9. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in

connection with each other even when no withholding is required. EXAMPLES

THE EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY.

For the purposes of each Example:

- (i) the Nominal Amount per Certificate is SEK 10,000, the Aggregate Nominal Amount is up to SEK 100,000,000 and the Issue Price is 100 per cent. (100%) of the Aggregate Nominal Amount; and
- (ii) in respect of each Underlying Asset, the Autocall Level is 100 per cent. (100%) of the Asset Initial Price of such Underlying Asset, the Trigger Level is 100 per cent. (100%) of the Asset Initial Price of such Underlying Asset and the Barrier Level is 75 per cent. (75%) of the Asset Initial Price of such Underlying Asset.

For the purposes of these Examples only, (i) the Autocall Event Amount for the first Autocall Observation Date (being the Valuation Date scheduled to fall on February 22, 2019) is deemed to be SEK 11,000, and (ii) the Trigger Percentage is deemed to be 150.00 per cent. (150.00%). The actual Autocall Event Amount for the first Autocall Observation Date, and the Trigger Percentage will each be determined by the Calculation Agent on or around February 22, 2018 and, in respect of (i) the Autocall Event Amount for the first Autocall Observation Date may be a lesser or greater amount than SEK 11,000 (but shall not be less than SEK 10,700), and (ii) the Trigger Percentage may be a lesser or greater percentage than 150.00 per cent. (150.00%) (but shall not be less than 135 per cent. (135%)). Therefore, as the actual Autocall Event Amount for the first Autocall Observation Date, and the Trigger Percentage may each be lower than the deemed values used for the purposes of these Examples, the actual amounts received by investors may be less than the amounts stated in the Examples below.

AUTOMATIC EARLY EXERCISE

Example 1 – Automatic Early Exercise: *The Reference Price in respect of each Underlying Asset for the first Autocall Observation Date is greater than or equal to its Autocall Level.*

In this Example, the Certificates will be exercised on such Autocall Observation Date, and the Automatic Early Exercise Amount payable per Certificate (of the Nominal Amount) on the Automatic Early Exercise Date immediately following such Autocall Observation Date will be an amount equal to the Autocall Event Amount for the first Autocall Observation Date, i.e., SEK 11,000.

Example 2 – no Automatic Early Exercise: *The Reference Price in respect of one Underlying Asset for the first Autocall Observation Date is less than its Autocall Level and the Reference Price in respect of the other Underlying Asset for such Autocall Observation Date is greater than or equal to its Autocall Level.*

In this Example, the Certificates will not be exercised on such Autocall Observation Date.

SETTLEMENT AMOUNT

Example 3 – positive scenario: *The Certificates have not been exercised on an Applicable Date, and the Final Closing Price in respect of each Underlying Asset is 100 per cent. (100%) or more of its Asset Initial Price.*

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Nominal Amount) on the Maturity Date will be an amount equal to the *product* of (i) the Nominal Amount, *multiplied* by (ii) the Trigger Percentage, i.e., SEK 15,000.

Example 4 – neutral scenario: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price in respect of one Underlying Asset is 99 per cent. (99%) of its Asset Initial Price and the Final Closing Price in respect of the other Underlying Asset is 100 per cent. (100%) or more of its Asset Initial*

Price.

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Nominal Amount) on the Maturity Date will be 100 per cent. (100%) of the Nominal Amount, i.e., SEK 10,000.

Example 5 – negative scenario: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price in respect of one Underlying Asset is 74 per cent. (74%) of its Asset Initial Price and the Final Closing Price in respect of the other Underlying Asset is 75 per cent. (75%) or more of its Asset Initial Price.*

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Nominal Amount) on the Maturity Date will be 74 per cent. (74%) of the Nominal Amount, i.e., SEK 7,400. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a substantial loss of the amount invested in the Certificates.**

Example 6 – negative scenario: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price in respect of one Underlying Asset is zero per cent. (0%) of its Asset Initial Price and the Final Closing Price in respect of the other Underlying Asset is 75 per cent. (75%) or more of its Asset Initial Price.*

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Nominal Amount) on the Maturity Date will be zero per cent. (0%) of the Nominal Amount, i.e., zero. **In this Example, an investor will sustain a total loss of the amount invested in the Certificates.**

under the Securities or hedging transactions relating to the Securities has become (or there is a substantial likelihood in the immediate future that it will become) unlawful or impracticable (in whole or in part), (b) where applicable, if the Calculation Agent determines that certain additional disruption events or adjustment events as provided in the terms and conditions of the Securities have occurred in relation to the underlying asset(s) or (ii) upon notice by a Holder declaring such Securities to be immediately repayable due to the occurrence of an event of default which is continuing.

