These final terms (the "**Final Terms**") have been prepared for the purpose of Article 8 (4) of the Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC (the "**Prospectus Regulation**"). The Final Terms must be read in conjunction with the base prospectus dated 30 October 2023, as supplemented from time to time (the "**Base Prospectus**", together with the Final Terms, the "**Prospectus**"). The Base Prospectus comprises a securities note (the "**Securities Note**"), dated 30 October 2023, as supplemented from time to time, and the registration document of UBS AG dated 16 August 2023, as supplemented from time to time, (as approved by the Federal Financial Services Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht* – "**BaFin**")), (the "**Registration Document**"). Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the "**Conditions**") set forth in the Base Prospectus.

These Final Terms must be read in conjunction with the Base Prospectus, including all information incorporated by reference therein and any supplement(s) thereto. Full information on the Issuer and the offer of the Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus, as supplemented from time to time. However, a summary of the individual issue of the Securities is annexed to these Final Terms. The Base Prospectus, any supplement to the Base Prospectus and these Final Terms will be available for viewing at www.ubs.com/keyinvest (or any successor address notified by the Issuer to the Securityholders for this purpose by way of publication on www.ubs.com/keyinvest). Copies may be obtained during normal business hours at the registered offices of the Issuer.

PART A – PRODUCT TERMS

The following “**Product Terms**” of the Securities shall, for the relevant Securities, complete and put in concrete terms the General Conditions for the purposes of such Securities and must be read in conjunction with the General Conditions.

The Product Terms are composed of

Part 1: Key Terms and Definitions of the Securities

Part 2: Special Conditions of the Securities

Product Terms and General Conditions together constitute the “**Conditions**” of the relevant Securities.

Part 1: Product Terms: Key Terms and Definitions of the Securities

The Securities use the following definitions and have, subject to an adjustment according to the Conditions of the Securities, the following key terms, both as described below in alphabetical order. The following does not represent a comprehensive description of the Securities, and should be read in conjunction with the Special Conditions of the Securities. The following use of the symbol "*" in the Key Terms and Definitions of the Securities indicates that the relevant determination will be made by the Calculation Agent or the Issuer, as the case may be, and will be published without undue delay thereafter in accordance with the applicable legal requirements of the relevant jurisdiction.

One (1) unit of the Underlying Currency equals one (1) unit SEK, "**Quanto SEK**".

T.

Termination Amount:

The Termination Amount equals an amount in the Redemption Currency, which is determined by the Calculation Agent at its reasonable discretion and considering the then prevailing Price of the Underlying as the fair market price of a Security at the occurrence of the termination of the Securities.

Term of the Securities:

The Term of the Securities means the period commencing on the Issue Date and ending on the Expiration Date at the Valuation Time.

U.

Underlying:

The Underlying equals the EURO STOXX® Banks (Price) Index (ISIN: EU0009658426, Bloomberg: SX7E) (the "**Index**"), as maintained, calculated and published by STOXX Limited (the "**Index Sponsor**").

In this context, the individual underlying values or components of the Underlying are referred to as a "**Component**" or, as the case may be, the "**Components**".

In this context, the Index Sponsor has control over the provision of the Index (*administrator*) within the meaning of the EU Benchmarks Regulation.

To avoid currency fluctuations in relation to the Underlying that is denominated in a currency other than the Redemption Currency, the Price of the Underlying is expressed on a quanto SEK basis, i.e. the Underlying Currency relating to the Underlying is considered according to amount as a SEK price without conversion in relation to the Price of the Underlying or the Settlement Price (one (1) unit of the Underlying Currency equals one (1) unit SEK, "**Quanto SEK**").

Underlying Calculation Date:

The Underlying Calculation Date means each day, on which (i) the Index Sponsor determines, calculates and publishes the official price of the Index, and (ii) the Components, which are comprised in the Index are, to the extent of at least 80 % of the market capitalisation of all Components, which are comprised in the Index, or of the overall value of the Index, available for trading and quotation on the Relevant Exchange.

Underlying Currency:

The Underlying Currency in relation to the Underlying means Euro ("**EUR**").

One (1) unit of the Underlying Currency equals one (1) unit SEK, "**Quanto SEK**".

V. Valuation Date:

The Valuation Date means the Expiration Date.

If this day is not an Underlying Calculation Date in relation to the Underlying, the immediately succeeding Underlying Calculation Date is the relevant Valuation Date in relation to the Underlying.

Valuation Time:

The Valuation Time equals the time of the official determination of the closing price of the Underlying by the Index Sponsor.

Part 2: Product Terms: Special Conditions of the Securities

§ 1 Security Right

(1) Security Right of the Securityholders

The Issuer hereby warrants to the Securityholder (§ 4 (2)) of each Security relating to the Price of the Underlying in accordance with these Conditions that such Securityholder shall have the right (the "**Security Right**") to receive the Settlement Amount (§ 1 (2)) in the Redemption Currency commercially rounded to two decimal places (the "**Redemption Amount**").

