression includes Securities that are specified to be Exchangeable Bearer Securities) or in registered form (“**Registered Securities**”) in each case in the Specified Denomination(s).

Title to the Bearer Securities shall pass by delivery. Title to the Registered Securities shall pass by registration in the register that the Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement (the “**Register**”). Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Security shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on it (or on the Certificate representing it) or its theft or loss (or that of the related Certificate) and no person shall be liable for so treating the holder.

“**Securityholder**” means the bearer of any Bearer Security or the person in whose name a Registered Security is registered (as the case may be), “**holder**” (in relation to a Security) means the bearer of any Bearer Security or the person in whose name a Registered Security is registered (as the case may be).

(b) **Early Redemption:**

- (i) *Zero Coupon Securities:* Not applicable.
- (ii) *Other Securities:*

The Early Redemption Amount payable in respect of any Security upon redemption of such Security pursuant to General Condition 5(c) or upon it becoming due and payable as provided in General Condition 9, shall, unless otherwise specified in the relevant Issue Specific Terms, be the amount determined by the Calculation Agent that, in the case of redemption pursuant to General Condition 5(c) on the fifth Business Day in London prior to the due date for redemption or, in the case of redemption pursuant to General Condition 9, on the due date for redemption of such Security has the effect of preserving for the holder of such Security the economic equivalent of the obligation of the Issuer to make payments of principal and interest in respect of such Security that would, but for such redemption, have fallen due after such date.

(c) **Redemption for Taxation or Illegality Reasons:**

If:

- (i) the Issuer determines that, upon payment in respect of the Securities, as a result of any amendment to, or change in, the laws of the United Kingdom or as a result of a change in the official interpretation or application thereof that becomes effective on or after the Issue Date, the Issuer would be required, for reasons outside its control, and after taking such reasonable measures to avoid such requirement (such measures not involving any material additional payments by, or expense for, the Issuer), to make any withholding or deduction referred to in General Condition 7; or
- (ii) the Issuer shall have determined in good faith that the performance of any of its obligations under the Securities or that any arrangements made to hedge its position under the Securities shall have or will become unlawful, illegal, or otherwise prohibited in whole or in part as a result of compliance with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power, or any change in the interpretation thereof;

- (i) to or to a third party on behalf of a holder who is subject to such taxes or duties by reason of his being connected with the United Kingdom or any authority therein or thereof having power to tax otherwise than by reason only of the holding of any Security or the receipt of payment in respect thereof;
- (ii) to or to a third party on behalf of a person who is able to avoid such withholding or deduction by making a declaration of non-residence or similar claim for exemption to the relevant tax authorities (which declaration or claim does not require disclosure of the identity of the relevant holders);
- (iii) presented for payment in the United Kingdom;
- (iv) presented for payment more than 30 days after the Relevant Date (as defined below), except to the extent that the holder thereof would have been entitled to such additional amount on presenting the same for payment at the close of such 30-day period;

- (vi) (except in the case of Registered Securities) presented for payment by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Security to another Paying Agent in a Member State of the EU.

For the purpose of the Conditions, "**Relevant Date**" means, in respect of any payment, (i) the date on which such payment first becomes due and payable or (ii) if the full amount of moneys payable has not been received by the Fiscal Agent on or prior to such date, the date on which, the full amount of such moneys having been so received, notice to that effect is given to the Securityholders in accordance with General Condition 13.

Any reference in the General Conditions or the Issue Specific Terms to principal or interest shall be deemed to refer also to any additional amounts which may be payable under this General Condition.

then the holder of any Security may by notice in writing given to the Fiscal Agent at its specified office, declare such Security immediately due and payable, whereupon such Security shall become redeemable at its Early Redemption Amount unless prior to the time when the Fiscal Agent receives such notice all Events of Default have been cured.

10. Meeting of Securityholders and Modifications

- (a) **Meetings of Securityholders:** The Agency Agreement contains provisions for convening meetings of Securityholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of any of these Conditions. The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority in nominal amount of the Securities for the time being outstanding, or at any adjourned meeting two or more persons being or representing Securityholders whatever the nominal amount of the Securities held or represented, unless the business of such meeting includes consideration of proposals, inter alia, (i) to amend the dates of maturity or redemption of the Securities, (ii) to reduce or cancel the nominal amount of, or any other amount payable or deliverable on redemption of, the Securities, (iii) to vary any method of, or basis for, calculating the Final Redemption Amount, the Early Redemption Amount, the Optional Redemption Amount or any other amount payable on the Securities, (iv) to vary the currency or currencies of payment or denomination of the Securities, (v) to take any steps that as specified hereon may only be taken following approval by an Extraordinary Resolution to which the special quorum provisions apply or (vi) to modify the provisions concerning the quorum required at any meeting of Securityholders or the majority required to pass the Extraordinary Resolution, in which

Any Extraordinary Resolution duly passed shall be binding on Securityholders (whether or not they were present at the meeting at which such resolution was passed).

- (b) **Modification of Agency Agreement:** The Issuer shall only permit any modification of, or any waiver or authorisation of any breach or proposed breach of or any failure to comply with, the Agency Agreement, if to do so could not reasonably be expected to be prejudicial to the interests of the Securityholders.

11. Replacement of Securities and Certificates

If a Security or Certificate is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Fiscal Agent (in the case of Bearer Securities) and of the Registrar (in the case of Certificates) or such other Paying Agent or Transfer Agent, as the case may be, as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Securityholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, inter alia, that if the allegedly lost, stolen or destroyed Security or Certificate is subsequently presented for payment there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Securities or Certificates) and otherwise as the Issuer may require. Mutilated or defaced Securities or Certificates must be surrendered before replacements will be issued.

12. Further Issues

The Issuer may from time to time without the consent of the Securityholders create and issue further Securities having the same terms and conditions as the Securities (so that, for the avoidance of doubt, references in the conditions of such Securities to "Issue Date" shall be to the first issue date of the Securities) and so that the same shall be consolidated and form a single series with such Securities, and references in these Conditions to "Securities" shall be construed accordingly.

If any such publication is not practicable, notice shall be validly given if published in another leading daily English language newspaper with general circulation in Europe. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the date of the first publication as provided above.

14. Calculations and Determinations

Neither the Issuer nor the Calculation Agent shall have any responsibility for good faith errors or omissions in their calculations and determinations as provided in the Conditions, whether caused by negligence or otherwise. The calculations and determinations of the Issuer or Calculation Agent shall be made in accordance with the Conditions having regard in each case to the criteria stipulated herein and (where relevant) on the basis of information provided to or obtained by employees or officers of the Issuer or Calculation Agent responsible for making the relevant calculation or determination and shall, in the absence of manifest error, be final, conclusive and binding on Securityholders. This condition shall not exclude or

restrict any duty or liability arising under the regulatory framework applicable to any person authorised by the Financial Services Authority.

15. Third Parties