SECTION D – RISKS																	

D.2	<p>Key risks that are specific to the Issuer</p>	<p>The payment of any amount due on the Securities is subject to our credit risk. The Securities are our unsecured obligations. The Securities are not bank deposits and are not insured or guaranteed by the UK Financial Services Compensation Scheme or any other government or governmental or private agency, or deposit protection scheme in any jurisdiction. The value of and return on your securities will be subject to our credit risk and to changes in the market's view of our creditworthiness.</p> <p>References in Element B.12 above to the "prospects" and "financial or trading position" of the Issuer, are specifically to the Issuer's ability to meet its full payment obligations under the Securities in a timely manner. Material information about the Issuer's financial condition and prospects is included in GSI's annual and interim reports. You should be aware, however, that each of the key risks highlighted below could have a material adverse effect on the Issuer's businesses, operations, financial and trading position and prospects, which, in turn, could have a material adverse effect on the return investors receive on the Securities.</p> <p>The Issuer is subject to a number of key risks:</p> <ul style="list-style-type: none"> • GSI's businesses have been and may continue to be adversely affected by conditions in the global financial markets and economic conditions generally. • GSI's businesses and those of its clients are subject to extensive and pervasive regulation around the world. • GSI's businesses have been and may be adversely affected by declining asset values. This is particularly true for those businesses in which it has net "long" positions, receives fees based on the value of assets managed, or receives or posts collateral. • GSI's businesses have been and may be adversely affected by disruptions in the credit markets, including reduced access to credit and higher costs of obtaining credit. • GSI's market-making activities have been and may be affected by changes in the levels of market volatility. • GSI's investment banking, client execution and investment management businesses have been adversely affected and may continue to be adversely affected by market uncertainty or lack of confidence among investors and CEOs due to general declines in economic activity and other unfavourable economic, geopolitical or market conditions. • GSI's investment management business may be affected by the poor investment performance of its investment products. • GSI may incur losses as a result of ineffective risk management processes and strategies. • GSI's liquidity, profitability and businesses may be adversely affected by an inability to access the debt capital markets or to sell assets or by a reduction in its credit ratings or by an increase in its credit spreads. • A failure to appropriately identify and address potential conflicts of interest could adversely affect GSI's businesses. • A failure in GSI's operational systems or infrastructure, or those of third parties, as well as human error, could impair GSI's liquidity, disrupt GSI's businesses, result in the disclosure of confidential information, damage GSI's reputation and cause losses. • A failure to protect GSI's computer systems, networks and information, and GSI's clients' information, against cyber attacks and similar threats could impair GSI's ability to conduct GSI's businesses, result in the disclosure, theft or destruction of confidential information, damage GSI's

D.6	Key risks that are specific to the Securities	<ul style="list-style-type: none"> • Your capital is at risk. Depending on the performance of the underlying asset(s), you may lose some or all of your investment. • You could also lose some or all of your investment in the Securities where: <ul style="list-style-type: none"> ◦ We (as Issuer) fail or are otherwise unable to meet our payment obligations; ◦ You do not hold your Securities to maturity and the secondary sale price you receive is less than the original purchase price; or ◦ Your Securities are redeemed early due to an unexpected event and the amount you receive is less than the original purchase price. • The estimated value of your Securities (as determined by reference to pricing models used by us) at the time the terms and conditions of your Securities are set on the trade date, will be less than the original issue price of your Securities.