(2) Settlement Amount

The "**Settlement Amount**" is calculated in accordance with the following formula:

$$\text{Calculation Amount} \times \text{Protected Participation} \times \frac{\text{Settlement Price of the Underlying}}{\text{Reference Level of the Underlying}} + \sum_{k=1}^3 \text{Additional Settlement Amount}_{(k)}$$

Whereby:

- (a) if a Kick In Event_(k) (as defined in the section "Conditions of the Securities – Product Terms Part 1: Key Terms and Definitions of the Securities") **has occurred**, the relevant "**Additional Settlement Amount_(k)**" is calculated in accordance with the following formula:

$$\text{Calculation Amount} \times \text{Contingent Participation Factor}_{(k)} \times \frac{\text{Settlement Price of the Underlying}}{\text{Reinvestment Level}_{(k)} \text{ of the Underlying}}$$

- (b) if a Kick In Event_(k) (as defined in the section "Conditions of the Securities – Product Terms Part 1: Key Terms and Definitions of the Securities") has **not** occurred, the "**Additional Settlement Amount_(k)**" is calculated in accordance with the following formula:

$$\text{Calculation Amount} \times \text{Contingent Participation Factor}_{(k)}$$

(3) Determinations and Calculations in connection with the Security Right

Any determinations and calculations in connection with the Security Right, in particular the calculation of the Redemption Amount, will be made by the Calculation Agent. Determinations and calculations made in this respect by the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Securityholders.

§ 2 Coupon Amount

(1) Coupon Amount

Furthermore, the Securityholder is, subject to the number of Kick In Events_(k) occurred, entitled to receive the payment of a Coupon Amount (as defined in the section "Conditions of the Securities – Product Terms Part 1: Key Terms and Definitions of the Securities") in the Redemption Currency. Such Coupon Amount is determined by the Calculation Agent on each Coupon Observation Date in relation to the relevant Coupon Allocation Period_{(i),(k)}. **For the avoidance of doubt**, the occurrence of a Kick In Event_(k) stops the inclusion of the relevant Contingent Participation Factor_(k) for the calculation of the Coupon Amount and, consequently, the Coupon Amount will, after all Kick In Events_(k) have occurred, reduce down to zero.

(2) Payment of the Coupon Amount

The relevant Coupon Amount shall be paid on the respective Coupon Payment Date. The provisions of these Conditions relating to the Redemption Amount (§ 1 (1)) shall apply *mutatis mutandis* to the payment of the Coupon Amount.

(3) Dirty Price

There will be no separate payments with respect to accrued Coupon Amounts. Accrued Coupon Amounts will be reflected in the on-going trading price of the Securities (Dirty Price).

§ 3

What are the key risks that are specific to the Issuer?

Credit risk in relation to UBS AG as Issuer

Each investor in securities issued by UBS AG as Issuer is exposed to the credit risk of UBS AG. The assessment of UBS AG's creditworthiness may be affected by a number of factors and developments. These include UBS Group AG's acquisition of Credit Suisse Group AG and the integration of the groups, UBS's reputation, operational risks, risk management and control processes, market conditions and macroeconomic climate, credit risk exposure to clients and counterparties, material legal and regulatory risks, substantial changes in regulation, UBS AG's success in executing its strategic plans, and liquidity and funding management.

If UBS experiences financial difficulties, FINMA has the power to open restructuring or liquidation proceedings or impose protective measures in relation to UBS Group AG, UBS AG or UBS Switzerland AG, and such proceedings or measures may have a material adverse effect on UBS's shareholders and creditors. If restructuring or liquidation proceedings are instituted against UBS AG, holders of securities may suffer a substantial or **total loss** on the securities.

Section C – Key Information on the Securities

What are the main features of the Securities?

Type and form of the Securities

The Securities are certificates with no capital protection. The Securities are issued in the form of securities in uncertificated and dematerialised book-entry form under Swedish law. The contents (other than the form) of the Securities as well as all rights and duties arising from the Securities are governed by German law.

Rights attached to the Securities; payment profile at scheduled maturity

The Securities provide Securityholders at maturity with a claim for payment of the Redemption Amount in the Redemption Currency. In particular, the Redemption Amount, if any, to be received by the Securityholder at maturity of the Securities depends on the performance of the Underlying and whether or not one or more so-called Kick In Events^(K) have occurred.

A “**Kick In Event_(k)**” shall have occurred if at any time during the Kick In Observation Period the Price of the Underlying is equal to or lower than the respective Kick In Level_(k) (such day being a “**Kick In Date_(k)**”). *For the avoidance of doubt*, more than one Kick In Event_(k) may occur on the same date, but in total, there can be a maximum of three (3) Kick In Events_(k), i.e. for each Kick In Level_(k) a Kick In Event_(k) can be triggered only once.

On the Maturity Date, Securityholders are entitled to receive payment of the “**Redemption Amount**” determined as of the Valuation Date, equal to the sum of:

- (a) the product of (A) the Calculation Amount, (B) the Protected Participation and (C) the quotient of the Settlement Price of the Underlying divided by the Reference Level of the Underlying; and
- (b) the sum of the Additional Settlement Amounts_(k).

For these purposes, an “**Additional Settlement Amount_(k)**” is determined as of the Valuation Date and in relation to each Kick In Level_(k) as follows:

- (i) In case a Kick In Event_(k) **has occurred**, the relevant Additional Settlement Amount_(k) is equal to the product of (A) the Calculation Amount, (B) the Contingent Participation Factor_(k) and (C) the quotient of the Settlement Price of the Underlying divided by the Reinvestment Level_(k) of the Underlying.
- (ii) In case a Kick In Event_(k) **has not occurred**, the relevant Additional Settlement Amount_(k) is equal to the product of (A) the Calculation Amount and (B) the Contingent Participation Factor_(k).

Coupon

Securityholders are entitled to receive payment of a Coupon Amount_(i) in the Redemption Currency on the relevant Coupon Payment Date_(i), conditional, however, upon the performance of the Underlying and as determined by the calculation agent as of the relevant Coupon Observation Date_(i).

The Coupon Amount_(i) is calculated as the difference between (A) the Cumulated Coupon Amount_(i) minus (B) the Cumulated Coupon Amount_(i-1). *For the avoidance of doubt*, the Coupon Observation Date_(i=0) refers to the Fixing Date and the Cumulated Coupon Amount_(i=0) is equal to zero.

The Cumulated Coupon Amount_(i) is equal to the product of:

- (a) the Calculation Amount,
- (b) the Coupon Rate, and
- (c) an amount equal to the sum of, in respect of each Contingent Participation Factor_(k), the product of such Contingent Participation Factor_(k) and the number of calendar days in the relevant Coupon Allocation Period_{(i),(k)} divided by 360.

For these purposes, “**Coupon Allocation Period_{(i),(k)}**” means, in relation to a Coupon Observation Date_(i) and for each Contingent Participation Factor_(k), the number of calendar days from (but excluding) the Fixing Date, to (and including) the earlier of (i) such Coupon Observation Date_(i) or (ii) the respective Kick In Date_(k) (if any). *For the avoidance of doubt*, once a Kick In Event_(k) occurs, the number of calendar days in the relevant Coupon Allocation Period_{(i),(k)} in respect of Contingent Participation Factor_(k) shall be fixed and shall not increase for the remaining lifetime of the Securities.

For the avoidance of doubt, the Coupon Amount may even be equal to zero.

The Securities are currency hedged at maturity, i.e. although the Price of the Underlying is determined in the Underlying Currency, such Price of the Underlying will be converted 1:1 into the Redemption Currency (Quanto SEK).

*) (Quanto SEK)

The Issuer is entitled to terminate the Securities with immediate effect if an (extraordinary) termination event occurs. Examples of (extraordinary) termination events include the discontinuation of the determination/publication of the Price of an Underlying or the occurrence of a change in law. In such case, the payable termination amount payable to Securityholders may be significantly lower than the capital invested by Securityholders for purchasing the Securities (including the transaction costs).

Relative seniority of the Securities in the Issuer's capital structure in the event of insolvency

The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking pari passu among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law.

Restrictions on the free transferability of the Securities

The Securities are freely transferable.

Where will the Securities be traded?

It is intended that application for listing of the Securities on the multilateral trading facility Nasdaq First North Sweden will be made.

What are the key risks that are specific to the Securities?

The Securityholders are exposed to the risk of a bail-in. In case FINMA as supervisory authority in respect of the Issuer exercises resolution measures against the Issuer and writes down or converts the Securities into common equity of the Issuer, Securityholders would have no further claim against the Issuer under the Securities.

The Securities are not protected by any statutory or voluntary deposit guarantee scheme. The Issuer's obligations under the Securities are not protected by any statutory or voluntary deposit protection scheme or compensation scheme. Further, no third party guarantees or commitments have been provided in respect of the Issuer's obligations under the Securities. Accordingly, in the event of insolvency of the Issuer, investors may thus experience **a total loss of their investment in the Securities.**

Specific risks related to the dependence on the Underlying. The Redemption Amount payable in accordance with the Conditions of the Securities depends on the performance of the Underlying. If the maximum number of Kick In Events in respect of the Securities has occurred and, consequently, the aggregate participation (reflected by the Protected Participation Factor and the Contingent Participation Factor) in the Underlying is 100 %, the Redemption Amount could in case of an unfavourable performance of the Underlying even be equal to zero. In such case, the Securityholder will suffer **a total loss of the invested capital.**

Specific risks related to the Participation Factor. If, due to the non-occurrence of either one or more Kick In Events, the aggregate participation is lower than 100 %, Securityholders participate in the relevant performance of the Underlying only by the proportion of such lower participation.

Specific risks related to currency exchange rates. Potential investors should be aware that the Settlement Price of the Underlying determined on the basis of an Underlying Currency other than the Redemption Currency needs to be converted into the Redemption Currency by using a currency exchange rate fixed at the time of issuance of the Securities (so-called "quanto"-feature). Potential investors should be aware that there may be favourable developments in the value of the Underlying Currency against the Redemption Currency. Therefore, the "quanto"-feature of the Securities may preclude the investors from participating in such favourable developments (i.e., because the fixed currency exchange rate used for the

purposes of valuing the Underlying in the Redemption Currency is less favourable than the currency exchange rate prevailing in the market at such time) and, therefore, reduce the value of the Securities.

Specific risks related to no further participation in the performance of the Underlying following the termination and early redemption of the Securities. Potential investors should be aware that the Securities may, pursuant to the Conditions of the Securities, be terminated and redeemed early in a number of circumstances prior to the Valuation Date. In case of such termination and early redemption of the Securities, the Securityholder is entitled to demand the payment of an amount in the Redemption Currency in relation to this termination and early redemption. However, such amount can be considerably below the amount which would be payable at the scheduled end of the term of the Securities and, if it is lower than the invested capital, Securityholders may even suffer **a total loss of the invested capital**.

Specific risks related to reinvestment. The Securityholders bear the risk that the cash amount received by the Securityholder following a termination and early redemption of the Securities (if any) can only be reinvested by such Securityholder for a term comparable with the scheduled term of the Securities only at market conditions which are less favourable than those prevailing at the time of the acquisition of the Securities. As a result, the yield achieved by this reinvestment may be significantly lower than the return expected by the Securityholder with the purchase of the Securities. Moreover, the likelihood of a loss of such amounts reinvested may have increased significantly.