We may discontinue any such listing at any time. • The potential for the value of the Securities to increase is limited as the performance of the underlying asset(s) to which the Securities are linked is capped. • The "worst-of" feature means that you will be exposed to the performance of each underlying asset and, in particular, to the underlying asset which has the worst performance. • Indices which are deemed 'benchmarks' are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, or have other consequences which cannot be predicted. <p><i>Risks associated with Securities linked to underlying asset(s):</i></p> <ul style="list-style-type: none"> • The value and return on the Securities depends on the performance of such underlying asset(s), which may be subject to unpredictable change over time. • Past performance of an underlying asset is not indicative of future performance. • You will not have any rights of ownership in the underlying asset(s), and our obligations under the Securities to you are not secured by any assets. • Following a disruption event, the valuation of the underlying asset(s) may be postponed and/or valued by us (as Calculation Agent) in our discretion. • Following the occurrence of certain extraordinary events in relation to the underlying asset(s) or in relation to index linked securities, following the occurrence of an index adjustment event, depending on the terms and conditions of the particular Securities, amongst other potential consequences, the terms and conditions of your Securities may be adjusted, the underlying asset may be substituted, or the Securities may be redeemed early at the non-scheduled early repayment amount. Such amount may be less than your initial investment and you could lose some or all of your investment. • The performance of shares is dependent upon many unpredictable factors. • You may receive a lower return on the Securities than you would have received from investing in the shares directly because the price of the shares may not include the value of dividends. • The issuer of a share may take any actions in respect of a share without regard to your interests as Holders of the Securities, and any of these actions could negatively affect the value of and return on the Securities. • An investment in the Securities linked to an exchange traded fund

The management company, trustee or sponsor of an ETF may take any actions in respect of such ETF without regard to the interests of the purchasers of the Securities. Any of these actions could have a negative effect on the value of and return on the Securities.</p> <ul style="list-style-type: none"> • The performance of indices is dependent upon many unpredictable factors, including in relation to its underlying components. • You may receive a lower return on the Securities than you would have received from investing in the components of the index directly because the index level may reflect the prices of such index components without including the value of dividends paid on those components. • The sponsor of an index may take any actions in respect of the index without regard to your interests as holders of the Securities, and any of these actions could negatively affect the value of and return on the Securities. • A small basket will generally be more vulnerable to changes in the value of the underlying assets and a change in composition of a basket may have an adverse effect on basket performance. • A high correlation of basket components may have a significant effect on amounts payable on the Securities and the negative performance of a single basket component may outweigh a positive performance of one or more other basket components and may have an impact on the return on the Securities. • Your Securities may be adjusted or redeemed prior to maturity due to a change in law. Any such adjustment may have a negative effect on the value of and return on your Securities; the amount you receive following an early redemption may be less than your initial investment and you could lose some or all of your investment. • The Issuer of your Securities may be substituted with another company. • We may amend the terms and conditions of your Securities in certain circumstances without your consent.

Belopp för Icke-planerad Förtida Inlösen

Icke-planerad förtida inlösen: Värdepapperen kan lösas in före den planerade förfallotiden (i) enligt Emittentens beslutsrätt (a) om Emittenten bedömer att ändringar i tillämplig rätt påverkar Emittentens eller dess närståendes utföranden under Värdepapperen eller hedgningstransaktioner avseende Värdepapperen på ett sådant sätt att detta har blivit (eller om det föreligger betydande sannolikhet för att inom den närmaste framtiden, det kommer att bli) olagligt eller ogenomförbart (helt eller delvis), (b) om tillämpligt, om Beräkningsagenten anser att vissa ytterligare avbrottshändelser eller justeringshändelser enligt villkoren för Värdepapperen har inträffat med avseende på de(n) underliggande tillgången(arna) eller (ii) efter mottagande av meddelande från en Innehavare som förklarar sådana Värdepapper omedelbart uppsagda till återbetalning på grund av inträffandet av en uppsägningsgrundande händelse som alltjämt fortgår.

Beloppet för Icke-planerad Förtida Inlösen som ska betalas på en sådan icke-planerad förtida inlösen ska i sådant fall, för varje Värdepapper, vara ett belopp motsvarande det rimliga marknadsvärdet av Värdepapperet med beaktande av samtliga relevanta omständigheter med avdrag för samtliga kostnader som åsamkas Emittenten eller något av dess närstående företag i samband med sådan förtida inlösen, innefattande också sådana som avser avslutande av någon underliggande och/eller relaterat hedgnings- eller finansieringsarrangemang.

Beloppet för Icke-planerad Förtida Inlösen kan vara lägre än er ursprungliga investering och ni kan därför förlora delar eller hela er investering vid en icke-planerad förtida inlösen.