Specific risks related to the linkage of the payment of conditional Coupon Amounts to the performance of the Underlying. Whether Securityholders are entitled to receive any Coupon Amount in accordance with the Conditions of the Securities, depends on the performance of the Underlying. The Coupon Amount (if any) in respect of each Coupon Observation Date accrues on the aggregate Contingent Participation Factor percentage of the Calculation Amount in respect of which a Kick In Event has not occurred. Consequently, the earlier a Kick In Event occurs, the lower will be any Coupon Amount. If the maximum number of Kick In Events in respect of the Securities occurs, the Coupon Amount could, in case all Kick In Events occur at the beginning of the term of the Securities, be very low or even be equal to zero. Therefore, Securityholders bear the risk that they do not receive payment of any Coupon Amount in respect of the Securities.

Specific risks related to the pricing of the Securities. Potential investors bear the risk that the market price of the Securities may fluctuate during the term of the Securities, including, without limitation, as a result of any changes in the performance of the Underlying or any changes in the volatility of the Underlying. Accordingly, Securityholders bear the risk that if they can sell any Securities prior to their due date, the sale proceeds may fall below (including significantly below) the amount of capital initially invested in the Securities and investors would then **lose some or all of the invested capital**.

Specific risks related to the trading in the Securities / Illiquidity. Potential investors bear the risk that there is no liquid market for trading in the Securities. Due to their structured nature and linkage to the Underlying, the Securities would generally have a more limited secondary market than conventional debt securities. This means that they may not be able to sell the Securities at a time of their own choosing. This could, in turn, result in potential investors receiving a lower sale price than they would have received had a liquid market existed.

Specific risks related to potential conflicts of interest of the Issuer and its affiliates. The Issuer and its affiliates may have commercial interests that conflict with those of the Securityholders (e.g. as a result of the Issuer's involvement in other transactions or the Issuer's existing business relationship with the issuer of the Underlying) and that may impact the value and/or trading of the Securities. In turn, this could result in Securityholders receiving less when selling any Securities they hold than they would have received but for such conflicts of interest and/or **even suffering a partial loss of the invested capital**.

Specific risks related to hedging transactions entered into by the Issuer. If the Issuer enters into hedging transactions in connection with the Securities and such hedging transactions are unwound, this could have an impact on the price of the Underlying and, therefore, on any amounts payable to the Securityholders in respect of the Securities. In such cases, Securityholders could even suffer **a partial loss of the invested capital**.

Risk of fluctuations in the value of the Underlying. Securityholders are subject to the risks related to the Underlying in respect of the Securities, whose performance is subject to fluctuations. Therefore, Securityholders cannot foresee the value of the Securities on a certain day in the future. Likewise, the historical data on an Underlying does not allow for any conclusions to be drawn about the future performance of an Underlying and the Securities. An Underlying may have only a short operating history or may have been in existence only for a short period of time and may deliver results over the longer term that may be lower than originally expected. When the Securities are redeemed, exercised or otherwise disposed of on a certain day, substantial losses in value might occur in comparison to a disposal at a later or earlier point in time. The more volatile an Underlying is, the less predictable the amount to be received by the Securityholders. In case of an unfavourable development of the price of the Underlying, the **amount received** by the Securityholders **may be very low or even be equal to zero**.

Section D – Key Information on the offer of Securities to the public and/or the admission to trading on a regulated market

Under which conditions and timetable can I invest in this Security?

It has been agreed that, on or after the respective Issue Date of the Securities, the Manager may purchase Securities and shall place the Securities for sale in Sweden (the “**Public Offer Jurisdiction(s)**”) at an amount equal to 100 % of the Nominal Amount (the “**Issue Price**”) plus an offering premium of up to 2 % of the Nominal Amount under terms subject

to change in the Public Offer Jurisdiction(s) during the Subscription Period. The Issue Price was fixed at the start of the public offer of the Securities. After closing of the Subscription Period, the selling price will then be adjusted on a continual basis to reflect the prevailing market situation.

The total expenses of the issue and/or offer are not separately identifiable and included in the general operating expenses of the Issuer.

The Securities may be subscribed from the Manager during normal banking hours between 8 March 2024 and 18 April 2024 (17:30 Stockholm time) (the "**Subscription Period**"). The Issue Price per Security is payable on the Initial Payment Date. The Issuer reserves the right to early close or to extend the Subscription Period if market conditions so require.

Who is the offeror and/or the person asking for admission to trading?

Offeror: UBS Europe SE, a stock corporation incorporated under German law and domiciled in Germany (the "**Manager**").

Why is this Prospectus being produced?

Use and estimated net amount of the proceeds

The Issuer intends to issue and offer the Securities to the public in order to raise funding for general business purposes of the UBS Group. The net amount of the proceeds are not quantifiable.

Underwriting agreement(s)

It has been agreed that the Manager shall underwrite the Securities on or after the respective Issue Date by means of an underwriting agreement and shall place them for sale under terms subject to change in the Public Offer Jurisdiction(s).

Most material conflicts of interest

The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Underlying, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations.

Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full.

¹ Från och med andra kvartalet 2022 har *Rörelseresultat* bytt namn till *Totala intäkter* och exkluderar *Kreditförlustkostnad / (frigörande)*, som nu presenteras separat i Resultaträkningen. Information från tidigare perioder återspeglar den nya presentationsstrukturen, utan påverkan på *Rörelsevinst / (förlust) före skatt* och *Nettoresultat / (förlust) hänförlig till aktieägarna*.

² Information för året som slutade den 31 december 2020 har hämtats från årsredovisningen 2021.

³ Hävstångsrelationsnämnare och hävstångsrelationer för respektive perioder under 2020 återspeglar inte effekterna av det tillfälliga undantaget som tillämpades från den 25 mars 2020 fram till den 1 januari 2021 som beviljades av FINMA i samband med covid-19.

⁴ Baserat på tillämpliga schweiziska SRB-regler gällande från och med den 1 januari 2020.

⁵ Efter förvärvet av Credit Suisse Group och motsvarande ytterligare informationskrav enligt FINMA-cirkulär 2016/1 "Disclosure - banks", redovisade UBS AG likviditetstäckningsgraden och den stabila nettofinansieringskvoten på konsoliderad basis för första gången under andra kvartalet 2023.

⁶ Den redovisade kvoten representerar ett kvartalsgenomsnitt och beräknas baserat på ett genomsnitt av 63 datapunkter under det tredje kvartalet 2023.

⁷ Består av investerade tillgångar inom Global Wealth Management, Asset Management och Personal & Corporate Banking. Från och med andra kvartalet 2023, inkluderar investerade tillgångar investerade tillgångar från intresseföretag i affärsdivisionen Asset Management, för att bättre återspegla affärsstrategin. Jämförelsetalen har räknats om för att återspegla denna förändring.

Vilka är de viktigaste riskerna som är specifika för Emittenten?

Kreditrisk i relation till UBS AG som Emittent

Varje investerare i värdepapper som emitterats av UBS AG är utsatt för UBS AG:s kreditrisk. Bedömningen av UBS AG:s kreditvärdighet kan påverkas av ett antal faktorer och utvecklingar. Dessa omfattar UBS Group AG:s förvärv av Credit Suisse Group AG och integrationen av koncernerna, UBS anseende, operativa risker, riskhantering och kontrollprocesser, marknadsvillkor och makroekonomiskt klimat, kreditexponering mot klienter och motparter, väsentliga rättsliga och lagstiftningsmässiga risker, betydande förändringar i regleringen, UBS AG:s framgångar i genomförandet av sina strategiska planer samt likviditets- och finansieringshantering.

Om UBS erfar finansiella svårigheter har FINMA befogenheten att starta resolutions- eller likvidationsförfaranden eller införa skyddsåtgärder avseende UBS Group AG, UBS AG eller UBS Switzerland AG, och sådana förfaranden eller åtgärder kan ha en betydande negativ inverkan för UBS:s aktieägare och borgenärer. Om omstrukturerings- eller avvecklingsförfaranden beslutas gentemot UBS AG, kan innehavare av värdepapper lida en väsentlig eller **fullständig förlust** av värdepapperna.

Avsnitt C – basfakta om Värdepappren

Vilka är Värdepapperens huvudegenskaper?

Typ av Värdepapper och deras form

Värdepappren är certifikat utan kapitalskydd. Värdepappren emitteras i form av värdepapper i ocertifierad och icke fysisk bokningsform enligt svensk lagstiftning. Värdepapprens innehåll (utom formen) samt alla rättigheter och skyldigheter som följer av Värdepappren regleras av tysk lag.

Rättigheter som följer med Värdepapperen; utbetalningsprofil vid planenlig löptid

Värdepapperen ger Värdepappersinnehavaren vid Förfallodagen en rätt till betalning av Inlösenbeloppet i Inlösenvalutan. I synnerhet beror storleken på det eventuella Inlösenbelopp som Värdepappersinnehavaren ska erhålla när Värdepapperen förfaller till betalning på utvecklingen av de Underliggande och huruvida en eller flera så kallade Kick In-händelser_(k) har inträffat eller inte.

En "Kick-in-händelse" ska ha inträffat, om Priset på den Underliggande vid något tillfälle under Kick-in-observationsperioden är lika med eller lägre än respektive Kick-in-nivå_(k) (en sådan dag är en "Kick-in-dag_(k)"). För att undvika missförstånd kan mer än en Kick-in-händelse_(k) inträffa på samma datum, men totalt kan det finnas maximalt tre (3) Kick-in-händelser_(k), dvs. för varje Kick-in-nivå_(k) kan en Kick-in-händelse_(k) endast utlösas en gång.

På Förfallodagen är Värdepappersinnehavaren berättigade till att erhålla betalning för "Inlösenbeloppet", som fastställs på Värderingsdagen lika med summan av:

- produkten av (A) Beräkningsbeloppet, (B) den Skyddade Deltagandefaktorn och (C) kvoten av Avräkningskursen för den Underliggande dividerat med Referensnivån för den Underliggande; och
- summan av de Ytterligare Avräkningsbeloppen_(k).

För dessa ändamål fastställs ett "Ytterligare Avräkningsbelopp_(k)" per Värderingsdagen och i förhållande till varje Kick-in-nivå_(k) enligt följande:

- Om en Kick-in-händelse_(k) har inträffat, är det relevanta Ytterligare Avräkningsbeloppet_(k) lika med produkten av (A) Beräkningsbeloppet och (B) Villkorad Deltagandefaktor_(k) och (C) kvoten av Avräkningskursen på den Underliggande dividerat med Återinvesteringsnivån_(k) på den Underliggande.
- Om det inte har inträffat en Kick-in-händelse_(k), är det relevanta Ytterligare Avräkningsbeloppet_(k) lika med produkten av (A) Beräkningsbeloppet och (B) Villkorad Deltagandefaktor_(k).

Kupong

Värdepappersinnehavaren är berättigade till att erhålla betalning av relevant Kupongbelopp_(i) i Inlösenvalutan på relevant Kupongutbetalningsdag_(i), emellertid beroende på utvecklingen för den Underliggande och som fastställts av beräkningsagenten på det relevanta Kupongobservationsdagen_(i).