Avvecklingsbelopp

Om ej dessförinnan utövade i förtid eller köpta och annullerade kommer Avvecklingsbeloppet som ska erläggas på förfallodagen att vara:

Om en Aktiverande Händelse inte har inträffat kommer Avvecklingsbeloppet som ska erläggas avseende varje Värdepapper att beräknas i enlighet med formeln nedan:

$$BB \times \text{Aktiverande Procenttal}$$

Om en Barriärhändelse har inträffat men en Aktiverande Händelse inte har inträffat kommer Avvecklingsbeloppet som ska erläggas avseende varje Värdepapper att beräknas i enlighet med formeln nedan:

$$BB \times \text{Inlösenprocenttal}$$

Om en Barriärhändelse har inträffat och en Aktiverande Händelse har inträffat, kommer Avvecklingsbeloppet som ska erläggas avseende varje Värdepapper att beräknas i enlighet med formeln nedan:

$$BB \times \frac{\text{Slutligt Referensvärde}}{\text{Initialt Referensvärde}}$$

Definierade begrepp som används ovan:

- **Korg:** en korg bestående av varje Underliggande Tillgång.
- **BB:** Beräkningsbelopp, SEK 10 000.

- **Initial Stängningskurs:** avseende en Underliggande Tillgång, Referenskursen för sådan Underliggande Tillgång på den 22 februari 2018, med förbehåll för justering i enlighet med villkoren.

AVSNITT D – RISKER		
D.2	Nyckelriskerna som är specifika för Emittenten	<p>Betalningen av varje belopp som förfaller under Värdepapperen är utsatt för kreditrisken förknippad med oss. Värdepapperen är våra icke-säkerställda förpliktelser. Värdepapperen är inte banksättningar och är inte försäkrade eller garanterade av the UK Financial Services Compensation Scheme eller någon annan stat eller statligt eller privat organ eller någon insättningsgaranti i någon jurisdiktion. Värdet för och avkastningen från dina värdepapper kommer att vara utsatt för vår kreditrisk och för förändringar i marknadens syn på vår kreditvärdighet.</p> <p>Hänvisningarna i Punkt B.12 ovan till Emittentens "utsikter" och "finansiella position eller handelsposition", är specifika i förhållande till Emittentens möjlighet att möta dess fulla betalningsansvar avseende Värdepapperen i tid. Väsentlig information om Emittentens finansiella ställning och framtidsutsikter är inkluderat i GSI:s års- och delårsrapporter. Du bör dock vara medveten om att varje huvudsaklig risk som framgår nedan kan ha en väsentlig negativ påverkan på Emittentens rörelse, verksamhet, finansiella ställning och handelsställning samt framtidsutsikter vilket i sin tur kan ha en väsentlig negativ påverkan på den avkastning på Värdepapperen som investerare erhåller.</p> <p>Emittenten är föremål för flera huvudsakliga risker:</p> <ul style="list-style-type: none"> • GSI:s verksamheter har påverkats och kan fortsätta att påverkas negativt av förhållanden på den globala finansmarknaden och allmänt av ekonomiska förhållanden. • GSI:s verksamheter och dess kunders verksamheter är föremål för omfattande och genomgripande regleringar runt om i världen. • GSI:s verksamheter har påverkats och kan fortsätta att påverkas negativt av sjunkande värden på tillgångar. Detta gäller särskilt för verksamheter med långa positioner, som uppstår ersättning baserat på hanterade tillgångar eller som mottar eller ställer säkerheter. • GSI:s verksamheter har påverkats och kan fortsätta att påverkas negativt av störningar på kreditmarknaderna, inklusive försämrade tillgång till krediter och högre kostnader för erhållande av krediter. • GSI:s market-making-aktiviteter har påverkats och kan fortsätta att påverkas av förändrad volatilitet i marknaden. • GSI:s verksamheter avseende investment banking, kundtransaktioner och investeringsförvaltning har påverkats och kan fortsätta att påverkas av osäkerhet på marknaden eller bristande förtroende hos investerare och verkställande direktörer på grund av minskad marknadsaktivitet och andra oförmånliga förhållanden hänförliga till ekonomi, geopolitik eller marknad. • GSI:s investeringsförvaltning kan påverkas av dåliga investeringsresultat för dess investeringsprodukter. • GSI:s kan lida skada till följd av ineffektiva processer och strategier avseende riskhantering. • GSI:s likviditet, lönsamhet och verksamheter kan påverkas negativt av en