Kupongbeloppet_(i) beräknas som skillnaden mellan (A) det Ackumulerade Kupongbeloppet_(i) minus (B) det Ackumulerade Kupongbeloppet_(i-1). För att undvika missförstånd, hänvisar Kupongobservationsdagen_(i=0) till Fastställsedagen och det Ackumulerade Kupongbeloppet_(i=0) är lika med noll.

Det Ackumulerade Kupongbeloppet_(i) är lika med produkten av:

- Beräkningsbeloppet,
- Kupongräntan, och
- ett belopp som är lika med summan av, för varje Villkorad Deltagandefaktor_(k), produkten av en sådan Villkorad Deltagandefaktor_(k) och antalet kalenderdagar i den relevanta Kupongtilldelningsperioden_{(i),(k)} dividerat med 360.

I dessa sammanhang avser "Kupongtilldelningsperiod_{(i),(k)}", i förhållande till ett Kupongobservationsdag_(i) och för varje Villkorad Deltagandefaktor_(k), antalet kalenderdagar från (men exklusive) Fastställsedagen, till (och inklusive) det tidigare av (i) sådan Kupongobservationsdag_(i) eller (ii) respektive Kick-in-dag_(k) (om någon). För att undvika missförstånd, när en Kick-in-händelse_(k) inträffar, ska antalet kalenderdagar i den relevanta Kupongtilldelningsperioden_{(i),(k)} med avseende på Villkorad Deltagandefaktor_(k) fastställas och kan inte öka under den återstående livstiden av Värdepapperen.

För att undvika tvivel kan Kupongbeloppet till och med vara lika med noll.

Värdepapperen är valutahedgade vid löptidens utgång, dvs. även om Priset på den Underliggande fastställs i den Underliggande Valutan, omräknas Priset på den Underliggande med kvoten 1:1 till Inlösenvalutan (Quanto SEK).

*) (Quanto SEK)

Emittenten är berättigad till att säga upp Värdepapperen med omedelbar verkan om en (extraordinär) händelse som föranleder uppsägning av Värdepapperen inträffar. Exempel på (extraordinära) händelser som föranleder uppsägning av Värdepapperen inkluderar att fastställandet/publiceringen av Priset på en Underliggande upphör eller att en lagändring inträffar. Det betalbara beloppet vid uppsägning av Värdepapperen som är betalbart till Värdepappersinnehavarna kan i sådant fall vara avsevärt lägre än det kapital som investerades av Värdepappersinnehavarna vid förvärvet av Värdepapperen (inklusive transaktionskostnader).

Värdepapperens relativa senioritet i Emittentens kapitalstruktur i händelse av insolvens

Värdepapperen utgör direkta, icke-säkerställda och icke-efterställda förpliktelser för Emittenten, som rangordnas lika sinsemellan och med alla andra nuvarande och framtida icke-säkerställda och icke-efterställda förpliktelser för Emittenten, annat än skyldigheter som regleras i tvingande lagstiftning.

Restriktioner för den fria överlåtbarheten för Värdepapperen

Värdepapperen är fritt överlåtbara.

Var kommer Värdepapperen att handlas?

Vi avser att ansöka om notering av Värdepapperen på den multilaterala handelsplattformen *Nasdaq First North Sweden*.

Vilka är de allvarligaste riskerna som är specifika för Värdepapperen?

Värdepappersinnehavarna är exponerade för risken för skuldnedskrivning. I händelse av att FINMA, i egenskap av tillsynsmyndighet för finansmarknaderna i fråga om Emittenten, vidtar resolutionsåtgärder mot denne och gör en nedskrivning av värdet på Värdepapperen, eller konverterar Värdepapperen till primärkapital, har inte Värdepappersinnehavarna några ytterligare krav mot Emittenten av Värdepapperen.

Det finns inget i lag föreskrivet system för garanti av insättningar eller något insättningsgarantisystem på frivillig basis som ger dig som investerare skydd för Värdepapperen. Emittentens förpliktelser som är förenade med Värdepapperen garanteras inte genom något lagstadgat eller frivilligt system för garanti av insättningar, eller genom kompensationsplaner av något slag. Vidare har inga garantier eller löften från tredje part utfärdats beträffande Emittentens förpliktelser som är förenade med Värdepapperen. Om Emittenten blir insolvent kan följaktligen Värdepappersinnehavare lida **en total förlust av sina investeringar i Värdepapperen.**

Specifika risker som hänför sig till beroendet av den Underliggande. Inlösenbeloppet som utbetalas i enlighet med Villkoren för Värdepapperen är beroende av utvecklingen av den Underliggande. Om det maximala antalet Kick-in-händelser avseende Värdepappererna har inträffat och följaktligen det sammanlagda deltagandet (vilket återspeglas av Skyddad Deltagandefaktor och Villkorad Deltagandefaktor) i Underliggande uppgår till 100 %, så kan Inlösenbeloppet i händelse av en ogynnsam utveckling av den Underliggande till och med vara lika med noll. I sådant fall kommer Värdepappersinnehavaren att lida **en total förlust av det investerade kapitalet.**

Specifika risker relaterade till Deltagandefaktorn. Om, på grund av att antingen en eller flera Kick-in-händelser inte inträffar, det sammanlagda deltagandet är lägre än 100 %, deltar Värdepappersinnehavaren i relevant utveckling av Underliggande endast med den andel som motsvarar ett sådant lägre deltagande.

Specifika risker som hänför sig till valutakurser. Potentiella investerare bör vara medvetna om att Avräkningskursen för den Underliggande som fastställs utifrån en annan Underliggande Valuta än Inlösenvalutan behöver omräknas till Inlösenvalutan enligt valutakursen som gäller vid emissionen av Värdepapperen (en så kallad quanto-egenskap). Vi vill uppmärksamma potentiella investerare på att det kan förekomma gynnsamma utvecklingar av värdet på den Underliggande Valutan i förhållande till Inlösenvalutan. Därför kan quanto-egenskapen för Värdepapperen hindra investerarna från att kunna ta del av sådana gynnsamma utvecklingar (dvs. eftersom den fasta valutakurs som används i syfte att uppskatta värdet på den Underliggande i Inlösenvalutan är mindre gynnsam än den valutakurs som råder på marknaden vid en sådan tidpunkt) och, därför, minska värdet på Värdepapperen.

Specifika risker som hänför sig till inget fortsatt deltagande i utvecklingen av den Underliggande efter uppsägning och förtida inlösen av Värdepapperen. Potentiella investerare bör vara medvetna om att Värdepapperen kan, enligt Villkoren för Värdepapperen, under flera olika omständigheter sägas upp och förtidsinlösas innan Värderingsdagen. I händelse av sådan uppsägning och förtida inlösen av Värdepapperen är Värdepappersinnehavaren berättigad till att begära utbetalning av en beloppet i Inlösenvalutan i förhållande till uppsägningen och den förtida inlösen av Värdepapperen. Sådant belopp kan emellertid vara avsevärt lägre än det belopp som skulle ha utbetalats vid det planerade slutet av löptiden för Värdepapperen, och Värdepappersinnehavarna kan till och med lida **en total förlust av det investerade kapitalet** om beloppet är lägre än det kapital som investerats.

Specifika risker som hänför sig till återinvestering. Värdepappersinnehavarna bär risken att det kontantbelopp som erhålles av Värdepappersinnehavaren efter en uppsägning och förtida inlösen av Värdepapperen (i förekommande fall) endast kan återinvesteras av sådan Värdepappersinnehavare för en löptid jämförbar med den planenliga löptiden för Värdepapperen, och endast till marknadsvillkor som är mindre gynnsamma än de som rådde vid tidpunkten för förvärvet av Värdepapperen. Den avkastning som uppnås genom denna återinvestering kan följaktligen vara avsevärt lägre jämfört med den avkastning som Värdepappersinnehavaren förväntade sig vid förvärvet av Värdepapperen. Dessutom kan sannolikheten för en förlust av sådana belopp som återinvesteras ha ökat avsevärt.

Specifika risker som hänför sig till kopplingen mellan betalningen av villkorat Kupongbelopp och utveckling av den Underliggande. Huruvida Värdepappersinnehavare har rätt att erhålla något Kupongbelopp i enlighet med Villkoren för Värdepapperen beror på den Underliggandes utveckling. Kupongbeloppet (om något) för varje Kupongobservationsdag ackumuleras på den sammanlagda procentsatsen för Villkorad Deltagandefaktor av Beräkningsbeloppet för vilken en Kick-in-händelse inte har inträffat. Följaktligen, ju tidigare en Kick-in-händelse inträffar, desto lägre blir Kupongbeloppet. Om det maximala antalet Kick-in-händelser avseende Värdepappererna inträffar kan Kupongbeloppet, om alla Kick-in-händelser inträffar i början av Värdepapperens löptid, vara mycket lågt eller till och med lika med noll. Därför bär Värdepappersinnehavarna risken att de inte erhåller betalning av något Kupongbelopp avseende Värdepappererna.

Specifika risker som hänför sig till prissättningen av Värdepapperen. Potentiella investerare bär risken att marknadspriset på Värdepapperen kan fluktuera under Värdepapperens löptid, inklusive, utan begränsning, till följd av eventuella förändringar i utvecklingen av den Underliggande eller eventuella förändringar i volatiliteten av den Underliggande. Följaktligen bär Värdepappersinnehavarna risken att om de säljer Värdepapper innan deras förfallodag kan försäljningsintäkterna sjunka till under (inklusive avsevärt under) det kapitalbelopp som ursprungligen investerades i Värdepapperen, och investerarna skulle då **förlora en del av eller hela det investerade kapitalet**.

Specifika risker som hänför sig till handeln med Värdepapperen/svag likviditet. Potentiella investerare bär risken att det inte finns någon likvid marknad för handel med Värdepapperen. Generellt sett är andrahandsmarknaden för Värdepapperen mer begränsad än för konventionella skuldpaper på grund av Värdepapperens strukturerade beskaffenhet och koppling till den Underliggande. Det innebär att det inte är säkert att investeraren kan sälja Värdepapperen vid en tidpunkt efter eget val. Detta kan, i sin tur, medföra att potentiella investerare får ett lägre försäljningspris än de skulle fått om det hade funnits en likvid marknad.

Specifika risker som hänför sig till intressekonflikter för Emittenten och dess närtstående bolag. Emittenten och dess närtstående bolag kan ha kommersiella intressen som står i strid med Värdepappersinnehavarnas (t.ex. som ett resultat av Emittentens deltagande i andra transaktioner eller Emittentens befintliga affärsförhållande med emittenten av den Underliggande), och som kan påverka värdet på och/eller handeln med Värdepapperen. Detta kan, i sin tur, medföra att Värdepappersinnehavarna erhåller mindre när de säljer Värdepapper de innehar än de skulle erhållit om sådan intressekonflikt inte hade förelagat, och/eller till och med lida en delförlust av det investerade kapitalet.

Specifika risker som hänför sig till säkringstransaktioner som Emittenten ingått. Om Emittenten ingår säkringstransaktioner i samband med Värdepapperen och sådana säkringstransaktioner avvecklas, kan detta påverka priset på den Underliggande och därmed eventuella belopp som ska betalas till Värdepappersinnehavarna avseende Värdepapperen. I sådana fall kan Värdepappersinnehavare till och med lida **en partiell förlust av det investerade kapitalet**.

Risk för fluktuationer i värdet på den Underliggande. Värdepappersinnehavarna är föremål för de risker som hänför sig till den Underliggande med avseende på Värdepapperen, vars utveckling är föremål för fluktuationer. Värdepappersinnehavarna kan därför inte förutse värdet på Värdepapperen en viss dag i framtiden. På samma sätt gör de historiska uppgifterna om en Underliggande inte det möjligt att dra några slutsatser om den framtida utvecklingen för en Underliggande och Värdepapperen. En Underliggande kan bara ha en kort rörelsehistorik eller kan ha funnits endast under en kort tidsperiod och kan leverera resultat på längre sikt som kan vara lägre än vad som ursprungligen förväntades. När Värdepapperen löses in, när de med Värdepapperen förenade rättigheterna utövas, eller när Värdepapperen på annat sätt avyttras på en viss dag kan det uppstå en väsentlig värdeförlust jämfört med om Värdepapperen hade avyttrats vid ett senare eller tidigare tillfälle. Ju mer volatil en Underliggande är, desto mindre förutsägbart blir det belopp som

Värdepappersinnehavarna ska erhålla. I händelse av en ogynnsam utveckling av priset på den Underliggande kan det **belopp som kommer att erhållas** av Värdepappersinnehavarna **vara mycket lågt, eller till och med lika med noll**.

Avsnitt D – basfakta om erbjudandet av Värdepapper för allmänheten och/eller upptagande till handel på en reglerad marknad

Enligt vilka villkor och enligt vilken tidsplan kan jag investera i detta Värdepapper?

Överenskommelse har träffats att Managern, på eller efter respektive Emissionsdag för Värdepapperen, får köpa Värdepapper och ska placera Värdepapperen för försäljning in Sverige ("**Jurisdiktion(erna) för Erbjudande till Allmänheten**"), till ett belopp som motsvarar 100 % av det Nominella Beloppet ("**Emissionskursen**") plus en erbjudandepremie på upp till 2 % av det Nominella Beloppet på villkor som kan komma att ändras inom Jurisdiktion(erna) för Erbjudande till Allmänheten under Teckningsperioden. Emissionskursen var fastställd vid starten för erbjudandet till allmänheten av Värdepapperen. Efter att Teckningsperioden avslutats kommer försäljningskursen att justeras kontinuerligt för att reflektera den rådande marknadssituationen.

De sammanlagda kostnaderna för emissionen och/eller erbjudandet kan inte särskiljas och ingår i Emittentens allmänna driftskostnader.

Värdepapperen ska kunna tecknas från Managern under normala öppethållandetider för banker under 8 mars 2024 och 18 april 2024 (17:30 Stockholmstid) ("**Teckningsperioden**"). Emissionskursen för varje Värdepapper ska betalas den Initial Betalningsdag. Emittenten förbehåller sig rätten att tidigare avsluta eller att förlänga Teckningsperioden om marknadsförhållandena så erfordrar.

Vem är erbjudaren och/eller personen som ansöker om upptagande till handel?

Erbjudare: UBS Europe SE, ett aktiebolag bildat enligt tysk rätt med säte i Tyskland ("**Manager**").

Varför har Prospektet tagits fram?

Användning och uppskattning av nettointäkt

Emittenten avser att emittera Värdepapperen och erbjuda dem för allmänheten i syfte att skaffa medel för UBS-koncernens allmänna rörelseändamål. Nettointäkterna är inte kvantifierbara.

Garantiavtal ("underwriting agreement**")**

En överenskommelse har träffats om att Managern fullt ut ska underteckna en nyemission av Värdepapperen på eller efter respektive Emissionsdag genom en garantiavtal ("**underwriting**"), och erbjuda Värdepapperen till försäljning enligt villkor med ändringar förbehållna i Jurisdiktion(erna) för Erbjudande till Allmänheten.

De mest väsentliga intressekonflikterna

Emittenten och dess dotterbolag kan ingå transaktioner som relaterar till Värdepapperen på ett eller annat sätt, antingen för egen räkning eller på uppdrag av en kund. Sådana transaktioner är inte nödvändigtvis gynnsamma för Värdepappersinnehavarna, och kan ha såväl en positiv som en negativ effekt på värdet av den Underliggande och, följaktligen, på värdet av Värdepapperen. Vidare kan dotterbolag till Emittenten vara motparter i hedgningstransaktioner som relaterar till Emittentens förpliktelser under Värdepapperen. Som ett resultat kan intressekonflikter uppstå mellan dotterbolag till Emittenten såväl som mellan dessa bolag och investerare, med avseende på skyldigheter beträffande beräkningen av kursen för Värdepapperen och andra därmed förknippade fastställanden.

Inom ramen för erbjudandet och försäljningen av Värdepapperen, kan Emittenten eller dotterbolag direkt eller indirekt betala arvoden av olika storlek till tredje parter, såsom distributörer eller investeringsrådgivare, eller erhålla arvoden av olika storlek, inklusive sådana som tas ut i samband med distribution av Värdepapperen, från tredje parter. Potentiella investerare bör vara medvetna om att Emittenten kan behålla arvoden helt eller delvis.
